22-6245 Chief of Staff Fusion Directorate
22-6245, Length 1 Year: Serves as the Chief of Staff/Operations Officer for the Senior Commander's Sexual Harassment/Sexual Assault (SH/SA) Fusion Directorate. The incumbent is not involved in victim advocacy or case management, however, due to the potential for incidental disclosure from victims coming to the Directorate, they must be trained on victim confidentiality and ethics that convey non-mandatory reporting protections to victims. The incumbent serves as the Fusion Directorate Program Support Branches under the guidance of the Fusion Director/Lead SARC and Deputy Director/Supervisory SARC, coordinating and synchronizing the day-to-day operations of the Directorate, assisting the Fusion Director/Lead SARC and Deputy Director/Supervisory SARC in their program support duties as needed, and overseeing the Directorate analyst and administrative assistant positions within the Fusion Directorate Program Support Branch. The incumbent emphasizes the commitment to maintain a workplace environment that rejects sexual harassment and sexual assault and attitudes that contribute to this environment.

Qualifications: Indivduals will be screened against the following: State and local police records; the Army Substance Abuse Program; Army Inspector General files; Army Criminal Investigation Command/Crime Records Center; the Army Central Registry; the National Sex Offender Registry; and the Army Military Human Resources Command files (Official Personnel Folder), and adverse action files and other records maintained on the installation that may be relevant. This position involves duties that are sensitive and confidential in nature. Background checks against all records as required by law, DPM, DoD, and Army policy and regulation will be conducted, prior to entering on duty in the position and in Army governing regulations, on a recurring basis while employed in the position.

22-6260 IT Specialist
22-6260, Length 1 Year: Provides IT Support to O-ALC EN IT

22-6262 Aircraft Electrical and Environmental Journeyman/Craftsman
22-6262, Length 180 days with opportunity to extend: Supports depot-level maintenance/repair/overhaul of F-16 aircraft. Seeking initial tour lengths of 180+ days, but will consider shorter tours on a case by case basis. Subsequent tour extensions considered up to 3 years total, as mission requirements and funding permit. Member will be required to perform duty on-site, in-person.

Qualifications: Must hold current 2A9X6 duty AFSC. F-16 experience preferred, but not required. 7-level (2A676) preferred, but will consider seasoned 5-levels (2A656).

22-6263 Tactical Aircraft Maintenance Journeyman/Craftsman
22-6263, Length 180 days with opportunity to extend: Supports depot-level maintenance/repair/overhaul of F-16 aircraft. Seeking initial tour lengths of 180+ days, but will consider shorter tours on a case by case basis. Subsequent tour extensions considered up to 3 years total, as mission requirements and funding permit. Member will be required to perform duty on-site, in-person.

Qualifications: Must hold current 2A9X6 duty AFSC. F-16 experience preferred, but not required. 7-level (2A373) preferred, but will consider seasoned 5-levels (2A353).

22-6264 Fighter Integrated Avionics or Aircraft Electrical/Environmental Journeyman/Craftsman
22-6264, Length 180 days with opportunity to extend: Supports depot-level maintenance/repair/overhaul of A-10 aircraft. Seeking initial tour lengths of 180+ days, but will consider shorter tours on a case by case basis. Subsequent tour extensions considered up to 3 years total, as mission requirements and funding permit. Member will be required to perform duty on-site, in-person.

Qualifications: Must hold current 2A3X4 or 2A3X6 duty AFSC. A-10 experience preferred, but not required. 7-level (2A374 or 2A676) preferred, but will consider seasoned 5-levels (2A353 or 2A656).

22-6308 Quality Control Representative
22-6308, Length 420 days: Assists the Engineer and Deputy Engineers in daily activities to include oversight of projects. The Quality Control Representative will ensure safety regulations, as well as all Standard Operating Procedures are followed. Reviews, provides input and approves commander’s safety plan and ensures all work is in compliance with EM 385-1-1. The position is responsible for performing and coordinating conventional and unconventional inspections at multiple construction sites throughout the Kingdom of Saudi Arabia. Incumbent is to assume full responsibility for ensuring that all non-conforming work is properly identified through test requests or observations and ensure corrective action is taken. Manages and monitors equipment, staffing, workmanship, safety practices and analyzes a variety of unusual conditions, problems, or questions. Must have construction project management experience.

Plans operations, maintenance, and repair work for new construction and repair work necessary for efficient and effective operation of both facilities. Works with the Physical Support Branch to plan major repairs that require outages. Monitors the progress of work assignments and reports progress. Manages personnel tasks, leaves, and performance evaluations. Serves as the Pumping Plant Shift Operator during pumping season. **Qualifications:** Army Engineer NCO - USACE experience a plus.

23-6210  
Pumping Plant Operations and Maintenance Supervisor  
23-6210, Length 720 Days: USACE Pumping Plant Operations and Maintenance Supervisor for the Memphis District. Serves as the supervisor in charge of two pumping plant facilities (Hustakle and Graham Burke Pumping Plants) within Memphis District. Exercises full responsibility for the operations, maintenance, repair and security of the two facilities. Responsible for the technical and administrative supervision over subordinates employed at the facilities. Serves as the Supervisor for the Pumping Plant Section. Plans operations, maintenance, and repair work necessary for efficient and effective operation of both facilities. Works with the Physical Support Branch to plan major repairs that require outages. Monitors the progress of work assignments and reports progress. Manages personnel tasks, leaves, and performance evaluations. Serves as the Pumping Plant Shift Operator during pumping season. **Qualifications:** Army Engineer NCO - USACE experience a plus.

23-6213  
Senior Watch Officer  
23-6213, Length 165 Days: Sr Watch Officer (01-04 all services intel billet) fills a critical role as half of a two-person intel watch team that fulfills a USTRANSOM J2 "no fail mission" providing Global Indications and Warning for USTRANSOM Missions, assets, and Personnel. - 5 week training pipeline - 24/7 watch operations - 5 week watch rotation between three shifts (0000-0800, 0800-1600, and 1600-0000), Mon-Fri, and 12 Rotating 8-hour shifts M-F and 12 hr shifts Saturday-Sunday - Briefs a 2-star general daily M-F in support of USTRANSOM Operations and Planning - Acts as Senior J2 rep after hours. Performs daily syncs with J3 Watch (J6 position) - Delivers intelligence products to the J2/3 Watch - Participates in JCS watch floor - Support strategy and operational level meetings with IC/16 - Participates in C4I watch floor - Supports strategic level meetings - Participates in JG1 meetings - Maintains current knowledge of all mission related activities. **Qualifications:** Top Secret, Secret clearance. US Army - Life Cycle Management experience, US Air Force AFSC's (62SO Material Leader/Off) and 2S0X1 (Material Management/Enl).

23-6224  
Military Police  
23-6224, Length 1 Year: Military Police Officer for the Directorate of Emergency Services (DES) on an Army depot; providing police service/information and selective law enforcement activities which complement the Commander's law enforcement and security mission; responsible for the inspection of all commercial truck traffic entering the depot; perform random searches of vehicles entering the depot; control access to the established, controlled, and guarded areas by adherence to determined physical security measures; attend all of 318/318 Military Police school graduates. **Qualifications:** Secret Clearance. US Army - Life Cycle Management experience, US Air Force AFSC's (62SO Material Leader/Off) and 2S0X1 (Material Management/Enl).

