<tbody>
<tr>
<td>22-6020</td>
<td>Integrated Logistics Support Manager or Officer Software Support</td>
<td>22-6020, Length 1 Year with opportunity to extend. 1. Knowledge of Integrated Logistics/Product Support (ILPS/PS) concepts, principles, policies, and acquisition/contract regulations and their application to a variety of unique and complex systems. 2. Understanding of ILPS elements as they relate to systems engineering and life cycle management across related disciplines such as systems engineering and designing, reliability, availability, maintainability, production, test &amp; evaluation, cybersecurity, quality assurance, operational deployment, demilitarization, and disposal. 3. Knowledge of software support requirements and processes, as well as IT products and support. Understand Configuration Management for software. 4. Ability to determine impacts to Engineering Change Proposals (ECPs) and provide detailed analysis (provisioning, tech pubs, and training) 5. Follow through the verification that provision and integration of changes was completed by the contractor. Incumbent will be responsible to ensure that system specifications, and operational plans are on site. The position is responsible for performing and coordinating conventional and unconventional inspections at different construction sites throughout the Kingdom of Saudi Arabia. Manages and monitors equipment, staffing, workmanship, safety practices, and analyzes a variety of unusual conditions, problems, or questions.</td>
</tr>
<tr>
<td>22-6139</td>
<td>Engineer NCO</td>
<td>22-6139, Length 420 Days: Assists the Engineer and Deputy Engineers in daily activities to include oversight of projects. The Engineer NCO will ensure safety regulations, as well as all Standard Operating Procedures are followed. Reviews, provides comments and approves contractor's reports. Assists the Project Manager when the plan is acceptable and work can start on site. The position is responsible for performing and coordinating conventional and unconventional inspections at different construction sites throughout the Kingdom of Saudi Arabia. Manages and monitors equipment, staffing, workmanship, safety practices, and analyzes a variety of unusual conditions, problems, or questions.</td>
</tr>
<tr>
<td>22-6140</td>
<td>Deputy Engineer</td>
<td>22-6140, Length 420 Days: Works under the general direction of the G4 Division Chief and directly under the Senior EC section lead engineer, through whom broad assignments are made and delegated authority received. Assists with establishing, updating, and maintaining the procedures for employee safety and proper work methods. Incumbent is expected to work effectively in a team environment and independently. The position is responsible for maintaining safety regulations and implementing changes. **</td>
</tr>
</tbody>
</table>
22-6263 Tactical Aircraft Maintenance Journeyman/Craftsman
22-6263, Length 180 days with opportunity to extend. Supports depot-level maintenance/repair/overhaul of F-16 aircraft. Seeking initial tour lengths of 180+ days, but will consider shorter tours on a case by case basis. Subsequent tour extensions considered up to 3 years total, as mission requirements and funding permit. Member will be required to perform duty on-site, in-person. **Qualifications:** Must hold current 2A3X3 duty AFSC. F-16 experience preferred, but not required. Will consider seasonal tours 2 level (22A3X3) preferred, but not required. Will consider seasonal tours for part-time employment.

22-6264 Fighter Integrated Avionics or Aircraft Electrical/Environmental Journeyman/Craftsman
22-6264, Length 180 days with opportunity to extend. Supports depot-level maintenance/repair/overhaul of A-10 aircraft. Seeking initial tour lengths of 180+ days, but will consider shorter tours on a case by case basis. Subsequent tour extensions considered up to 3 years total, as mission requirements and funding permit. Member will be required to perform duty on-site, in-person. **Qualifications:** Must hold current 2A3X4 or 2A6X4 duty AFSC. A-10 experience preferred, but not required. Will consider seasonal tours 2 level (22A3X4 or 22A6X4) preferred, but not required. Will consider seasonal tours for part-time employment.

22-6308 Quality Control Representative
22-6308, Length 420 Days: Assists the Engineer and Deputy Engineers in daily activities to include oversight of projects. The Quality Control Representative provides service, quality control, and works closely with the program management team to ensure quality standards are met. The Quality Control Representative provides service, quality control, and works closely with the program management team to ensure quality standards are met. The Quality Control Representative provides service, quality control, and works closely with the program management team to ensure quality standards are met. The Quality Control Representative provides service, quality control, and works closely with the program management team to ensure quality standards are met.

