Financial Management Systems Requirements Manual
Volume 3, Property, Plant and Equipment

August 2014

Strategy, Policy and Requirements

SUBJECT: Description of Requirement Changes

The complete listing and description of the requirements changes, deletions, and additions by chapters and systems requirements can be found below.

All changes in this volume are denoted by bold blue font.

VOLUME 3 - Property, Plant and Equipment		
Req ID	**Change Type and Description**	**Reason for Change**
03.01.003	**D - Invalid Requirement**	**Broad Policy Guidance. Not programmable or testable.**
03.01.006	**C - Authoritative Source/Reference Updated**	
03.01.013	**D - Invalid Requirement**	**Broad Policy Guidance. Not programmable or testable.**
03.01.018	**D - Invalid Requirement**	**Broad Policy Guidance. Not programmable or testable.**
03.01.021	**D - Invalid Requirement**	**Broad Policy Guidance. Not programmable or testable.**
03.01.025	**C - Authoritative Source/Reference Updated**	
03.01.026	**C - Authoritative Source/Reference Updated**	
03.01.027	**C - Authoritative Source/Reference Updated**	
03.01.028	**C - Authoritative Source/Reference Updated**	
03.01.029	**D - Duplicate Requirement Deleted**	**Duplicate of 03.01.028 and 03.01.030.**
03.01.030	**C - Authoritative Source/Reference Updated**	
03.01.031	**D - Authoritative Source/Reference Deleted**	**OMB Circular A-123 Appendix D has rendered the JFMIP and OFFM documents obsolete.**

VOLUME 3 - Property, Plant and Equipment

Req ID	Change Type and Description	Reason for Change
03.01.032	D - Not Supported by a Correct Source/Reference	Broad Policy Guidance. Not programmable or testable.
03.01.033	C - Authoritative Source/Reference Updated	
03.01.034	C - Authoritative Source/Reference Updated	
03.01.035	C - Authoritative Source/Reference Updated	
03.01.036	D - Invalid Requirement	Broad Policy Guidance. Not programmable or testable.
03.01.037	D - Authoritative Source/Reference Deleted	OMB Circular A-123 Appendix D has rendered the JFMIP and OFFM documents obsolete.
03.01.038	C - Authoritative Source/Reference Updated	
03.01.039	C - Authoritative Source/Reference Updated	
03.01.041	C - Authoritative Source/Reference Updated	
03.01.042	C - Authoritative Source/Reference Updated	
03.01.043	C - Authoritative Source/Reference Updated	
03.01.044	D - Invalid Requirement	Broad Policy Guidance. Not programmable or testable.
03.01.045	C - Authoritative Source/Reference Updated	
03.01.046	D - Invalid Requirement	Broad Policy Guidance. Not programmable or testable.
03.01.047	D - Authoritative Source/Reference Deleted	OMB Circular A-123 Appendix D has rendered the JFMIP and OFFM documents obsolete.
03.01.048	C - Authoritative Source/Reference Updated	
03.01.049	C - Authoritative Source/Reference Updated	
03.01.050	C - Authoritative Source/Reference Updated	
03.01.051	C - Authoritative Source/Reference Updated	
03.01.052	C - Authoritative Source/Reference Updated	
03.01.053	C - Authoritative Source/Reference Updated	

VOLUME 3 - Property, Plant and Equipment		
Req ID	**Change Type and Description**	**Reason for Change**
03.01.058	C - Authoritative Source/Reference Updated	
03.01.064	D - Not Supported by a Correct Source/Reference	Broad Policy Guidance. Not programmable or testable.
03.01.066	D - Authoritative Source/Reference Deleted	OMB Circular A-123 Appendix D has rendered the JFMIP and OFFM documents obsolete.
03.01.068	A - New Based on Review of an Existing Authoritative source	
03.02.004	D - Invalid Requirement	Broad Policy Guidance. Not programmable or testable.
03.02.005	D - Invalid Requirement	Broad Policy Guidance. Not programmable or testable.
03.02.021	D - Invalid Requirement	Broad Policy Guidance. Not programmable or testable.
03.02.023	D - Invalid Requirement	Broad Policy Guidance. Not programmable or testable.
03.02.032	C - Authoritative Source/Reference Updated	
03.02.033	C - Authoritative Source/Reference Updated	
03.02.034	C - Authoritative Source/Reference Updated	
03.02.035	D - Duplicate Requirement Deleted	Duplicate of 03.01.028 and 03-01.030.
03.02.036	D - Authoritative Source/Reference Deleted	OMB Circular A-123 Appendix D has rendered the JFMIP and OFFM documents obsolete.
03.02.037	C - Authoritative Source/Reference Updated	
03.02.038	C - Authoritative Source/Reference Updated	
03.02.039	C - Authoritative Source/Reference Updated	
03.02.040	C - Authoritative Source/Reference Updated	
03.02.041	D - Duplicate Requirement Deleted	Duplicate of 03.01.33 and 03.01.034.
03.02.043	C - Authoritative Source/Reference Updated	
03.02.064	C - Verbiage Edited to Meet the Intent of Authoritative Source	

