21-6233 Tier II DoDNet Support

21-6233, Length 2 years; DUTIES: Two (2) year unaccompanied overseas tour with the option to extend for the third year. Open to Army and Air Force service members MOS 25B or AFSC 3D. Provide DISA's Service Support Environment (SSE)/Global Service Desk (GSD) with mission critical technical support in a joint classified support area at DISA HQ, Ft. Meade. Perform in this position provide immediate Tier II technical support and must have a high aptitude for resolving workstation level technical issues. This is a front-line position requiring professionalism, expert technical skills, and persistent communications with customers and Global Service Desk leadership. A few key duties: installation, modification, and repair of end-devices (laptops, desktops, printers) to restore service and resolve technical issues with Local Area Networks, Wide Area Networks, and other systems. Provide technical assistance and support for incoming call and IT service desk requests. In addition to on-site issue resolution, candidates will actively ensure the security posture of the end user devices, and as needed provide remediation. Document procedures and coordinate with Tier I (Regional Support Centers) to improve the agencies ability to achieve First Contact Resolution. 
QUALIFICATIONS: Must have an active security + certification and experience working/infrastructure/service desk environment or Windows Server admin. Requires excellent written and verbal communications. Other IT certifications (HC/DeskTop, Av., Network, etc.) are desired, but not required. Active Top Secret / SCI eligible.

22-6202 Integrated Logistics Support Manager with Software Support

22-6202, Length 1 Year with opportunity to extend. 1. Knowledge of Integrated Logistics/Product Support (ILPS) concepts, principles, policies, and acquisition/contract regulations and their application to a variety of unique. 2. Understands ILPS elements as they relate to systems acquisition and life cycle management across related disciplines such as systems engineering and designing, reliability, availability, maintainability, production, test & evaluation, computer engineering, operational deployment, demilitarization, and disposal. 3. Knowledge of software support requirements and processes, as well as IT and software. Understand Configuration Management for software. 4. Analyze technical proposals (ECFs) and provide detailed analysis (provisioning, tech pubs, and training). 5. Follow through on ECF incorporation and verification that provisioning, tech pubs, and training reflect the new configuration. 6. Ability to work across branches, divisions, and programs in the planning and execution of acquisition and sustainment logistics functions. 7. Work with the Life Cycle Logistics Competency Lead (LCL) in institutionalizing the logistic discipline and the professional growth of many members of the logistics community. 8. Desired skills include: Knowledge of software intensive systems acquisition IAW the latest DoD Policy, knowledge of ISDs and implementing events support, knowledge of IT procurement, DoD IUID Registry knowledge, and an understanding of Agile software development. 9. Ensure compliance with current NAVSEA and Naval Surface Warfare Center (NSWC) policies, initiatives and regulations. 10. The incumbent must have demonstrated the ability to meet diverse groups and develop their cooperation, confidence and interest. 11. Ability to maintain accurate records on status of all command logistics documentation on a variety of complex systems.

22-6139 Engineer NCO

22-6139, Length 420 Days: Assists the Engineer and Deputy Engineers in daily activities to include oversight of projects. The Engineer NCO will ensure safety regulations, as well as all Standard Operating Procedures are followed. Reviews, provides comments and approves contractor’s safety plan and ensures it is in compliance with the most current version of EM 385-1-1. Advises the Project Manager when the plan is acceptable and work can start on site. The position is responsible for performing and coordinating conventional and unconventional inspections at different construction sites throughout the Kingdom of Saudi Arabia. Manages and monitors equipment, staffing, workmanship, safety practices, and analyzes a variety of unusual conditions, problems, or questions.

22-6140 Deputy Engineer

22-6140, Length 420 Days: Works under the general direction of the DA Director of Chemical and Biological Defense and in coordination with the Senior Engineer, to coordinate and establish the details of an environmental protection program. Assignments are made in the form of contract documents including plans and specifications covering work to be accomplished by the contractor. Incumbent is expected to ensure that contract scope, contract drawings, shop drawings, specifications, codes, quality management and safety are followed throughout the life of the contract. Follows the day to day work to ensure the contractor is meeting his/her scheduled work as approved. Incumbent is required to assume full responsibility for ensuring that all non-conforming work is properly identified through test reports or observations and that the contractor’s Quality Assurance (QA) team is notified for corrective action. The subject matter expert, works out problems largely on their own initiative. Incumbent acts independently to perform quality assurance and safety assurance functions, and keeps supervisor appraised on any controversial issues and/or policies of an unusual nature.