22-6309 Director of the Case and Contracting Liaison Division
22-6309, Length 420 Days: Serves as the lead advisor to the Office of Program Manager Saudi Arabian National Guard (OPM-SANG) on matters relating to contracts. Advised the Program Manager on matters relating to contracting. Monitors the expenditure of funds and recommends fiscal priorities in support of MNG's efforts. Members of OPM-SANG are provided a vehicle, fuel card, cell phone and residential resort living quarters. Saudi Arabia is currently recognized as a combat zone and qualifies for combat zone tax exclusion, hostile fire pay, imminent danger pay and COLA. OPM-SANG is the original and premier security assistance organization across the Department of Defense.

Cloud DevOps Engineer ** WILL TRAIN / TELEWORK AUTHORIZED**

23-6247, Length 1 Year: The Cloud DevOps Engineer will play a critical role in managing the continuous integration, delivery, deployment and applications and infrastructure on Amazon Web Services (AWS). Responsibilities will include managing the DevOps pipeline tools, such as Jira, Confluence, GitLab, and Artifactory, to ensure smooth and efficient delivery of code to the cloud. Incumbents will work closely with development and infrastructure teams to create a seamless environment. To excel in this role, incumbents must have a deep understanding of the AWS environment and be able to automate processes to reduce deployment time and increase efficiency. Incumbents should be adept at troubleshooting and problem-solving and possess excellent communication skills to collaborate with cross-functional teams. Qualifications: Civilian experience will be considered for position eligibility. DoD 8570/8140 Certifications required: At least IAT level II (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, CAN, SSDP, CASP+, CASP+ CE, CCSP, Security+ CE, CISSP (or Associate), GCED, GCCS, CSSP) has context menu.

Cloud Architectures (Orchestrator)** WILL TRAIN / TELEWORK**

23-6248, Length 1 Year: The Cloud Solutions Architect is responsible for designing and deploying Amazon Web Services (AWS) based applications and infrastructure to create an infrastructure as code environment using cloud formation templates and other similar technologies. Incumbents must have a deep understanding of AWS services, be able to work with the Engineering, Infrastructure, and other stakeholders to understand the business needs, and design solutions that meet those needs. Responsibilities include ensuring high availability and performance of the infrastructure, troubleshooting issues, and proactively identifying opportunities to optimize the environment for efficiency and cost-effectiveness. To excel in this role, incumbents must have a deep understanding of AWS services and be able to effectively manage and monitor them to ensure optimal performance and availability. Incumbents should have strong problem-solving skills and be able to work independently as well as in a team environment. Excellent communication skills are essential for collaborating with cross-functional teams. Qualifications: Civilian experience will be considered for position eligibility. DoD 8570/8140 Certifications required: At least IAT level II (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, CAN, SSDP, CASP+, CASP+ CE, CCSP, Security+ CE, CISSP, GCED, GCCS, CSSP) has context menu.

23-6250 Lead Operations & Support NCO **WILL TRAIN/SITUATIONAL TELEWORK AUTHORIZED**

23-6250, Length 1 year: The Lead Operations and Support positions for all military on ADOS/MAPA personnel at the National Background Investigation Service (NBIS) will be responsible for coordinating operations and marshalling technical resources during major incidents and outages. Incumbents will ensure that Senior Duty NCOs resolve all incidents quickly and efficiently, with minimal impact on the network or business operations. In this role, incumbents will be responsible for coordinating the efforts of the ADOS/MAPA personnel and other teams to provide support outside of normal business hours in support of the Agency's mission as required. To be successful in this role, incumbents must have strong communication and leadership skills, as well as the ability to manage multiple priorities in a fast-paced, high-pressure environment. Incumbents should have a solid understanding of IT operations, incident management, and technical troubleshooting. Experience in coordinating technical resources during major incidents and outages is highly desirable. Qualifications: DoD 8570/8140 Certifications required: Minimum IAT level II+ (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, NDN, SSACP+ CE, CEH, CompTIA Security+ or Associate), GCED, GCC, CISSP has context menu.

If you are interested in a position, click on the link on the position or email your resume and bio with the position you are interested in.