23-6230  
Administrative Specialist  
23-6230, Length 168 Days: The service member will provide professional 4-star staff support while supporting TS and other classified video teleconferences and associated conference rooms. They will work with staff to deconflict schedules and resources in multiple buildings. They will also provide initial troubleshooting for all TS conference rooms and equipment, provide users an overview of equipment and processes. This requirement is often scheduling TS VTCs at the GDGO level that directly impact CMMC support of national security objectives. The Intelligence Directorate Support Staff has five allocated billets. One billet is currently vacant due to PCS without an identified inbound member. Another billet is expected to be vacant due to PCSs within the next month without an identified inbound member. We also have a member deployed. **Qualifications:** TS/SCI clearance, excellent bearing, time management and communication skills.

23-6236  
OPS Task Lead  
23-6236, Length 3 Years: General duties include full spectrum life cycle management functions to provide reliable and effective hardware and power systems to the Strategic Missions & Hypersonics Community. Provide design, development, test, implementation, sustainment and life cycle management to sustain the overall performance of the systems throughout its life cycle. - Organizes work, sets priorities, and determines resource requirements; determines short- and long-term goals and strategies to achieve them; coordinates with other organizations or parts of the organization to accomplish goals; monitors progress and evaluates outcomes. - Identifies objectives and strategies; coordinates with other parts of the organization to accomplish goals; monitors and evaluates outcomes. - Implements objectives and strategies; coordinates with other parts of the organization to accomplish goals; monitors progress and evaluates outcomes. - Identifies problems; determines accuracy and relevance of information; uses sound judgment to generate and evaluate alternatives, and to make recommendations. - Coordination skills. - Knowledge of the concepts, principles, and theories of engineering and their practical applications. - Knowledge of the principles, methods, or tools for developing, scheduling, coordinating, and managing projects and resources, including monitoring and inspecting costs, work, and contractor performance. - Knowledge of systems life cycle management concepts used to plan, develop, implement, operate, and maintain systems. **Qualifications:** Secret Clearance. US Army - Life Cycle Management experience, US Air Force AFSC's (62SO Material Leader/Off) and 2S0X1 (Material Management/Enl).

23-6238  
Project Manager  
23-6238, Length 730 Days: Mission Description: Serves as a Life Cycle Project Manager, with overall responsibility for managing the planning, scopeing, development, design, construction, and direction of important civil works, inter-agency, inter-governmental, and work for other projects. Represents the District as the primary point-of-contact with sponsor/customer; Congressional interests, various Federal, state and local government agencies; and other local organizations. Coordinates planning, design, cost-engineering, construction, and environmental restoration, etc., for engineering projects of substantial scope and complexity. Projects include flood risk management, navigation, environmental infrastructure, special projects, and other civil works related activities. **Qualifications:** Applicants must possess a PMP and college degree, desired certifications include: ScrumMaster, EIT, PE, CAPM, FMP/CFM, Lean Six Sigma Green/Black Belt. USACE experience a plus.

23-6239  
Program Analyst (Project Manager)  
23-6239, Length 730 Days: As a project scheduler you will build, analyze and monitor a wide variety of project schedules throughout the Pittsburgh District. You will be tasked with ensuring that all projects are identified and correctly entered into our integrated project management information system, and that all Project Managers (PMs) use the correct enterprise project architecture/WBS templates to define products, sub products, activities, or tasks for their projects. You will then conduct reviews with PMs and other PDT members to establish and follow policies and procedures for PMs and other PDT members to build and maintain project schedules. You will be expected to coordinate schedule updates and inform the team of upcoming milestones. Applicants must interview and be selected by the Deputy District Commander. **Qualifications:** Army Engineer Office - USACE experience a plus.
Cloud DevOps Engineer **WILL TRAIN / TELEWORK AUTHORIZED**

Cloud DevOps Engineer will play a critical role in managing the continuous integration, delivery, and deployment of applications and infrastructure on Amazon Web Services (AWS). Responsibilities will include managing the DevOps pipeline tools, such as Jira, Confluence, GitLab, and Artifactory, to ensure smooth and efficient delivery of code to the cloud. Incumbents will work closely with development and infrastructure teams to create and maintain infrastructure as code. To excel in this role, incumbents must have a deep understanding of the AWS environment and be able to automate processes to reduce deployment time and increase efficiency. Incumbents should be adept at troubleshooting and problem-solving and possess excellent communication skills to collaborate with cross-functional teams. Qualifications: Bachelor’s degree or 4 years of related experience; DoD 8570/8140 Certifications required; local or remote work options available. Click here to apply.

Cloud Solutions Architect **WILL TRAIN / TELEWORK**

Cloud Solutions Architect is responsible for designing and deploying Amazon Web Services (AWS) applications and infrastructure to create an environment where code and other technologies can be hosted. Incumbents must have a deep understanding of AWS services, be able to work with the Engineering, Infrastructure, and other stakeholders to understand the business needs, and design solutions that meet those needs. Responsibilities will include ensuring high availability and performance of the infrastructure, troubleshooting issues, and proactively identifying opportunities to optimize the environment for efficiency and cost-effectiveness. Incumbents will work with the infrastructure team to create an architecture for cloud computing environments and other technologies. Qualifications: Bachelor’s degree or 4 years of related experience; DoD 8570/8140 Certifications required; local or remote work options available. Click here to apply.

Senior Duty NCO **WILL TRAIN / TELEWORK**

Senior Duty NCO will play a critical role in managing the day-to-day operations of the Amazon Web Services (AWS) environment. Incumbents will work closely with the infrastructure team to create an architecture for cloud computing environments and other technologies. Qualifications: Bachelor’s degree or 4 years of related experience; DoD 8570/8140 Certifications required; local or remote work options available. Click here to apply.

Security Incident Manager

The Security Incident Manager’s primary responsibility will be to ensure the security of the system and data by managing and monitoring security incidents. The incumbent will work closely with other teams to coordinate incident response and conduct investigations to identify the root cause of incidents and prevent future occurrences. In addition, the incumbent will work closely with the SOC and SIEM engineering teams to implement security measures and ensure our security systems are functioning effectively. Attention to detail, problem-solving skills, and ability to work in a fast-paced environment will be critical to success in this role. Candidates with experience in incident response, a strong understanding of security best practices, and a commitment to continuous improvement, are encouraged to apply. Click here to apply.

Linux Cloud Administrator **WILL TRAIN / TELEWORK AUTHORIZED**

The Linux Cloud Administrator will play a critical role in managing and maintaining Linux servers and related infrastructure in the Amazon Web Services (AWS) cloud environment. Incumbents will be responsible for monitoring system performance, ensuring high availability of services and applications, implementing and maintaining STIGs and best practices to safeguard data and systems. Qualifications: Bachelor’s degree or 4 years of related experience; DoD 8570/8140 Certifications required; local or remote work options available. Click here to apply.