VOLUME 3 - Property, Plant and Equipment

Req ID	Change Type and Description	Reason for Change
03.03.005	C - Authoritative Source/Reference Updated	
03.03.008	C - Authoritative Source/Reference Updated

03.11.006	**D - Authoritative Source/Reference Deleted**	**OMB Circular A-123 Appendix D has rendered the JFMIP and OFFM documents obsolete.**
03.11.007	**D - Authoritative Source/Reference Deleted**	**OMB Circular A-123 Appendix D has rendered the JFMIP and OFFM documents obsolete.**
03.11.008	**D - Authoritative Source/Reference Deleted**	**OMB Circular A-123 Appendix D has rendered the JFMIP and OFFM documents obsolete.**
03.11.009	**D - Authoritative Source/Reference Deleted**	**OMB Circular A-123 Appendix D has rendered the JFMIP and OFFM documents obsolete.**

Chart Legend:

A - Added

These are new requirements due to revised and updated source documents.

C - Changed

These requirements were contained in previous releases, but were changed for various reasons.

D - Deleted

These requirements were removed and are no longer required by the source documents.

Note: If there is no code in the requirements value added or change type columns, it is by definition unchanged.

Defense Finance and Accounting Service

DFAS 7900.4-M
Financial Management Systems Requirements Manual
Volume 03, Property, Plant and Equipment

August 2014

Strategy, Policy and Requirements

SUBJECT: Financial Management Systems Requirements
Volume 03, Property, Plant and Equipment

1. PURPOSE

a. This Volume presents the financial management system design and implementation requirements for Department of Defense (DoD) military components' and agencies' financial management systems. This Volume is part of the publication which reissues Defense Finance and Accounting Service (DFAS) 7900.4-M (The Blue Book), "Financial Management Systems Requirements Manual". This manual is a compilation of the Property, Plant and Equipment specific Federal and Department of Defense (DoD) systems requirements. Any system reviews need to consider all DFAS 7900.4-M volumes and requirements in addition to these Property, Plant and Equipment specific items contained in this volume.

b. The Blue Book serves as a "roadmap" to Federal and DoD financial management system requirements by major financial management functional areas and their authoritative sources, and will assist managers who are responsible for financial management systems in planning, designing, enhancing, modifying, and implementing financial management systems. Managers are ultimately responsible for being knowledgeable of and complying with the various authoritative sources of financial requirements (both legislative and regulatory). Guidance and procedures are contained in several volumes located on the DFAS Reference Library at http://www.dfas.mil/dfasffmia/bluebook.html. Appendix 4 of the manual includes links to where authoritative sources of requirements may be accessed.

c. Adherence to these requirements and all other applicable DFAS 7900.4-M requirements will enable DoD military components and agencies to meet Federal mandates and will help facilitate DFAS to progress toward reaching its strategic goal of providing services faster, better, and cheaper. The objective of this Volume is to promulgate the Property, Plant and Equipment specific financial management systems requirements for system and program managers' use in developing Property, Plant and Equipment functionality.

2. APPLICABILITY:

Requirements contained within this document are applicable to accounting and finance systems operated and maintained by DoD.