22-6151 Nondestructive Tester Technician

22-6151, Length: 180 Days: The 309th Aviation Maintenance and Regeneration Group is located at Davis Monthan AFB, AZ. It provides a unique opportunity for exposure to a wide variety of Department of Defense aviation assets unlike any other in the world. Duties would include performing nondestructive testing techniques on those assets and their respective aerospace equipment. Required tasks will include Eddy Current, Magnetic Particle, Liquid Penetrate, Ultrasound, X-Ray, and JOAP/MCD analysis. Qualifications: Must be 22742/27 qualifications.

22-6210 Physical Security Specialist

22-6210, Length 1 Year: Naval Surface Warfare Center, Panama City Division, Physical Security Officer. Conducts initial and annual physical security surveys for compliance with Open Storage Areas/Secure Rooms/Restricted Areas (RA), per DoD 5202.01, Volume 3, DoD Information Security Program. Coordinates with RA Custodians and Host Command Key Control Office to ensure the Facilities Department processes work orders for repair of Intrusion Detection Systems (IDS) and Automated Entry Control Systems (AECs). Assists in reviews of drawings and plans for building remodels and new construction, ensuring physical security measures are in place. Conducts Physical Security training with RA and Security Container Custodians. Inspects security containers to ensure they are empty prior to surplus, ensures custodians are assigned to active security containers, approves container moves and combination change requests, and tracks the locations of the containers. Manages the Command Key Control Program to ensure controlled keys are issued and accounted for. Reviews DD Form 200, Financial Liability Investigation of Property Loss, to determine if sensitive information was involved, identify loss trends, and makes recommendations to reduce future losses. Performs other security duties as assigned. Work hours are generally Monday through Friday, and situationally telework authorized dependent on mission requirements. Qualifications: The position is open to enlisted members from Air Force AFSC 3P0X1 or Army ASH3 Physical Security Operations, with Physical Security/Resources Protection experience. Secret Security Clearance eligibility required.

22-6218 Information Systems Technician (25SA)

22-6218, Length - 2 Years with option to extend. Plans, directs, implements network systems health checks of multiple networks and programs within DISA. Serves as the lead consultant for all systems related within networks and programs assigned to work on. Provides technical guidance to multiple programs technical staff. Provides written reports with recommendations for systems health checks. Provides technical and operational changes within networks. Reviews all documentation within networks and programs assigned for health checks. Coordinates across operation centers and programs for network modifications and changes. **Qualifications: Final TS/SCI clearance required. Expert knowledge in Microsoft product line, with emphasis in Active Directory Domain Services, as part of a Network Health team for multiple networks and programs within the DISA. Serves as the DCO advisor with a firm understanding of vulnerabilities, exploitation techniques, and adversary methodologies. Review all assigned network and program design documentation. Create written reports with DOD recommendations and execute technical and operational changes within networks and programs. Coordinate all changes across operation centers and brief senior-level technical program staff. **Qualifications: Final TS/SCI clearance required. Must be DoD 8570.1-IIT compliant with IAM III recommended. Must have IEM experience with basic operation, custom queries, analytic design, and implementation (SPLINK preferred). Must be able to be productive individually or within a team in a high stress environment. Must be a critical thinker and possess excellent written and verbal communication skills.

22-6223 Computer Scientist

22-6223, Length 1 Year. Performs professional computer science work by application of advanced theories, concepts, principles, and processes to the acquisition, development, or sustainment of weapon systems, subsystems, and/or support systems. Applies expert knowledge and mastery to ensure assigned projects remain consistent with program objectives, costs, schedules, performance criteria, and existing policies.

22-6224 ELECTRONICS ENGINEER

22-6224, Length 1 Year. Serve as a professional electronics engineer with project management, execution, and operational responsibility in assigned area(s). Considered the technical expert for the organization in electronics engineering assignments concerning (insert functional area – i.e., Electronic Warfare Systems). Employee provides technical leadership and management to ensure project/program success. Work encompasses several phases of the development process in which the employee evaluates and develops the design and development activities of others.