Certifications required: At least IAT level II+ (CCNA-Security, CySA+ *, GISCP, GSEC, Security+ CE, CND, SSCP, CASP+ CE, CCNP Security, CISA, CISSP (or Associate)), GCED, GCHI, CCSP) has context menu.

Security Incident Manager **WILL TRAIN / TELEWORK**

The Security Incident Manager’s primary responsibility will be to ensure the security of our systems and data by managing and monitoring security incidents. The incumbent will work closely with other teams to coordinate incident response and conduct investigations to identify the root cause of incidents and prevent future occurrences. In addition, the incumbent will work closely with our SOC and SIEM engineering teams to implement security measures and ensure our security systems are functioning effectively. Attention to detail, problem-solving skills, and ability to work in a fast-paced environment will be critical to success in this role. Candidates with experience in incident response, a strong understanding of security best practices, and a commitment to continuous improvement, are encouraged to apply. Click here to apply.

System Support Analyst **WILL TRAIN / TELEWORK AUTHORIZED**

The System Support Analyst will play a critical role in ensuring the smooth operation of our systems and services. The incumbent will monitor system alerts and dashboards, triage incoming support tickets, and use your knowledge of our systems to route issues and problems to the correct team. The incumbent will also monitor ticket trends to identify late-breaking incidents and problems, and assist the Senior Duty Officer with reporting and information gathering. In addition, the incumbent will continuously improve the system support process to increase user satisfaction and internal efficiency. Candidates with experience in system support, a strong attention to detail, and a willingness to work in a fast-paced environment, are encouraged to apply. This is an opportunity to make a significant impact on our organization and help us deliver high-quality services to our users. Qualifications: Bachelor’s degree or 4 years of related experience; DoD 8570/8140 Certifications required; local or remote work options available. Click here to apply.

Special Security Representative (SSR)

SSRs are responsible for the day-to-day management and implementation of the Sensitive Compartmented Information (SCI) security program for all NSWC IHD SCI facilities. Maintain all applicable SCI directives, regulations, manuals, and guidelines to adequately discharge SCI duties and responsibilities. Proprietary property for control, transmit, transport, package, and safeguard SCI. Ensure the SCI system is operating effectively by enforcing SCI security policies, procedures, and requirements. Incumbents must have a strong understanding of the SCI environment, including regulations and policies, and the ability to effectively manage and monitor them to ensure optimal performance and availability. Incumbents should be responsible for protecting SCI and SCI-related information and data, ensuring SCI is available to authorized users and that SCI-related information and data are protected. Qualifications: Bachelor’s degree or 4 years of related experience; DoD 8570/8140 Certifications required; local or remote work options available. Click here to apply.

Cross-Functional Team Manager

The Cross-Functional Team Manager’s primary responsibility will be to ensure the security of our systems and data by managing and monitoring security incidents. The incumbent will work closely with other teams to coordinate incident response and conduct investigations to identify the root cause of incidents and prevent future occurrences. In addition, the incumbent will work closely with our SOC and SIEM engineering teams to implement security measures and ensure our security systems are functioning effectively. Attention to detail, problem-solving skills, and ability to work in a fast-paced environment will be critical to success in this role. Candidates with experience in incident response, a strong understanding of security best practices, and a commitment to continuous improvement, are encouraged to apply. Click here to apply.

23-6261 INFOSEC System Administrator

23-6261, Length 1 Year: Information Technology duties on various platforms that consist of daily operations, to include, but not limited to: -Responsible for SCI secure spaces Information Technology, escorting, data calls, fiber connectivity, maintenance of hardware, account management, VTC support, and new SCI builds. -Interpreting and implementing DD/DM/DDC SCIF regulations regarding any and all IT systems. -Will ensure SCI spaces are IT and Security compliant throughout the construction, usage, and end of life. -Responsible for fiber and IT inventory that includes managing repairs and/or replacement of temporary or permanent IT equipment and media. -Serves as the liaison between various network owners/administrators (ONI, NMCI/NPP/SPR, RDT&E) and Code 10 as needed for all IT matters with the SCIFs. -Assisting with troubleshooting IT systems and peripherals as needed. -Apply Cybersecurity principles, policies, and procedures to ensure information systems are secure and reliable in accordance with the DISA and CNR Cyber Security policies. -Provide advice and consultation to management on information security issues, and issues pertaining to the Certification and Accreditation for IT systems. -Consults with leadership and users to translate requests into IT requirements. Qualifications: • Technical knowledge/experience with IT peripherals in a Microsoft Windows enterprise environment, such as printers/scanners • Technical knowledge/experience with IT networking equipment (i.e. routers, switches, ethernet cabling, etc.) • Technical knowledge/experience deploying and maintaining IT Data Center and user facing equipment • Must currently hold TS/SCI Level Clearance. • Must be able to kneel, bend, and maneuver under desks, climb ladders and scale walls.

23-6263 Multi Media Illustrator

23-6263, Length 1 Year: The 25M Multimedia Illustrator PFI to aid in the production of graphic artwork and products to use in C2A/CCAD Strategic Communications, publications, interactive computer-generated visual display products and visual productions. This 25M will provide support to the C2A/CCAD Graphic Illustrator and Sharepoint Team Lead as they build an interactive spider diagram type product that shows the interconnectivity of stakeholders and mission from C2A2 Artisan to Big Army. Qualifications: MOSQ 25M

23-6265 Network Infrastructure Engineer

23-6265, Length 1 Year: Serves as the Current Operations and Network Infrastructure Engineer Officer for the DISA Central Field Command - maintains situational awareness over all DISA enterprise capabilities and services within the USCENTCOM area of responsibility (AOR). Serves as the lead action officer for all critical Command and Control (C2) systems issues; integrates new DISN and enterprise systems and capabilities within the AOR; deploys as a DISA Liaison Officer (LNO) to Component HQs as required and deploys as part of the Component Commander’s advanced party during contingencies and exercises. Serves as the Chief Engineer for special projects within the USCENTCOM AOR. Qualifications: Must be FABG qualified. Degree in Computer Science, Telecommunications, or Electronic Engineering is desired. Complete intermediate service school/professional military education is required. Strategic/strategic experience in network management is required; tactical comm experience in background; background is desired. Military ops and C4ISR systems planning, and O&M experience is essential. Experience in DISA and the Central Region is highly desired.

23-6266 Deputy Director CECOM G1

23-6266, Length 1 Year: Provides expert advice and guidance on human resource programs for both military and civilians. Provides human capital and strategic projects and programs requiring extensive analysis and interpretation for many different programs, processes, and methods, such as advice on revisions to existing policies and programs to meet regulatory requirements. The incumbent is committed to designing, developing, and implementing those models and guides that will attract, develop, and retain quality employees and ensure a high-performing workplace. Maintains close liaison with representatives of the Army Materiel Command, and other Federal agencies to obtain or provide information on high priority personnel projects and to ensure consideration of Agency programs, policies, and recommendations. Implements actions necessary to effect management decisions including early retirement management, separation incentive authorities, reduction-in-force procedures, and recruitment strategies to fill vacant positions. Advice and guidance cover the full spectrum of human resources.