3. POLICY:

a. This Volume provides a synopsis of Federal and DoD financial system requirements, mandated by policy, for Property, Plant and Equipment financial management systems. It is a

comprehensive compilation of financial management systems requirements mandated by Public Law 104-208, "Federal Financial Management Improvement Act of 1996" September 30, 1996.

b. This Volume incorporates revisions to existing financial system requirements from the authoritative sources **via highlighting the appropriate text in bolded blue font**. See description of requirement changes for a complete listing and description of the financial systems requirements changes, deletions, and additions, for this volume.

c. Users of this Volume may forward questions, comments and suggested changes to:

Defense Finance and Accounting Service
Strategy, Policy and Requirements
Attn: Financial Management Systems and Requirements Branch
8899 East 56th Street
Indianapolis, IN 46249-0002

E-mail questions, comments, and suggestions to ffmiarequirements@dfas.mil

4. ORGANIZATIONAL RESPONSIBILITIES FOR FFMIA COMPLIANCE

a. Within DoD, various organizations operate financial management systems. In an overall scheme, many of these systems should be linked in an integrated network. However, these systems frequently "stand-alone" or are "stovepipe" systems that are not logically integrated with other related systems. Critical financial data, instead of being transferred electronically between systems through well-controlled interfaces, are often transferred manually by means of journal vouchers, hardcopy spreadsheets, "data calls," or other inefficient and error-prone methods.

b. DFAS functions as the primary Departmental entity responsible for producing a Trial Balance from the ERP general ledger and preparing the financial reports for the DoD. Much of the data used by DFAS to carry out the DoD's accounting and financial reporting functions—such as property and inventory values—originate in non-DFAS organizations or systems. Therefore, other organizations, primarily the military services and Defense Agencies, should be held responsible for the compliance of their financial management systems with all applicable Federal requirements. Appendix 5 of DFAS 7900.4-M contains Federal and DoD guidance on FFMIA compliance, evaluation, and reporting.

5. PROCEDURES:

Procedures are presented in each Volume of this Manual as appropriate.

6. RELEASABILITY:

UNLIMITED. This Volume as part of DFAS 7900.4-M is approved for public release and may be accessed at http://www.dfas.mil/dfasffmia.html

7. EFFECTIVE DATE: This Volume is effective immediately.

PROPERTY, PLANT AND EQUIPMENT REQUIREMENTS 2

Chapter 01 - Maintain/Update Property Information 2

Chapter 02 - Record Acquisition of Property, Plant, and Equipment 32

Chapter 03 - Record Asset Value Changes 63

Chapter 04 - Depreciate, Amortize, or Deplete Asset 84

Chapter 05 - Record Disposition/Retirement of Asset 90

Chapter 06 - Deferred Maintenance Costs and Cleanup Costs 97

Chapter 07 - Stewardship Property, Plant, and Equipment (Including Federal Mission PP&E) 107

Chapter 08 - Reporting 110

Chapter 11 - Asset Custody Activities 129

ACRONYMS 131

PROPERTY, PLANT AND EQUIPMENT INTRODUCTION

The Department of Defense owns and manages more physical assets than any other Federal agency. Annually, the Department reports tens of billions of dollars in Property, Plant and Equipment (PP&E). The diversity among Federal PP&E creates a need for meaningful categories of PP&E with different accounting standards for each category. The categories of PP&E are General PP&E, Heritage Assets, and Stewardship Land. In addition, the Department owns, manages, and controls thousands of pieces/units of National Defense (ND) assets (planes, missiles, ships, tanks, submarines, and the like). Within DoD, the three military departments and assorted Defense agencies operate and maintain property accountability systems that track, maintain visibility, manage, and report on DoD's mammoth (PP&E) holdings. These property accountability systems, for the most part, maintain records that are used to prepare general ledger balances for PP&E financial reporting. Effective October 1, 2002 (fiscal year 2003), Federal Accounting Standards Advisory Board (FASAB) voted to amend SFFAS 6 **(**See SFFAS 23) to delete the term National Defense PP&E and require the reporting on the balance sheet of military equipment as General PP&E, reported at acquisition cost and depreciated. Users must be aware of this change. In this version, the term has been changed from its former Stewardship Asset context. Due to the significant accounting and reporting changes approved by the Federal Accounting Standards Advisory Board (FASAB) regarding military equipment, Required Supplementary Stewardship Information (RSSI) reporting of military equipment has been terminated. In addition, per SFFAS 23, the term "ND PP&E" has been rescinded and all assets previously considered to be ND PP&E should be classified as general PP&E. Accordingly, the cost of these items should be capitalized and, with the exception of the cost of land and land improvements that produce permanent benefits, depreciated. The amendments in SFFAS 23 take effect for accounting periods beginning after September 30, 2002.