23-6251 Senior Duty NCO**WILL TRAIN / TELEWORK AUTHORIZED**

23-6251, Length 1 year: The Senior Duty Officer (SDO) will be responsible for coordinating operations and marshalling technical resources during major incidents and outages. Incumbent's primary duty is to ensure that all incidents are resolved quickly and efficiently. With minimal impact on the network or business operations. The incumbent will manage and coordinate the efforts of the ADOS/MPA personnel involved in the resolution of incidents, providing regular updates on the status of incidents. The incumbent will also analyze incident data and trends to identify areas for improvement in the incident response process. In addition to regular duties, the incumbent will participate in call centers to support outside of normal business hours. This is a critical role in supporting the Agency’s mission and ensuring the smooth operation of its systems and services. Candidates must have experience in incident response, strong communication skills, and the ability to work independently and as a team. Qualifications: Civilian experience will be considered for position eligibility. DoD 8570/8140 Certifications required: At least IAT level II+ (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, NDN, SSACP+ CE, CompTIA Security+ or Associate), GCC, GCED, CISSP has context menu.

23-6252 Linux Cloud Administrator **WILL TRAIN TELEWORK AUTHORIZED**

23-6252, Length 1 year: The Linux Cloud Administrator will play a key role in managing and maintaining Linux servers and related infrastructure in the Amazon Web Services (AWS) Cloud Environment. Incumbent will be responsible for developing and maintaining high availability, scalable, and secure cloud infrastructure and applications. Incumbent will maintain and implement backup and disaster recovery plans, troubleshoot and resolve system and application issues, and collaborate with other teams to ensure seamless integration and communication with other systems. Additionally, incumbents will automate repetitive tasks using scripting and configuration management tools to increase efficiency and scalability. To excel in this role, incumbents must have a solid understanding of Linux operating systems, cloud computing, and related technologies. Incumbents should have experience working with AWS services and be able to effectively manage and monitor them to ensure optimal performance and availability. Strong problem-solving skills and the ability to work independently and as a team environment are essential. Qualifications: Civilian experience will be considered for position eligibility. DoD 8570/8140 Certifications required: At least IAT level II+ (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, NDN, SSACP+ CE, CompTIA Security+ CE, CompTIA Security+ or Associate), GCC, GCED, CISSP (or Associate), GCC, GCED, CISSP has context menu.

23-6254 Security Incident Manager**WILL TRAIN/TELEWORK***

23-6254, Length 1 year: The Security Incident Manager’s primary responsibility will be to ensure the security of our systems and data by managing and monitoring security incidents. The incumbent will work closely with other teams to coordinate incident response and conduct investigations to identify the root cause of incidents and prevent future occurrences. In addition, the incumbent will work closely with the SOC and SIEM teams to implement security measures and ensure our security systems are functioning effectively. Attention to detail, problem-solving skills, and ability to work in a fast-paced environment will be critical to success in this role. Candidates with experience in incident response, a strong understanding of security best practices, and a commitment to continuous improvement, are encouraged to apply. This is an opportunity to play a critical role in protecting our organization and ensuring the security of our systems and data. Qualifications: Civilian experience will be considered for position eligibility. DoD 8570/8140 Certifications required: At least IAT level II+ (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, NDN, SSACP+ CE, CompTIA Security+ or Associate), GCC, GCED, CISSP has context menu.

If you are interested in a position, click on the link on the position or email your resume and bio with the position you are interested in.

23-6255 System Support Analyst**WILL TRAIN/TELEWORK AUTHORIZED**

23-6255, Length 1 year: The System Support Analyst will play a critical role in ensuring the smooth operation of our systems and services. The incumbent will monitor system alerts and dashboards, triage incoming support tickets, and use your knowledge of our systems to route issues and problems to the correct team. The incumbent will also monitor ticket trends to identify late-breaking incidents and problems, and assist the Senior Duty Officer with reporting and information gathering. In addition, the incumbent will continuously improve the system support process to increase user satisfaction and internal efficiency. Candidates with experience in system administration, a strong attention to detail, and a willingness to work in a fast-paced environment, are encouraged to apply. This is an opportunity to make a significant impact on our organization and help us deliver high-quality services to our users. Qualifications: Civilian experience will be considered for position eligibility. DoD 8570/8140 Certifications required: At least IAT level II+ (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, NDN, SSACP+ CE, CompTIA Security+ CE, CompTIA Security+ or Associate), GCC, GCED, CISSP has context menu.