23-6270 Operations Analyst

23-6270, Length 365 days: The incumbent will be responsible for tracking actions, due dates, and the POCs responsible for them for the Chief of Staff office, Deputy Technical Director, and Business Director offices and provide further guidance/interpretations and answer any questions/concerns by all parties. He/She will support meetings and initiatives by tracking actions, taking minutes, developing briefs/presentations, maintaining website/Teams, and providing IT support. Provide daily preparation, awareness, and support for activities by developing and providing agendas, tracking and collating briefing materials, and tracking actions due. Incumbent will support in the preparation, logistics coordination, planning and follow-through on command hosted visits. Incumbent will work closely with CT and TD action officers to ensure actions and communications are tracked, succinct and coordinated in a timely manner.

23-6276 Project Engineer

23-6276, Length 2 Years: Serves as a Project Engineer, with responsibility of assuring that all repair projects are afforded proper priority, that needed information and resources are available, and that commitments are met. Plans and executes repairs and alterations to navigation locks and dams and flood control structures. Due to the age and uniqueness of these structures, problems are encountered which require changes to the existing principles and techniques; these changes necessitate using original and some-times novel engineering and construction applications. The incumbent submits design sketches to the Chief, Maintenance Section or Project Managers for discussion and cursory review. Instructs the field crews in preparation and completion of O&M repair jobs. Makes field inspections to determine condition of equipment, such as: lock gates, valves, gates, dams, penstocks, bulkheads, cranes, hydraulic control equipment. The incumbent notes conditions and obtains data for planning/scheduling future repairs using it to provide guidance and assistance to field supervisors.マシン about difficult, unusual, unprecedented or special problems. The incumbent has sole responsibility for preparation and maintenance of current file for each assigned project. File contains the following data: cost estimates, job orders, job hazard analysis, daily logs, requisitions, contracts, planning requests, photographs, pertinent drawings/as-built drawings, completion report, final cost, and other relevant information. Based on technical knowledge, as well as input from various inspections, provides assistance in the preparation of maintenance packages for annual O&M budget submissions. Prepares technical plans and specifications for supply contracts. Qualifications: Army Engineer Officer - USACE experience plus a electrical, Mechanical, or Civil Engineer preferred, degree required. Skill identifiers W3, W4, WS, or W5 preferred

23-6280 Software Developer

23-6280, Length 1 Year: Highly motivated and articulate leader. Problem solver skills required. Develop software that would support the F-16 and Joint Simulation Environment. Object Oriented software development activities including, coding, testing, integration, and simulation of real-world aircraft weapon systems, etc. Software testing using automated test technology Pipeline development and deployment for Continuous Integration/Continuous Deployment Reducing technical debt re-factoring legacy codebases and updating to modern software development practices Agile Software development techniques to include Daily stand-up, sprint planning, development of minimum viable products and continuous improvement. Qualifications: Professional Skill Level: • Mandatory: Computer Science Degree; Computer Engineering Degree; Electrical Engineering Degree; other engineering degree with focus/experience in Software development • Desired: Competency in C++ programming; Competency in C programming; competency in other modern programming languages and Operating Systems Security Clearance Required: Secret

23-6281 Program Manager

23-6281, Length 1 Year: Program Manager Highly motivated and articulate leader. Problem solver skills required. Work with squadron Project Directors to managed various projects within SWEG. Develop and administer project specific requirements. The individual manages tasks with engineering, program control, and configuration management. They will manage program progress to ensure availability of operable and supportable subsystems. They must know program management procedures pertinent to software development and production. Become familiar with Agile software development and assist in Agile development rituals such as sprint planning, backlog grooming, and program increment planning. Learn Scrum Master Role within Agile software development framework Develop cost estimates, create reports and metrics to measure spend plans and burn rates Develop program schedules, manage critical path. Become familiar with Art of the Possible and implement goals and metrics for Art of the Possible activity Create presentations and status reports for project management reviews. Qualifications: Professional Skill Level: • Mandatory: Level II certification is PM • Desired: Data Science/Analysis, Operations Research, MBA or Systems Management experience; JPML Level I; Project Management Professional (PMP) certification • Security Clearance Required: Secret
23-6282 DAR/DARQ Financial Analyst

23-6282, Length 1 Year: Perform required review of financial records with dormant balances and collaborate with responsible program analyst, accounting, budget, and 107 personnel verbally and/or in writing as needed to ensure no dormant balances. Conduct required financial reviews within the financial system clear dormant balances. Conduct written and/or verbal communications with applicable points of contact (POC) to determine current status of unexpended funding on purchase orders (PO) and awarded contracts for purposes of reporting. Reviewing financial discrepancies and non-compliance in accordance with applicable policies and procedures. Identify and report any discrepancies to the appropriate responsible personnel for resolution.

23-6282, Length 2 Years: Serve as an Alternate Communications Security (COMSEC) Account Manager. Manage and maintain proper accountability, handling, storage, packaging, shipment, all incoming/outgoing transfers, signed receipts, hand receipts and administration of COMSEC equipment and materials. Maintain the Key Management Infrastructure (KMI) Management Client (MGC) computer system and the Advanced Key Processor (AKP), which includes generation, issuance, and destruction, of electronic keys. Qualification - Incumbent is open to service members who have the minimum background and training necessary to meet the position needs. Perform all aspects of physical fitness and injury prevention in support of OPM-SANG's Security Assistance mission. Educates, consults and develops policies on physical fitness, injury prevention and health and fitness. The position requires a DoD, Federal Government certification, formal education, or practical experience in COMSEC account operations. Must have, or be able to complete, KMI Operating Account Manager (KOMAM) Course of Instruction (COI), KMI A-4 AC - 1340. Top Secret/Sensitive Security Clearance eligibility required. Qualifications: The position is open to service members who have the minimum background and training necessary to meet the position needs. A DoD, Federal Government certification, formal education, or practical experience in COMSEC account operations. Must have, or be able to complete, KMI Operating Account Manager (KOMAM) Course of Instruction (COI), KMI A-4 AC - 1340. Top Secret/Sensitive Security Clearance eligibility required. Qualifications: The position is open to service members who have the minimum background and training necessary to meet the position needs.

23-6314 Business Analyst

23-6315, Length 1 Year: Business Analyst will ensure that programs and projects are successfully delivered. The Business Analyst will be responsible for gathering and analyzing business requirements, working closely with stakeholders to identify and prioritize needs, and meeting with stakeholders to ensure requirements are met. Provide leadership and guidance to ensure that projects stay on track and that risks are identified and mitigated. The Business Analyst will be responsible for providing insights and guidance to ensure that high-quality solutions are delivered that meet the needs of stakeholders and users alike. The business analyst will be expected to have experience in business analysis, requirements gathering, data tracking and updating, documentation, and stakeholder engagement. Qualifications: Optional: but desired - a nationally or federally/DOD recognized certification (CBAP, Agile, PMI-ACP). DAU or CSC course in Business Analysis (e.g., Institute of Certification Analysis/CFCA, Certified Financial Analyst (CFA), IFCA Certified Business Analyst (CBFA), Project Management Professional (PMP), or courses under the Cost Estimating Practitioner or Cost Estimating Advanced tracks.

