The incumbent will work with the project manager and subject matter experts to design courses for instructor led development, assist in slide deck development for Computer based training to be delivered to the Contractor for CBT Development, & provide input to review courses and curriculum for the spanning engineering, scientific and business competency across the command for recommended improvements. The incumbent should be knowledgeable in adult learning styles and development models, as well as experience in collaborating in the development of deliverables. Qualifications: Education and/or extensive training in curriculum/course development, learning management systems (LMS) and competency based programs. Minimum education requirement is a Bachelor’s Degree. Equivalent qualifications for an 0201 DoS Series (Human Resources Management)

22-6026

Contract Specialist/ 1102 Series

22-6026, Length 1 Year: Bulk Petroleum Products mission is to provide the military services, DOD activities and designated Federal agencies with worldwide comprehensive Class III Bulk Petroleum acquisition support. The incumbent will be responsible for cradle-to-grave acquisition of petroleum products and services in support of worldwide DOD requirements. The incumbent will serve a senior contract specialist (with potential progression to contracting officer with unlimited dollar authority) and as the senior military advisor for acquisition programs valued in excess of $6.0 billion annually that directly support peacetime and wartime Class III Bulk Petroleum products and services. Plans and executes contingency support operations utilizing a combination of commercial and military infrastructure in concert with Joint and Joint Commanders to deliver petroleum products and services to support land, air, and sea operations of the military services as set forth in Joint Bulk Petroleum Doctrine (Joint Pub 4-03). Advises the DLA Energy, Director of Bulk Petroleum and other DOD officials on ability to establish commercial contracts to support the Fleet. Other than IAW to minimize logistic “footprint” - establishes, monitors, and reports on the success of such contract actions or advises alternatives as appropriate. Proposes and coordinates DOD policy for the procurement and distribution of bulk petroleum products as well as contracts as prescribed by DOD Management of Bulk Petroleum Products, Natural Gas, and Coal (DOD 4140.25M). Coordinates DLA Energy responses to Congressional inquiries, Inspector General reports, and management reviews related to Bulk Petroleum products and specified services. For a full list of job functions and responsibilities please reference Enclosure 1 Bulk Petroleum Products Division Mission and Functions. Qualifications: A minimum of 5 years contracting experience, Defense Acquisition Workforce Improvement Act (DAWIA) Level II or above certified or Federal Acquisition in Contracting Certification (FAC-C) equivalent. If DAWIA Level II certified/certificated candidate should be on track towards DAWIA Level III certification within 6 months of assignment. Pre/Post award services contract classification must be either SCI (Army), AFSC 600X01 (Air Force) or be a part of the Acquisition Branch as a commissioned officer/warrant officer. Applicants must have less than 15 Years of Active Federal Service and meet military height and weight standards to apply. Applicants must submit the following documents in their application to be considered for the position: Officer Performance Report/Officer Evaluation Report, Official Military Photo, Last three Military Evaluations, Physical Fitness Test, and Military Biography.

If you are interested in a position, click on the link in the position or email your resume and bio with the position you are interested in.

Email: dfas.indianapolis-in.zh.mbx.pfi@mail.mil
Website: https://www.dfas.mil/pfi
Logistics Officer/Acquisitions Officer

22-6031, Length 1 Year: Responsible for cradle-to-grave acquisition (requirements determination solicitation, contract award and contract management) of petroleum products in support of world-wide DOD and Federal civilian agency mission requirements. The incumbent serves as the principal contracting officer with unlimited dollar authority and as the senior military advisor for acquisition, programs valued in excess of $2.9 billion annually that directly support peacetime and wartime petroleum requirements at over 980 DOD activities and 1530 Federal Civilian installations. Plans and executes contingency support operations utilizing a combination of commercial and military infrastructure in concert with Unified and Joint Commanders to deliver petroleum products to support land, air and sea operations of the military services as set forth in Joint Bulk Petroleum Doctrine (Joint Pub 4-03). Advises the Director, DLA Energy and other DOD officials on ability to establish commercial contracts to support Military Operations Other Than War to minimize logistic "footprint" - establishes, monitors and reports on the success of such contract actions or alternatives as appropriate. Proposes and coordinates DOD policy for the procurement and distribution of direct delivery fuels as prescribed by DOD Management of Bulk Petroleum Products, Natural Gas, and Coal (DOD 4140.25M). Acts for the Director with full authority to make decisions and business commitments on behalf of the Direct Delivery Office. **Qualifications:** Applicants must have less than 15 Years of Active Federal Service and meet military height and weight standards to apply. Applicants must submit the following documents in their application to be considered for the position: Enlisted Record Brief, Official Military Photo, Last three Military Evaluations, Physical Fitness Test, and Military Biography.