23-6259 Special Security Representative (SSR)

23-6259, Length 1 year: SSRs are responsible for the day-to-day management and implementation of the Sensitive Compartmented Information (SCI) security program for all NSWCND SCI facilities. Maintain applicable SCI directives, regulations, manuals, and guidelines to adequately discharge SSR duties and responsibilities. Serve as the official account for, control, transmit, transport, package, and safeguard SCI. Destruction of SCI by authorized means; disseminate SCI only to persons authorized access and establish needed to know. Serve as the official channel for certifying and receiving SCI visitor clearances and access. Provide support to maintain and implement backup and disaster recovery plans, troubleshoot and resolve system and application issues, and collaborate with other teams to ensure seamless integration and communication with other systems. Additionally, incumbents will automate repetitive tasks using scripting and configuration management tools to increase efficiency and scalability. To excel in this role, incumbents must have a solid understanding of Linux operating systems, cloud computing, and related technologies. Incumbents should have experience working with AWS services and be able to effectively manage and monitor them to ensure optimal performance and availability. Strong problem-solving skills and the ability to work independently and as a team environment are essential. Qualifications: Civilian experience will be considered for position eligibility. DoD 8570/8140 Certifications required: At least IAT level II+ (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, NDN, SSACP+ CE, CompTIA Security+ CE, CompTIA Security+ or Associate), GCC, GCED, CISSP has context menu.

If you are interested in a position, click on the link on the position or email your resume and bio with the position you are interested in.

23-6261 INFOSEC System Administrator

23-6261, Length 1 year: Information Technology duties on various platforms that consist of daily operations, to include, but not limited to: Responsible for SCI secure spaces Information Technology, scripting, data calls, fiber connectivity, maintenance of hardware, account management, VTC support, and new SCI build. Interpreting and implementing DoD/DOD SCI regulations regarding any and all IT systems. Will ensure SCI and Security compliant throughout the construction, usage and end of life. Responsible for fiber and IT inventory that includes managing repairs and technical refresh and/or replacement of temporary or permanent IT equipment and media. Serves as the liaison between various network owners/administrators (ONI, NMC, NIP/SP, ROTA and) Code 10 as needed for all IT matters with the SCI/SCIF. -Assisting with troubleshooting IT systems and peripherals as needed. -Apply Cybersecurity principles, policies, and procedures to ensure information systems are secure and reliable in accordance with the DoD and DON Cyber Security policies. -Provide advice and consultation to management and help solve issues. -Serve on various committees and task forces that pertain to the Certification and Accreditation for IT systems. -Consults with users and translates requirements into system requirements. Qualifications: Technical knowledge/experience with IT peripherals in a Microsoft Windows enterprise environment, such as printers/scanners. Technical knowledge/experience with IT networking equipment (i.e., routers, switches, ethernet cabling, etc.) Technical knowledge/experience deploying and maintaining IT Data Center and user facing equipment. Must currently hold TS/SCI Level Clearance. Must be able to kneel, bend, and maneuver under desks, climb ladder and pull wires.

If you are interested in a position, click on the link on the position or email your resume and bio with the position you are interested in.

23-6263 Multi Media Illustrator

23-6263, Length 1 year: The 2SM Multimedia Illustrator岗 is to aid in the production of graphic artwork and products to use in CACD Strategic Communications, publications, interactive computer-generated visual display products and visual productions. This 2SM will provide support to the CACD Graphic Illustrator and SharePoint Team Lead as they build an interactive spider diagram-type product that shows the interconnectivity of stakeholders and mission from CACD Artisan to Big Army. Qualifications: MOSQ 2SM

If you are interested in a position, click on the link on the position or email your resume and bio with the position you are interested in.

23-6265 Network Infrastructure Engineer

23-6265, Length 1 year: Serves as the Current Operations and Network Infrastructure Engineer for the DSHA Central Field Command - maintains situational awareness over all DSHA enterprise capabilities and services within the Central Region (CR), AOR. Serves as the lead Action Officer for all C2 systems issues. Integrates new DISN and enterprise systems and capabilities within the AOR. The incumbent will manage and coordinate the efforts of the ADOS/MPA personnel involved in the resolution of incidents, providing regular updates on the status of incidents. The incumbent will also analyze incident data and trends to identify areas for improvement in the incident response process. In addition to regular duties, the incumbent will participate in call centers to support outside of normal business hours. This is a critical role in supporting the Agency’s mission and ensuring the smooth operation of its systems and services. Candidates with experience in incident response, strong communication skills, and the ability to work independently and as a team. Qualifications: Civilian experience will be considered for position eligibility. DoD 8570/8140 Certifications required: At least IAT level II+ (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, NDN, SSACP+ CE, CompTIA Security+ or Associate), GCC, GCED, CISSP has context menu.