23-6316  Cloud Machine Learning Engineer
23-6316, Length 1 Year: A Cloud Machine Learning Engineer designs and deploys machine learning models on AWS. Incumbent’s role involves understanding machine learning algorithms and frameworks, selecting appropriate AWS services, and ensuring the scalability, reliability, and security of machine learning solutions. Staying updated with the latest advancements in machine learning is important in this role. Qualifications: Evidence of experience will be considered for position eligibility. DoD 8570.1-I/840 Certifications required: At least IAT level II (CCSA-Security, CySA+ **, GICSP, Security+ CE, CND, SSDP, CASP+ CE, CCNP Security, CISA, CISSP or Associate), GCED, GCIC, CCSP has context menu. Click HERE to apply

23-6317  Cyber Security Engineer
23-6317, Length 1 Year: A Cloud Security Engineer is responsible for implementing and maintaining security measures to protect an organization’s data, applications, and infrastructure in the cloud. The incumbent must possess strong knowledge of security principles and work with various AWS security services. Duties include AWS security services, security guardrails, security testing, security monitoring, and security integration. Qualifications: Civilian experience will be considered for position eligibility. DoD 8570.1-I/840 Certifications required: At least IAT level II (CCSA-Security, CySA+ **, GICSP, Security+ CE, CND, SSDP, CASP+ CE, CCNP Security, CISA, CISSP or Associate), GCED, GCIC, CCSP has context menu. Click HERE to apply

23-6319  Cyber Security Watch Officer
23-6319, Length 1 Year: A Cyber Security Watch Officer is responsible for monitoring the National Background Information Services (NBIS) environment from cybersecurity threats. Acting on behalf of the System Owner, the Defense Counterintelligence and Security Agency (DCSA) Cloud Enterprise ISM, and the DCSA Cloud Enterprise Security Operations Center (SOC) lead, you assist with incident response, track SOC investigations, escalate issue for review, and review and approve alerting changes and develop and improve SOPs, TTPs, and guidelines. Responsibilities include but also oversee SOC operations, ensuring effective cybersecurity monitoring and response. Qualifications: Civilian experience will be considered for position eligibility. DoD 8570.1-I/840 Certifications required: At least IAT level II (CASP+ CE, CSIM, CISSP or Associate), GCIC, CCIC, HCICP. Click HERE to apply

23-6320  Project Manager
23-6320, Length 1 Year: Project Manager will help the project teams manage projects and track deliverables. They will support planning meetings, administrative and project activities. The Project Manager will manage and report on risks and update stakeholders and the MPE team on status. They will prepare reports and analyze data. The Project Manager will track and update schedules for new MPE customers. They will review processes and propose alternatives and project strategies. They will work with MPE and customers to create and provide metrics and slide presentations. They will oversee coordinators responsible for scope, cost and control of multiple projects. The Project Manager will be expected to create spreadsheets and schedule and track processes. Qualifications: (Required) - A nationally or federally/DOD recognized certification in project management (e.g. Project Management Institute (PMI) Project Management Professional (PMP), PMI Agile Certified Practitioner (ACP), graduate certificate in project management, DAU courses in Project Management. Click HERE to apply

23-6323  Nellis MILCON Install Support
23-6323, Length 61 days: Positions will support the installation of telecommunication hardware and infrastructure at assigned locations (Nellis AFB). Click HERE to apply

23-6325  IT Security Operations
23-6325, Length 1 Year: The individual will perform roles/responsibilities as defined in IAW AF1 17-101 and AF1 17-108. Mastery of and skill in applying IT related to security of systems, e.g., access control, security audit and accountability, security controls for configuration management, incident response, security awareness, personnel security, information security, system and communications protection, and system and information integrity. Individual will also perform roles as ISSO, Security Manager, and Top Secret Control Officer. Qualifications: TS/SCI Required. Security+ certification Risk Management Framework experience. Information Systems Security Officer or Manager (ISSO/ISSM) experience would be helpful. Click HERE to apply

23-6326  Military Police Officer
23-6326, Length 1 Year: Military Police - Tobyhanna Army Depot, in Northeastern Pennsylvania, seeks military police. Duties include: Will be assigned law enforcement/Security duties to uphold Federal Laws and Regulations, maintain order and good discipline, and support the installation commander’s law enforcement and security requirements. Typical duties include foot and motorized patrol and control of pedestrian and vehicular traffic and conducting random anti-terrorism measures (RAM) in accordance with local regulations and policies. Qualifications: 31B MOS. Click HERE to apply

23-6329  Environmental Science/ Engineer Officer/Engineering Tech
23-6329, Length 2 Years: Environmental support specialist for the Soo Project Office. Consultant for environmental compliance, implementation, inspection, auditing, monitoring, and reporting responsibilities, including regulatory support to Federal, State, and local hazardous waste concerns. Participates in the review of plans and specifications for environmental aspects of contracts and provides recommendations. Develops environmental implementation processes, policy and guidance. Develops corrective action plans for non-compliance issues. Qualifications: Army Engineer Officer - USAE experience a plus. Preferred MOS include 72D. Click HERE to apply

23-6330  Engineering Technician - Survey
23-6330, Length 2 Years: Performs or reviews all required calculations, reduction and processing of hydrographic survey data to complete a variety of cartographic products using CAD, Hypack, or other 3D data processing software suites. Typical tasks are listed here: Dredging volume calculations; disposal area volume capacity calculations; seafloor contour maps; and before and after dredge completion surveys; statistical rate analyses; 2-D and 3-D subsurface model diagrams; and manipulations of digital engineering data, maps, and remote sensing imagery within a Geographic Information System (GIS). Plans and coordinates the activities of the survey field crews engaged in providing survey and other Geospatial data, in support of design, construction, and operation and maintenance functions in support of navigation locks and dams, disposal facilities, and facility construction. Responsible for planning, directing, coordinating, supervising, and overseeing the accomplishment of survey operations which include reconnaissance, preliminary, construction, control and topographic surveys for civil projects in the project office jurisdiction. Works in the field to accomplish tasks when needed. All surveys are performed in an electronic environment using total stations, digital levels, and global positioning system (DGPS) and Real Time Kinematic (RTK) equipment. Conducts mission planning; ground control establishment, pre-flight preparation and safety inspection, UAS operation using a Remote Pilot in Command (RPC) and/or UAS sensor, system monitoring and debriefing. Qualifications: Enlisted, Commissioned Officer, Commissioned Officer/Mos. Preferred MOS include 12C, 12G, 12H, 12N, 12T, 12X, 12Z, 12D, 12O, & 12D. Other MOS/CFA may be considered. Previous USAE experience highly advantageous. Click HERE to apply

23-6335  BigW 530 ISP Install Support
23-6335, Length 55 days: Positions will support the installation of telecommunication hardware and infrastructure at assigned locations. Click HERE to apply