PROPERTY, PLANT AND EQUIPMENT REQUIREMENTS						DFAS 7900.4-M, Vol. 03	
Chapter	**Req Id**	**Change Type**	**Requirement**	**Sources**	**Treasury's Federal Financial Management Systems Function Guidance (See Appendix A-5)**	**Treasury's Federal Financial Management Systems Requirement (See Appendix A-5)**	**DFMIG Rule Name**
Maintain/Update Property Information	03.01.022		The system must accumulate the construction-in-progress (CIP) cost amounts when a Department of Defense (DoD) entity is constructing a real property asset to be transferred to another DoD entity under allocations or allotments, the constructing entity must accumulate cost in a CIP account for the benefit of the fund owner. When a DoD entity is constructing a real property asset to be transferred to another DoD entity on a cost reimbursable basis, the constructing entity must accumulate cost in an accounts receivable to be billed to the sponsoring entity since project inception. The billed costs are recorded in the corresponding CIP account by the sponsoring entity. When there is a cost-shared project between Federal and non-federal entities, a CIP account must only be created if the asset is federally owned.	Source: DoDFMRVol4,Ch6,Sub0602; Source Date: 6/1/2009	1.2.1.2_Determining Costs_P	Determine intragovernmental entity costs in addition to other costs (for example, direct, indirect, and depreciation) by cost object and responsibility segment consistent with the FASAB Handbook. PROPERTY, PLANT AND EQUIPMENT REQUIREMENTS						DFAS 7900.4-M, Vol. 03	
Chapter	**Req Id**	**Change Type**	**Requirement**	**Sources**	**Treasury's Federal Financial Management Systems Function Guidance (See Appendix A-5)**	**Treasury's Federal Financial Management Systems Requirement (See Appendix A-5)**	**DFMIG Rule Name**
Maintain/Update Property Information	03.01.023		The system must be able to relieve the Construction-In-Progress (CIP) account when an asset or an improvement to an asset is placed in service, and the cost accumulated to date in the CIP account must be transferred to the appropriate General Property, Plant, and Equipment (PP&E) account and recorded in the real property inventory. Once the asset is placed in service, each additional cost incurred must be recorded in the CIP account until final acceptance, and then transferred by Real Property Unique Identifier (RPUID) to the appropriate General PP&E account. After real property final acceptance, each additional project cost must be expensed and must not be included in the CIP account. Maintain/Update Property Information	03.01.064	D - Not Supported by a Correct Source/Reference	DELETED: The system shall ensure that any indirect project costs are allocated across construction-in-progress (CIP) accounts periodically as they are incurred and no later than final acceptance based on the direct cost of the asset as a percentage of the total direct cost of all assets in the project. Thus, the full cost of real property assets can be adequately captured and reported.	Source: ; Source Date:	Requirement Not Covered by TFM Guidance		Maintain_Update_Property_Information_061
Maintain/Update Property Information	03.01.065		If the capitalization threshold were met, the system must record the costs of General property, plant and equipment real property assets, while under construction, to the United State Standard General Ledger (USSGL) Construction-in-Progress account. These costs include the costs of project design and actual construction such as labor, materials, and overhead costs.	Source: DoDFMRVol4,Ch6,Sub0602; Source Date: 6/1/2009	1.1.1.1_Defining GL Accounts and Attributes_DI	Provide GL account classifications (for example, budgetary, assets, liabilities, revenues and expenses), account categories (for example, receivables), and account subcategories (for example, accounts receivable) consistent with the USSGL accounts defined in the TFM.	Maintain_Update_Property_Information_062
Maintain/Update Property Information	03.01.066	D - Authoritative Source/Reference Deleted	DELETED: To support the payment process, the agency's single integrated financial management system must access the following information associated with the payment of an asset: • asset identifier code(s); • total asset or improvement costs, broken out by land or structures/buildings (if possible and significant); • category of PP&E (e.g., heritage assets, multi-use assets, general PP&E, stewardship); • quantity.	Source: ; Source Date:	Requirement Not Covered by TFM Guidance		Maintain_And_Update_Payee_Information_033