Deputy Director CECOM G1

23-6266, Length 1 Year: Provides expert advice and guidance on human resource programs for both military and civilians. Provides human capital and strategic projects and programs requiring extensive analysis and interpretation for many different programs, processes, and methods, such as advice on revisions to existing policies and programs to meet regulatory requirements. The incumbent is committed to designing, developing, and implementing these models and tools as part of the job, which will attract, develop, and retain employees. Maintains close liaison with representatives of the Army Materiel Command, and other Federal Agencies to obtain or provide information on high priority personnel projects and to ensure consideration of Agency programs, policies, and recommendations. Implements actions necessary to effect management decisions including early retirement authorities, separation incentive authority, recruitmentireccion policies, and manufacturing strategies to fill vacant positions. Advice and guidance cover the full spectrum of human resource activities and programs.

23-6267, Length 2 Years: Serves as a Project Engineer, with responsibility of ensuring that all repair projects are afforded proper priority, that necessary information and resources are available, and that commitments are met. Plans and executes repairs and alterations to navigation locks and dams and flood control structures. Due to the age and uniqueness of these structures, problems are encountered which require changes to the existing principles and techniques; these changes necessitate using original and some-times novel engineering and construction applications. The incumbent submits design sketches to the Chief, Maintenance Section or Project Manager for discussion and approval. Instructs the field crews in preparation and completion of O&M repair jobs. Makes field inspections to determine condition of equipment, such as: lock gates, valves, tainter gates, bulkheads, cranes, hydraulic cylinders, related equipment. The incumbent notes conditions and obtains data for planning/scheduling future repairs using it to provide guidance and assistance to field supervisors about difficult, unusual, unprecedented or special problems. The incumbent has sole responsibility for preparation and maintenance of current file for each assigned project. File contains the following data: cost estimates, job orders, job hazard analysis, daily logs, requisitions, contracts, planning requirements/As-built drawings, completion report, final cost, and other relevant information. Based on technical knowledge, as well as input from various inspections, provides assistance in the preparation of maintenance packages for annual O&M budget submissions. Prepares technical plans and specifications for supply contracts.

23-6276, Length 1 Year: Project Engineer

23-6280, Length 1 Year: Highly motivated and articulate leader. Problem solver skills required. Develop software that would support the F-16 and Joint Simulation Environment. Object Oriented software development activities Modeling and Simulation of real-world aircraft, weapon systems, satellites, radios, messages, etc. Software testing using automated test technology Pipeline development and deployment for Continuous Integration/Continuous Delivery. Understanding legacy code bases and updating to modern software development practices Agile Software development techniques to include daily stand-up, sprint planning, development of minimum viable products and continuous improvement.

Qualifications: Professional Skill Level: • Mandatory: Computer Science Degree; Computer Engineering Degree; Electrical Engineering Degree; other engineering degree with experience in Software development • Desired: Competency in C++; programming; Competency in C programming; competency in other modern programming language • Security Clearance Required: Secret

23-6281, Length 1 Year: Project Manager

23-6282, Length 1 Year: DAR(DARQ) Financial Analyst

23-6283, Length 1 Year: Provides expert advice and guidance on human resource programs for both military and civilians. Provides human capital and strategic projects and programs requiring extensive analysis and interpretation for many different programs, processes, and methods, such as advice on revisions to existing policies and programs to meet regulatory requirements. The incumbent is committed to designing, developing, and implementing these models and tools as part of the job, which will attract, develop, and retain employees. Maintains close liaison with representatives of the Army Materiel Command, and other Federal Agencies to obtain or provide information on high priority personnel projects and to ensure consideration of Agency programs, policies, and recommendations. Implements actions necessary to effect management decisions including early retirement authorities, separation incentive authority, recruitmentexion policies, and manufacturing strategies to fill vacant positions. Advice and guidance cover the full spectrum of human resource activities and programs.