23-6337  Intelligence Analyst
23-6337, Length 1 Year: Incumbent will produce weekly unclassified, secret, and top secret intelligence summaries to 4.4k software and acquisition personnel throughout the Department of Defense. Prepare security personnel in improving local area security culture through unclassified security/cybersecurity briefings, and conduct routine current intelligence briefings to technical and non-technical staff. Incumbent will also assist in defensive cyber operations by providing indicators of compromise to network defense analysts and conducting research on indicators of malicious identified on local, non-AFIN, software development networks. These efforts also include assist in all efforts made to keep an updated threat intelligence. Qualifications: Active TS/SCI or T/SCI, support intelligence studies and develop a classified threat model that can be used for counter intelligence. Click HERE to apply

23-6338  Deployment Operations Force Provider
23-6338, Length 1 Year: Executes contingency planning support requirements to ensure DLA support for agencies customers worldwide. Is responsible for all operations as they relate to DLA Deployment Support Teams (DSTs) and Immediate Response Force Rapid Deployment Teams (IRF RDTS) civil and military (active and reserve components) supporting CCMs deployments as members of DSTs and IRF RDTSs. Customer Support Liaison Operations, Supply Management Council (SMC), Customer Assistance Specialist (CAS), and Emergency Essential (E-E) initiatives. Qualification: Knowledge of DoD Travel system and process travel authorizations and vouchers, as necessary to execute挥手ies to the DLA Deployment Support Team. In conjunction with traveler responsibilities. Required to travel across the nation. Qualifications: Firm knowledge of Defense Travel System (DTS), DTS roles and responsibilities. Excellent writing and briefing skills. Click HERE to apply

23-6339
Project Engineer
23-6339, Length 730 Days: Valley Resident Office. The position this request would be filling is critical to the mission success of SPK. Without successful resourcing operational degradation may result, critically impacting the mission. Responsible for performing and directing the full range of field engineering activities associated with construction operations. Plans, schedules, monitors, and controls the full range of construction operations. Compiles data and prepares a variety of correspondence and reports relating to assigned project to include status of construction, letters to contractors concerning safety matters, or to resolve difference of opinion over plans and specifications. Replies to supervisor providing specific technical data on cost, methods, and materials. Takes all actions under an appointed COR. Qualifications: Army Engineer Officer - USACE experience a plus.

23-6340
Project Engineer
23-6340, Length 730 Days: Folsom Resident Office. The position this request would be filling is critical to the mission success of SPK. Without successful resourcing operational degradation may result, critically impacting the mission. Responsible for performing and directing the full range of field engineering activities associated with construction operations. Plans, schedules, monitors, and controls the full range of construction operations. Compiles data and prepares a variety of correspondence and reports relating to assigned project including status of construction, letters to contractors concerning safety matters, or to resolve difference of opinion over plans and specifications. Replies to supervisor providing specific technical data on cost, methods, and materials. Takes all actions under an appointed COR. Qualifications: Army Engineer Officer - USACE experience a plus.

23-6341
Project Engineer
23-6341, Length 730 Days: Natomas Resident Office. The position this request would be filling is critical to the mission success of SPK. Without successful resourcing operational degradation may result, critically impacting the mission. Responsible for performing and directing the full range of field engineering activities associated with construction operations. Plans, schedules, monitors, and controls the full range of construction operations. Compiles data and prepares a variety of correspondence and reports relating to assigned project including status of construction, letters to contractors concerning safety matters, or to resolve difference of opinion over plans and specifications. Replies to supervisor providing specific technical data on cost, methods, and materials. Takes all actions under an appointed COR. Qualifications: Army Engineer Officer - USACE experience a plus.

23-6342
Create Decision Advantage Manager
23-6342, Length 1 Year: Position will immensely contribute to actions required as stated in Command's Campaign Plan LDE 4, Create Decision Advantage, which is also a command priority that shapes the command's ability to have and apply data at a time of our choosing to generate information required for situational awareness and accelerating decision making. Position requires a field grade officer that is strategic minded, a critical thinker, and skilled to deliver solutions regarding 5 intermediate military objectives that involves J-Drs and TCCs with collaboration/coordination from external organizations such as DLA and Joint Staff. Must be a skilled planner able to meet actions and deliver products IAW established timelines and action items - Ability to understand mission requirements, apply analytical thinking, and then translate into battle rhythm events and information flow - Represents the command at numerous working groups such as Joint All Domain Command and Control working groups and in related functional capabilities boards - Working knowledge of Microsoft Office Suite including developing briefings, point papers, and executive summaries - Possesses excellent communication skills since there are numerous briefings to AOs, councils, General Officer Steering Committee, and to the commander level Qualifications: Required Clearance: TS/SCI

23-6343
Deputy Chief, Public Affairs Officer
23-6343, Length 351 Days: Deputy Chief of Public Affairs to the Commander of USTRANSCOM. Directs USTRANSCOM's command information, community engagement and public information programs to a global audience. Promotes the understanding of USTRANSCOM to internal, enterprise and external audiences. Develops and executes comprehensive communication strategies that support USTRANSCOM, DoD, inter-agency and allied business. Coordinates and implements public affairs plans, policies and guidance to synchronize mass communication efforts across USTRANSCOM components, the Combatant Command, the military services, the Joint Chief of Staff, and the Office of the Secretary of Defense as well as the Department of States, Transportation, Homeland Security, Combatant Commands, and others. Provides public affairs consultation services directly to the commander, deputy commander, chief of staff as well as other flag and general officers. Qualifications: Required Clearance: Required Clearance: TS/SCI

23-6344
OPLAN Integration Planner
23-6344, Length 1 Year: Integrate operational plans into Mobility Requirements and forecasting products. Plan Airlift, Sealift and Aerial Refueling as required to integrate JS/4 and JS. Provide operational inputs into data analytics for operationalizing OPLANS. Backstop one deep JBP positions as required to continue moving forward with JS4 and JS3 integration. Qualifications: Required Clearance: TS/SCI

23-6345
Cyber Operations Center Watch Officer
23-6345, Length 13 Days: CyOC requirement for watch officer in support of plus-up requirements directly supporting USTRANSCOM exercise support; in addition, position will support three days of 24x7 watch officer coverage during CyOC training day to ensure annual certification requirements are met. Responsibilities: Maintain accurate and timely information assurance (IA), situational awareness (SA), and respond to network and cyber events and incidents on a 24x7 basis. Provide SA to senior USTRANSCOM leadership via reports, briefings and verbally. Respond to phone and email inquiries regarding a variety of network, system, and cyber events to include scheduled/unscheduled outages and software/hardware upgrades. Perform tasks utilizing automated troubleshooting system and other monitoring tools. Monitor and respond to network and system event management tools using existing processes and checklists Qualifications: Required Clearance: Required Clearance: TS/SCI/PLanner/TRANS