Division Quality Focal Point

22-6051, Length 1 Year: The Strategic Systems Engineering Division is seeking a highly qualified Quality Focal Point. The QFP functions as the CI Lead to establish processes, workflows and CI plans, facilitate events, capture, collect, and present data, action items and manage the storage on Division SharePoint/shared drive sites. Track action items to completion, aid in facilitating follow-up meetings, participate in branch/division monthly walk-throughs with managers on Six Sigma boards, and maintain/report metrics. Monitor NWWC Crane Action Management System (CAMS) tickets and provide comments or recommendations for closure of those CAMS tickets. Requested documentation and support each branch on the annual Self-Assessment audit to ensure closure of any action items through CAMS. Route documents for approval signature electronically in IPDM as required / directed by NSWC. **Qualifications:** College Degree pref. but not required. Experience with ISO / Lean Six Sigma programs beneficial.

Site Security Manager

22-6052, Length 183 Days: The Strategic Systems Engineering Division of NSWC Crane is seeking a highly qualified Site Security Manager (SSM) to support the construction of a Strategic Systems Engineering Facility (SSEF). Provide project management duties that include administration, managerial oversight, and technical implementation of the Construction Security Plan (CSP) for the design and construction of the aforementioned facility. Participate in meetings, in-progress reviews, and integrated concept and product teams, working groups and provide briefings in the capacity of SSP. Provide input to staff meeting slides related to site security and applicable construction process and the application of the functional and performance requirements as identified in Intelligence Community Standard (ICS) 705 under section 1, IIDs and ACS Documentation Requirements. **Qualifications:** College Degree pref. but not required. Experience commercial construction or ID/IIC requirements.

Senior Human Resources Sergeant

22-6078, Length 1 Year: Serves as the principal military human resources (HR) specialist at a major subordinate command (MSC), supporting a diverse population of both active duty and reserve component military personnel that are geographically dispersed throughout the United States. Primary responsibilities are to provide technical advice and guidance on the full spectrum of military HR programs to include but are not limited to awards, evaluations, promotions, military training, personnel actions, and strength management. Provides comprehensive advice and guidance to subordinate military human resource managers and policies and procedures for both active and reserve military personnel management programs. Provides staff assistance on the procurement and utilization of military manpower for the headquarters and all installations/subordinate elements of the Chemical Materials Agency (CMA) and Communications-Electronics Life Cycle Management Command. Interfaces directly with the command group, subordinate installation commanders and staff, and higher-level commands on military personnel matters to ensure effective utilization and administrative support of military personnel. **Qualifications:** A Senior NCO in the grade of E8 (will consider a highly motivated E7) is required for this position. This Soldier should be well versed in G1 operations as it relates to basic customer service skills, awards, evaluations, promotions, personnel actions and records management.

Inventory Management Specialist

22-6104, Length 1 Year: This position is located in the Naval Surface Warfare Center Philadelphia Division (NSWCPO). This position will be responsible for managing, developing, implementing, maintaining, and administration of the inventory management, material coordination, inventory control of the Naval Surface Warfare Center Philadelphia’s Operating Materials and Supplies (OM&S) program. They would be responsible for planning and coordinating material actions; monitoring quality and accuracy of inventory information data; identifying, analyzing and resolving material coordination and the impact on material needs required by planned schedules and plans; advising on procurements, delivery and transport; initiating, directing, reviewing and administering inventory/materials control programs; evaluating new inventory management systems; developing material management support plans; and performs quality assurance reviews. They should possess knowledge of logistics and supply elements such as Inventory Management, warehouse management, maintenance plans, manpower, information technology and equipment resources, supply support requirements, purchasing regulations and policy, funding restrictions and associated training. **Qualifications:** Responsible for managing inventory, Materiel Management specialists administer and operate complex supply systems to ensure financial accountability for all of the utilized supplies.

Special Assistant to the DCG

22-6121, Length 1 Year: Special Assistant to the Deputy Commanding General (DCG), US Army Corps of Engineers, a DRU with an annual budget of over $58 billion to include its own support of non-DOD Civil Functions of Navigable Waterways oversight and over 35,000 DA Civilians and Soldiers who provide worldwide engineering, environmental, and installation support to the US Army, Combatant Commanders, Department of Defense, federal agencies, and other regional, state, local, interagency, and international governments. Coordinates and synchronizes all actions requiring the DCG’s personal attention, including liaison with Senior Executive Service and Department of Defense senior leaders. Plans and supports the execution of the DCG’s travel, engagements, and daily activities. Serves as the strategic planner for the DCG for strategic portfolio reviews, regimental talent management oversight, strategic governance, and internal officer professional development. Provides administrative support to the DCG as required including schedule and calendar management as well as command protocol and correspondence. Supervises the DCG’s personal staff and performs all other duties as required.