Qualifications: Professional Skill Level: • Mandatory: Level II certification is PM • Desired: Data Science/Analysis, Operations Research; MBA or Systems Management experience; JPME Level I; Project Management Professional (PMP) certification • Security Clearance Required: Secret

23-6284, Length 1 Year: Cyber Systems Administrator

23-6285, Length 1 Year: Service as an Alternate Communications Security (COMSEC) Account Manager. Manage and maintain proper accountability, handling, storage, packaging, shipment, all incoming/outgoing transfers, signed receipts, hand receipts and administration of COMSEC equipment and materials. Maintain the Key Management Infrastructure (KMI) Management Client (MGC) computer system and the Advanced Key Processor (AKP), which includes generation, issuance, and destruction, of electronic key. Qualifications: The position is open to service members who have the minimum background and training necessary to meet the position needs: A DoD, Federal Government certification, formal education, or practical experience in COMSEC account operations. Must have, or be able to complete, KMI Operating Account Manager (KOM) Course of Instruction (COI), CINSA A-100. Top Secret/SI Security Clearance eligibility required. Qualifications: The position is open to service members who have the minimum background and training necessary to meet the position needs. A DoD, Federal Government certification, formal education, or practical experience in COMSEC account operations. Must have, or be able to complete, KMI Operating Account Manager (KOM) Course of Instruction (COI), CINSA A-120. Top Secret/SI Security Clearance eligibility required.
23-6285  Cyber Operations

23-6285, Length 1 Year: This position will work with a team of cybersecurity specialist supporting cyber operations for Naval Undersea Warfare Center, Keyport. Cyber Operations involves the monitoring and reporting of compliance across all corporate network enclaves. The Cyber Operations team leverages indicators, tactics, techniques, and procedures (TTPs), security alerts, threat intelligence, and tool configurations to collect, access, and report potential threats. Identified threats generate corrective action plans, for action. Specific tasks include: - Operation and configuration of compliance monitoring tools - SIEM tools - Data standards - Execution of routine compliance checks following approved guidance - Data collection analysis and reporting - Vulnerability reports - JAVAS/JVAB compliance - Managing Operational Orders (SOPs) - Task Orders (TASKORDs), corrective or mitigation tasks to applicable IOTD or department IT teams - Tracking remediation to completion and cross-associating current and past compliance to avoid resource non-compliance. Discovery, classification, and prioritization of corrective action and mitigation actions are executed to complete non-compliant (IoT) devices. The incumbent serves as the primary Cyber IT/Cyberspace Warfare position in specialty area (411/531) and as an equal opportunity position, the incumbent is also responsible for conducting the DON Cyber IT/CsWF Program requirements of SECNAV M-5239.2, which include: 1. Earn and maintain appropriate certifications from the Cyber IT/CsWF Qualification Matrix (described in SECNAV M-5239.2) associated with the specialty area and level commensurate with the scope of major assigned duties for the position to which you are assigned. 2. Participate in a continuous learning program as described in SECNAVINST 1543.2. A minimum of 40 hours per year of Cyber IT/CsWF related continuous learning annually documented in a current individual development plan signed by both the employee and supervisor. *This position performs a primary cyber work role of 621 per the DoD Cyber Workforce Framework. Qualifications: Must possess at least a secret clearance with a favorable TS investigation.

23-6287  Physical Therapist

23-6287, Length 420 days: Office of the Program Manager Saudi Arabian National Guard (OPM-SANG) develops capability in the Saudi Arabian National Guard to initiate, sustain and operate modern military organizations and systems. Plans, directs and administers programs and services relating to physical therapy; these programs promote all aspects of physical fitness and injury prevention in support of OPM-SANG’s Security Assistance mission. Educates, consults and develops physical therapy, injury prevention and health and fitness. Secondary mission is to assist the Ministry of National Guard (MNG) on the development of their Directorate of Health Affairs clinical physical therapy program. Members of OPM-SANG are provided a vehicle, fuel card, cell phone and residential resort living quarters. Saudi Arabia is currently recognized as a combat zone and qualifies for combat zone tax exclusion, hostile fire pay, imminent danger pay and COLA. OPM-SANG is the original and premier security assistance organization across the Department of Defense. **To be considered please add the following:** ARB/ORB IMR Military Bio Last 3 ORES SCC DA Form 1059 DA Form 705 DA Form 5500/5501 (if required) DD Form 3349 (if applicable) DA Form 5016 or NGB23 DA Form 1506 Security Clearance verification memo.