Maintain/Update Property Information	03.01.068	A - New Based on Review of an Existing Authoritative source	**For construction–in-progress (CIP), the system shall be able to assign at least one Real Property Unique Identifier (RPUID) when the CIP account is created. Upon receiving official authorization to perform work on a real property construction project, the sponsoring entity will obtain and assign an RPUID from the real property accountable Component for each real property asset that will result during the construction. CIP costs will be tracked by both the Service-unique project number and the RPUID to ensure visibility, traceability, and accountability. A project may include one or more real property asset and corresponding RPUIDs. All costs to be capitalized for a construction project will be accumulated in the CIP account. A CIP account must be linked to at least one primary RPUID but may be linked to multiple RPUIDs to provide traceability for all construction costs incurred. A reasonable allocation methodology should be established to assign project costs periodically as the costs are incurred to all corresponding RPUIDs, no later than the time the assets are placed in service (interim acceptance).**	Source: SFFAS1,25; Source Date: 3/1/1993Source: DoDFMRVol4,Ch6,Sub0602; Source Date: 6/1/2009	1.2.1.2_Determining Costs_P	Determine intragovernmental entity costs in addition to other costs (for example, direct, indirect, and depreciation) by cost object and responsibility segment consistent with the FASAB Handbook. Record Acquisition of Property, Plant, and Equipment	03.02.001		The system must record all general Property, Plant, and Equipment (PP&E) at cost. Cost shall include all costs incurred to bring the PP&E to a form and location suitable for its intended use. If the General PP&E acquisition costs, including other costs necessary to bring the asset to an operable condition, do not equal or exceed DoD capitalization threshold, the costs are expensed in the period incurred.	Source: SFFAS6,26; Source Date: 6/1/1996Source: DoDFMRVol4,Ch6,Sub0601; Source Date: 6/1/2009	1.2.1.2_Determining Costs_P	Determine intragovernmental entity costs in addition to other costs (for example, direct, indirect, and depreciation) by cost object and responsibility segment consistent with the FASAB Handbook.	Record_Acquisition_Of_PPE_001
Record Acquisition of Property, Plant, and Equipment	03.02.002		Property, Plant and Equipment (PP&E) shall be recognized when title passes to the acquiring entity or when the PP&E is delivered to the entity or to an agent of the entity. In the case of constructed Property, PP&E, the PP&E shall be recorded as construction work in process until it is placed in service, at which time the balance shall be transferred to general PP&E in the system. PROPERTY, PLANT AND EQUIPMENT REQUIREMENTS						DFAS 7900.4-M, Vol. 03	
Chapter	Req Id	Change Type	Requirement	Sources	Treasury's Federal Financial Management Systems Function Guidance (See Appendix A-5)	Treasury's Federal Financial Management Systems Requirement (See Appendix A-5)	DFMIG Rule Name
Record Acquisition of Property, Plant, and Equipment	03.02.047		The system shall record the applicable asset and liability amounts, for a capital lease, at lease inception. The amount to be recorded under a capital lease is the present value of the rental property and other lease payments during the lease term, excluding that portion of the payments representing executory costs such as insurance, maintenance and taxes paid to the lessor. If the present value amount, however, exceeds the fair value of the leased property at the inception of the lease, the amount recorded shall be the fair value. If the executory costs portion of the minimum lease payments cannot be determined, the amount should be estimated. In such cases, the substance of the arrangement, rather than its legal form, shall determine the accounting treatment. All other leases should be accounted for as operating leases with no balance sheet recognition.	Source: DoDFMRVol4,Ch6,Sub0602; Source Date: 6/1/2009	1.1.4.2_Managing Financial Liability Information_P	Determine liability value consistent with the FASAB Handbook.	Record_Acquisition_Of_PPE_038
Record Acquisition of Property, Plant, and Equipment	03.02.049		The system shall capitalize bulk purchases of software programs and modules or components of a total software system that individually meet DoD capitalization threshold. If the per item cost of a bulk purchase (e.g., numerous copies of spreadsheets and word-processing programs) does not meet DoD capitalization threshold, the bulk purchase shall be expensed in the period acquired for property, plant, and equipment..	Source: DoDFMRVol4,Ch6,Sub0602; Source Date: 6/1/2009	1.1.3.2_Managing Financial Asset Information_P	Determine asset value and provide for adjustments – such as depreciation, impairment, allowance for uncollectible amounts, and subsidy allowance – consistent with FASAB Handbook.	Record_Acquisition_Of_PPE_036