23-6243

DoD INVESTMENT ADVISORY COMMITTEE (IAC)

23-6243, Length 21 days: Selectee will serve as a member of Investment Advisory Committee (IAC) for the Department of Defense (DoD) Investment Board. The members formally meet semi-annually and participate in quarterly (or as necessary) teleconferences with auditors, DFAS, and others. Orders for in-person meetings will be Active Duty for Operational Support (ADOS) funded by DFAS. Candidates must possess an understanding of and demonstrate experience managing and/or advising on large trust fund, pension funds, or similar investment activities. Experience working in the institutional markets, specifically in a fixed income capacity, is preferred. The purpose of this position is to provide financial and strategic analysis to the DoD Investment Board. The DoD Investment Board is comprised of the Director, Defense Finance and Accounting Service (Chair); Deputy Chief Financial Officer, Office of the Under Secretary of Defense (Comptroller); and a senior military service member appointed by the Under Secretary of Defense (Comptroller). The DoD Investment Board establishes the investment policies, objectives and strategies for the Military Retirement Fund and the Medicare-eligible Retiree Health Care Fund, among other trust funds. These funds represent approximately $1.6 trillion in assets. The funds are restricted to investments in U.S. Treasury securities. The primary objective for the IAC is to provide financial and strategic analysis to DFAS and the DoD Investment Board concerning the trust funds identified above. The financial analysis will include: Review and evaluate the current and proposed investment strategies and the ability of the strategies to meet the trust fund’s objectives and requirements, establish and maintain a program to identify and evaluate performance results based on peer reviews (Benchmark), development of options for structuring of investments to meet Trust Funds’ objectives and requirements, provide options for future analysis linked to analysis of risks associated with unrecoverable losses, liabilities, produce and present analysis in the form of a written report to the Investment Board, and establish and provide methods, procedures, and documentation in the development of all analyses and ultimate recommendations, brief the DoD Investment Board, and be prepared to answer any and all questions.

Qualifications: we are looking for are: Chartered Financial Analyst (CFA), Fixed income experience, portfolio manager, finance, investment manager, or Actuary.

23-6247

Cloud DevOps Engineer **WILL TRAIN/TELEWORK AUTHORIZED**

23-6247, Length 1 Year: The Cloud DevOps Engineer will play a critical role in managing the continuous integration, delivery, and deployment of applications and infrastructure on Amazon Web Services (AWS). Responsibilities will include managing the DevOps pipeline tools, such as Jira, Confluence, GitLab, and Artifactory, to ensure smooth and efficient delivery of code to the cloud. Incumbents will work closely with development and infrastructure teams to create an infrastructure as code environment using cloud formation templates and other similar technologies. To excel in this role, incumbents must have a deep understanding of the AWS environment and be able to automate and optimize the environment. Incumbents should be adept at troubleshooting and problem-solving and possess excellent communication skills to collaborate with cross-functional teams. Qualifications:

Civilian experience will be considered for position eligibility. DoD 8570/8140 Certifications required: At least IAT level II+ (CCNA-Security, CySA++, GICSP, GSEC, Security+ CE, CND, SSDC, CASP+, CE, CCSP Security, CISA, CISSP (or Associate), GCED, GCHC, CCFP) is context menu.

23-6347, Length 1 Year: To keep up with the increasing demands of bringing the fight to JWICS, Command Planners, Cyber professionals, and Logisticsian are being required to upgrade their SCI eligibility. Additionally, there is a lifecycle tracking requirement to ensure these new authorizations and existing personnel maintain their SCI status through required reporting and de-confliction of derogatory information reduce the potential for insider threat. With the global presence of USTRANSCOM, the construction, modification, and accreditation of SCIFs within Command leadership suites and increased TCJ36, DOD, and functional IS/IT directorates to collaborate in secure spaces. Meeting regulatory guidance is paramount to ensure classified information is properly protected. The individual will be trained on key tasks required to support SDD administrative functions and will also support the Chief, SDD, and the Physic and Persic support teams. Member will work hand-in-hand with the SDD team utilizing on-line training, regulatory resources and OJT. Due to the increase with real world operations and increased sharing of classified, the potential for the loss or compromise of classified information will increase exponentially as seen with the current security issues being tracked by the Defense Intelligence Agency and Inspector General. The increased requirements without the increase in support will adversely affect the ability to ensure security clearances are maintained, facility accommodations remain valid, and classified information is appropriately protected. Qualifications: Required Clearance: TS/SCI Skill: 42L/YN/IDO/IN