23-6346
Senior Mobility Analyst
23-6346, Length 1 Year: Provide analytic support to JSO, Joint Staff, CCMDs, Services, TRANSCOM and TCC involving modeling & simulation, data analytics, and staff coordination on mobility problems supporting the National Defense Strategy and supporting strategies. Analysis focus includes Program Budget Review (PBR), Deliberate Planning, force flow planning conferences, and associated mobility studies including the Contested Environment. Mobility analysis includes airlift, sealift, and ground movement of unit equipment, personnel, sustainment, noncombatants, patients, ammunition, and bulk fuel. Contested Environment focuses on adversary capabilities from sources, ORSA's or those with ORSA like skills are needed for this position. Qualifications: Required Clearance: TS/SCI/SAJ - JS4, 4A, 4B, OR 1B3S

23-6347
Security Specialist
23-6347, Length 1 Year: To keep up with the increasing demands of bringing the fight to IWCS, Command Planners, Cyber professionals, and Logisticians are being required to upgrade their SCI eligibility. Additionally, there is a lifecycle tracking requirement to ensure these new authorities and existing personnel maintain their SCI status through required reporting and declassification of derogatory information reduce the potential for insider threat. With the global presence of USTRANSCOM, the construction, modification, and accreditation of SCIFs within Command leadership suites and increased SCI footprints for our JS4, JS3, and 26 directorates to collaborate in secure spaces. Meeting regulatory guidance is paramount to ensure classified information is properly protected. The individual will be trained on key tasks required to support SSD administrative functions and also support the Chief, SSO, and the Physic and Persic support team. Member will work hand-in-hand with the SSD team utilizing line training, regulatory resources and OJT. Due to the increase with real world operations and increased sharing of classified, the potential for the loss or compromise of classified information will increase exponentially as seen with the current security issues being tracked by the Defense Intelligence Agency and Inspector General. The increased requirements without the increase in support will adversely affect the ability to ensure security clearances are maintained, facility accreditations remain valid, and classified information is appropriately protected. Qualifications: Required Clearance: TS/SCI Skill: 41L/YN/1DO/1N

23-6348
Project Manager
23-6348, Length 5 Years: Incumbent will support the Military Ocean Terminal Concord (MOTCO) managing active construction projects valued at $562M to support MOTCO and SDDC's mission for success of it's national strategic defense mission. Will be lead MILCON PM forward due to shortages at the district which impact the ability to maintain and foster a relationship with SDDC and base personnel. Strategic value of MOTCO and the information is appropriately protected. Qualifications: Professional Engineer, Preference Post-Command PPT

**Job Descriptions**

23-6349 Procurement Specialist

23-6349, Length 730 days: Serve as Procurement Analyst for NSWDCD. Incumbent is responsible for analyzing material procurement requirements and processing purchase requests for internal and external customers in major Programs across NSWCCD. The Procurement Analyst processes procurement life-cycle tasks that may include material screening, purchase requisitioning, ordering, reconciliation, cleanup, and discrepancy reporting. Evaluates material requirements for availability within the Federal Supply System and determines appropriate supply cataloging and classification for accurate procurement in Navy ERP. Executes Purchase Orders that may include Military Standard Requisitioning and Issue Procedures (MILSTRIP) or the Government Purchase Card (GPC), and generates Purchase Requisitions in Navy ERP for procurement vehicles such as MILSTRIP, GPC, Material Contracts, Service Standard, and Ordering Documents (FODS). Incumbent coordinates with internal and external customers as well as Federal organizations such as NAVSUP, GSA, DLA, and commercial vendors to expedite. Maintains processing of critical and time-sensitive procurement transactions. Incumbent follows guidance provided by the Approving Official and adheres to all business rules and practices. Qualifications: GENERAL: 1) Ability to communicate both orally and in writing. 2) Basic knowledge of the Federal Acquisition Regulation (FAR). 3) Ability to process procurement actions that may include material screening, purchase requisitioning, ordering, reconciliation, and cleanup. 4) Ability to obtain and maintain a Government Purchase Card. TECHNICAL: 1) One year of experience in Federal Supply screening and cataloging of materials for procurement with up-to-date knowledge of the required sources.

23-6352 IT/Software Technical Specialist

23-6352, Length 1 Year: The incumbent will serve as a member of the NAVSEA’s Reliable Processing Automation (RPA) team. Duties will include executing automations on a rigorous schedule, which will transact and update datasets within IT/Software systems. This will require the ability to troubleshoot execution errors and read log files, and provide documentation to communicate with appropriate teams for resolution, as well as produce metrics and reports as needed. Additional duties include: working with customers to identify new requirements and opportunities to automate; ensuring the DON Automation Listing is kept up-to-date and accurate with existing assets; transitioning of data stored on share drive over to a new SharePoint Online repository; participate in testing of automations and the software used (UiPath) and evaluating other command automations and working with NAVSEA subject matter experts (SMEs) to determine if they can be utilized at the NAVSEA command. Qualifications: Knowledge of IT/Software Programs; ability to execute software, read log files to determine errors and troubleshoot errors; Ability to write functional and technical specifications of a process into a template using Microsoft Word.

23-6355 Contracting Specialist

23-6355, Length 1 Year: Contracting Specialist to support Civil Work mission across the USACE Pittsburgh District including supplemental projects to include the Infrastructure Supplemental projects and Disaster Relief Act Mission. Responsibility for pre and post award contracting actions below and above the simplified acquisition threshold. Potential to work with FEMA support contracts involving homeland security presidential directive and ESF#3. Mission includes supplies, services, and construction, and A contracts. Applicants must interview and be selected by the Deputy District Commander. Qualifications: AATT completed, at least 1 year of contracting experience.

23-6357 Branch Chief, Future Operations

23-6357, Length 1 Year: Critical Asset List - Cyber (CAL-C) in order to identify, prioritize and protect the critical mission systems. 5. Maps cyber asset relationships and dependencies to produce a visual depiction in MADS II to meet DoD architectural standards and facilitate inter-Command information exchange. 6. Provides oversight in entering MADS II with the Joint Staff directed elements of information to reflect the identified cyberspace-based capabilities/assets & the associated MRT-C maps. 7. Incorporates intelligence supported threats/hazards potentially affecting the MRT-C to produce "what-if" scenarios identifying likely mission impacts/degradations. 8. Supports USTRANSCOM Mission Assurance Division with integration of the cyberspace-based capabilities/assets and associated "what-if" results into full spectrum, mission risk assessments. 9. Serves as OPP for USTRANSCOM Combatant Campaign Plan-22 (C2P-22) and DOD Functional Campaign Plan Global Deployment and Distribution (FCP GDD-22) for TCJ36. 10. Leverages extensive knowledge of the USTRANSCOM Joint Deployment and Distribution Program and employs knowledge of cyberspace network architectures to guide and prioritize contractor's data collection and transmission efforts in MADS II. 11. Coordinates internally within the USTRANSCOM staff and externally with DOD and non-DOD mission partners on cyberspace operations. 12. Represents the Cyber Division at cyberspace-dependent MRT-C meetings and conferences locally and TDY from Scott AFB: QUALIFICATIONS: Required Clearance : TS/SCI Skills: Critical thinking, Leadership, Communication

23-6359 Information System Security Officer (ISSO) **WILL TRAIN/SITUATIONAL TEAM**