Depreciate, Amortize, or Deplete Asset	03.04.006		The system must remove General Property, Plant, and Equipment (PP&E) from general PP&E accounts along with associated accumulated depreciation/amortization, if prior to disposal, retirement or removal from service, it no longer provides service in the operations of the entity because it has suffered damage, becomes obsolete in advance of expectations, or is identified as excess. The General PP&E shall be recorded in an appropriate asset account at its expected net realizable value. Any difference in the book value of the PP&E and its expected net realizable value shall be recognized as a gain or a loss in the period of adjustment.	Source: SFFAS6,39; Source Date: 6/1/1996Source: DoDFMRVol4,Ch6,Sub0602; Source Date: 6/1/2009	1.1.3.1_Managing Financial Asset Information_DI	Capture Federal Government asset type (for example, entity, nonentity, governmental, and intragovernmental), category [for example, property, plant, and equipment (PP&E); inventory; seized and forfeited; investments in Treasury securities], and subcategory (for example, general PP&E or heritage PP&E) consistent with The Federal Accounting Standards Advisory Board (FASAB) Handbook of Accounting Standards, and Other Pronouncements, as Amended (FASAB Handbook). Chapter	Req Id	Change Type	Requirement	Sources	Treasury's Federal Financial Management Systems Function Guidance (See Appendix A-5)	Treasury's Federal Financial Management Systems Requirement (See Appendix A-5)	DFMIG Rule Name
Depreciate, Amortize, or Deplete Asset	03.04.028		The system shall depreciate separately capital improvements which increase the asset's capability, size or efficiency but have an expected useful life that differs from the useful life of the General Property, Plant, and Equipment (PP&E) asset.	Source: DoDFMRVol4,Ch6,Sub0602; Source Date: 6/1/2009	1.1.3.2_Managing Financial Asset Information_P	Determine asset value and provide for adjustments – such as depreciation, impairment, allowance for uncollectible amounts, and subsidy allowance – consistent with FASAB Handbook.	Depreciate_Amortize_Deplete_Asset_031
Depreciate, Amortize, or Deplete Asset	03.04.029		The system must record as capital leases the leases that meet the following four criteria. Otherwise, it should be classified as an operating lease: 1) The lease transfers ownership of the property to the lessee by the end of the lease term. 2) The lease contains an option to purchase the leased property at a bargain price. 3) The lease term is equal to or greater than 75 percent of the estimated economic life of the leased property. 4) The present value of rental and other minimum lease payments, excluding that portion of the payments representing executory cost, equals or exceeds 90 percent of the fair value of the leased property. The last two criteria (numbers 3 and 4) are not applicable when the beginning of the lease term falls within the last 25 percent of the total estimated economic life of the leased property. If a lease does not meet at least one of the four criteria, above, then the property system should classify it as an operating lease. Deferred Maintenance Costs and Cleanup Costs	03.06.023		The system must estimate environmental liability cost measurements for each environmental site located at an installation or organizational level. The liability cost estimates should include the anticipated costs of the level of effort required to cleanup hazardous wastes, as well as the costs of complying with associated applicable legal and/or regulatory requirements. Such cost estimates are calculated on a current cost basis and based on a current decontamination and/or disposal plan, existing laws, and technology. The cost estimates for both the environmental and non-environmental portion of the liability should include the following cost elements, as applicable:1. Compensation and benefits of government personnel expected to devote significant time directly to a disposal effort to include security and surveillance.2. Efforts to tear down, remove, and dispose of the item(s) to include transportation, demilitarization, and dismantlement.3. Planning and design efforts to include contract advertisement and document reproduction.4. Landscaping costs.5. Permits, licenses, and approval to include State Historic Preservation Officer concurrence and documentation. Also included are screening costs of suitable property for the homeless as established by the McKinney Act in Public Law 101-645.6. Repair costs if disposed without being demolished.7. Cost of	Source: SFFAS6,150; Source Date: 6/1/1996Source: DoDFMRVol4,Ch6,Sub0602; Source Date: 6/1/2009Source: SFFAS6,153; Source Date: 6/1/1996	1.1.3.2_Managing Financial Asset Information_P	Determine asset value and provide for adjustments – such as depreciation, impairment, allowance for uncollectible amounts, and subsidy allowance – consistent with FASAB Handbook.