23-6359, Length 1 Year: An Information System Security Officer (ISSO) is responsible for managing cybersecurity-related tasks for DoD Information Systems (IS). Incumbent’s duties include assessing change requests, assisting ISMS, monitoring compliance with cybersecurity policies, initiating protective or corrective actions in response to incidents, ensuring up-to-date documentation, and periodically assessing security controls. Qualifications: *Civilian experience will be considered for position eligibility. DoD 8570.1M Certifications required: at least IAT level I (or better). (CIA, CND, Cloud, GSLC, Security+ CE, HCISPP, CASP+, CE, CISSP or Associate), CCSO)

23-6362 IT Specialist (INFOSEC)

23-6362, Length 1 Year: You will serve as an IT Specialist (INFOSEC) performing Information System Security Officer (ISSO) duties in the Cybersecurity Branch (04431) at Naval Surface Warfare Center Crane Division. You will plan, analyze, develop, implement, maintain, enhance, and maintain methods to ensure the information systems are operated, used, maintained, and disposed of as needed. You will analyze, assess, and document cybersecurity requirements and capabilities of DoD ISs to establish compliance with security requirements, identify vulnerabilities, quantify risk and ensure the network, application or IS is authorized to operate. You will draft, review, or validate information security documentation, such as systems security plans, risk assessments, disaster recovery plans, business continuity plans, and user security guides, leading to verified system security certification. You will conduct system security audits that include evaluation of general computer controls and computing environments as they relate to DoD, Navy, and NSWC Crane’s cyber security requirements and processes and report security incidents. You will audit IT systems and networks to ensure accreditation and/or certification support documentation is developed. You will ensure information systems are operated, used, maintained, and disposed of in accordance with security policies and practices and initiate protective or corrective measures as required. • You will validate and verify systems and security products to detect security weaknesses to support information assurance vulnerability management. • You will ensure that Assessment and Authorization (A&A) support documentation is developed, maintained, and updated as required. • This position has the potential to identify and assign to the Cyber Protection Center (CPC) a new C2P22 cybersecurity position as part of cyberspace-based capabilities/assets, which support the Combatant Campaign Plan-22 (C2P-22) and DOD Functional Campaign Plan Global Political Deployment and Distribution (FCP GDD-22) for TCJ36.

23-6367 Contracting Specialist

23-6367, Length 88 Days: Cyber Systems Integration. Qualifications: AFSC 1B, 1D, 1N

23-6370 Chief, Plans and Operations

23-6370, Length 1 Year: DLA Energy Indo-Pacific South West is headquartered in Guam, with requirements stretching from the Indian Subcontinent to Australia and New Zealand. The Chief of Plans and Operations supports the execution of the integrated material management and distribution operations of bulk petroleum products and energy services for U.S. forces in 22 nations in the Western Pacific (WESTPAC). Responsible for developing and implementing critical Class III bulk supply chain plans and facility capability models (Fuel Models) for Operational Plans (OPLANs) supporting US Indo-Pacific Command’s (USINDOPACOM) strategic bulk petroleum requirements. Assesses and integrates key civil and commercial capabilities (International Ports, Port Authorities, Port Resources, Rfns, Transportation Providers, and related assets) to meet military and civil defense capabilities in order to evaluate and implement supporting plans for WESTPAC OPLANs. Assesses and analyzes facility operational capabilities to support OPLAN requirements. Assesses, reviews and monitors inventory requirements for 350 million gallons of physical inventory at seven (7) Defense Fuel Support Points (DFSPs). Assesses petroleum distribution capabilities and assists product integrity for nearly 40 contractor-operated into-plane and bunker facilities in support of exercises and contingency bulk fuel requirements for land, air and sea operations. Assesses and reviews currency and accuracy of operational support supply chain fuels models which includes and integrates support capabilities for five (5) Acquisition Cross Servicing Agreements (ACSA). Evaluates, orders, and monitors the resupply of DFSPs to assure maintenance of required inventory in accordance with the current DLA Energy Inventory Management Plan (IMP). Ensures support for multiple USINDOPACOM service component commands, and other DoD agencies, as required. Assures bulk petroleum distribution operations to support identified exercises in the WESTPAC, which include recurring exercises such as Cobra Gold, Valiant Shield, Cape North, Talisman Sabir, Baktvanak, and Pacific Partnership. Qualifications: - Secret Clearance required. - Official passport to facilitate TDY in USINDOPACOM AOR required. - TDY enroute desired, three (3) days at HQ, DLA Energy, 8723 John J. Kingman Road, Fort Belvoir, VA for orientation and indoctrination. Include authorization for travel, per diem, and rental car for TDY. - TDY enroute desired, two (2) days at DLA Energy Indo-Pacific, 1025 Quincy Ave, Bldg 479, Suite 2000, Pearl Harbor for orientation and indoctrination.

24-6009 Physical Security Specialist
24-6009, Length 1 Year: Candidate will serve as a Physical Security Specialist at the Naval Surface Warfare Center, Philadelphia Division located in Philadelphia, PA. The candidate independently develops, plans, and carries out the day-to-day operations related to the Physical Security of NSWCPD buildings and spaces. To accomplish this, the incumbent applies analytical ability, judgment, and substantial knowledge of a wide range of security concepts, principles, and practices. Position requires autonomy to develop and set policy and operating procedures required for the level of security needed to support this program. Candidate will evaluate the effectiveness of existing security practices, recommend the type of control requirements, procedures, and facilities needed; assure organization and contractor personnel are adhering to established policy and practices; and recommend appropriate action to correct deficiencies. In consultation with the Physical Security Officer, the incumbent determines the kind and extent of protection required for facilities, personnel, assets and information such as layout of the area, susceptibility to theft, susceptibility to fire, and similar considerations. On a random basis walks through facilities to identify and subsequently report security violations. Candidate will also be responsible for supporting the NSWCPD Pass & ID office. Will be responsible or processing employee and visitor identification badges and all required administrative paperwork associated. Qualifications: Career Series equivalent to Navy Administrative Technical Specialist (0DB) position.

24-6010 Travel Analyst
24-6010, Length 1 year: Working as part of a team within the Comptroller Department, provides all aspects of temporary duty travel (TDY), long term TDY, and permanent duty travel support. This position requires knowledge of an extensive body of travel and financial regulations, methods, and practices (e.g., Joint Travel Regulations, the Defense Travel System, Travel Charge Card) to perform a wide variety of travel assignments and resolve conflicts and problems. Knowledge of transportation entitlements and documentation requirements for foreign and domestic relocation travel for DoD military/civilian personnel and their dependents in accordance with the JTR and DOD Financial Management Regulations (FMR). Responsibilities include determining and advising on entitlements or procedures related to house hunting trips, temporary quarters, reimbursement of expenses, baggage allowances, stops enroute, non-temporary storage of goods, and shipment of unaccompanied baggage, privately owned vehicles, and household goods; preparing cost estimates and related documentation. Conveys information in a clear, concise, organized, and detailed manner appropriate for all levels of the organization. Demonstrates problem solving abilities to quickly assist travelers and approving officials with unique or complex travel issues, often in emergent and/or time-sensitive situations. Gathers and analyses financial or travel specific data in response to data calls or reporting requirements.