23-6288  Contracting Officer/NCO

23-6288, Length 2 Years: Contracting Officer/Specialist to support Civil-Work mission across the USAEC Seattle District including supplemental projects to the Infrastructure Supplementary projects and Disaster Relief Act Mission. Responsible for pre and post award contracting actions below and above the simplified acquisition threshold. Potential to work with FEMA support contracts involving homeland security presidential directive and ESF3. Mission includes supplies, services, construction, and AE contracts. Applicant must interview and be selected by the Deputy District Commander. USAEC experience a plus.

23-6289  Project Manager

23-6289, Length 2 Years: Serves as a Project Manager for NWS with responsibility for managing and directing the efficient and effective accomplishment of investigations, planning, scope development, design, and construction of assigned projects in various program areas through a matrix management process. Projects managed are complicated by responsibility for projects in different locations or under the control of different managers; multiple-party interest; or compliance with numerous statutory, regulatory and procedural restrictions and jurisdictions. Identifies, coordinates, and integrates sponsor/customer requirements into a comprehensive management plan that is fully coordinated with all contributing agencies and organizations including various functional elements with in Seattle District. Controls and manages assigned project budgets and schedules ensuring that District commitments to the sponsor/customer are met and serves as the point of contact for sponsor/customers and other external agencies for assigned projects. Responsible for the overall management, coordination, schedule, and execution of assigned projects. As the project team leader, implements corporate decisions, guidance laws, regulations, and policy in the development of the intermediate and products in support of the project. Negotiates and integrates all District functions (i.e., planning, design, cost engineering, construction, real estate, contracting, etc.), sponsor/customer needs and other agencies’ commitments in support of assigned projects. Qualifications: Army Engineer Officer - USAEC experience a plus Electrical, Mechanical, or Civil Engineer preferred. degree required Skill identifiers W3, W4, W5, or W6 preferred.

23-6303  Admin NCO

23-6303, Length 1 Year: Applicants must have less than 14 Years of Active Federal Service and meet military height and weight standards to apply. Applicants must submit the following documents in their application to be considered. Official Military Photo, Last three Military Evaluations, Physical Fitness Test, and Military Biography. Secret Clearance Required.

23-6314  Budget Analyst

23-6314, Length 365 days: Budget Analyst will perform analytical, technical and administrative support related to MPE budgetary processes. The Budget Analyst will manage and update the cost model using data provided by stakeholders and the MPE team. Incumbent will prepare reports and analyze data as needed in support of monitoring and tracking cost burn down rates. The Budget Analyst will work with the Finance team to track and prepare monthly billing for new MPE customers. They will review processes and propose alternatives and guidance. They will work with MPE and customers throughout the year to determine whether changes to funding levels are needed. The Budget Analyst will also have experience in budget and financial analysis, requirements gathering, excel and pivot tables, documentation, and stakeholder engagement. Qualifications: Optional but desired - a nationally or federally/DoD recognized certification in Business Analysis (e.x. Professional in Business Analysis (PMBI-PBA) or a cert from the International Institute of Business Analysis (IIAB) such as the Certified Business Analysis Professional (CBAP), Agile Analysis Certification (IIA-AC), or Product Ownership Analysis Certification (IIA-CPOA). DAU courses in Business Analysis.)

23-6315  Business Analyst

23-6315, Length 1 Year: Business Analyst will ensure that programs and projects are successfully delivered. The Business Analyst will be responsible for gathering and analyzing business requirements, working closely with stakeholders to identify priorities and needs, and MPE staff. By providing detailed requirements and analysis, they will help to ensure that projects stay on track and that risks are identified and mitigated. The Business Analyst will be responsible for identifying and determining high-quality solutions that meet the needs of stakeholders and users alike. The business analyst will be expected to have experience in business analyst, requirements gathering, Jira tracking and updating, documentation, and stakeholder engagement. Qualifications: Optional but desired - a nationally or federally/DoD recognized certification in Business Analysis (e.x. Institute of Certified Analysis (ICA), Certified Financial Analyst (CFA), ICA Certified Financial Analyst (CFA), IFCA Certified Financial Analyst (CFA), Project Management Professional (PMI PMP), or courses under the Cost Estimating Practitioner or Cost Estimating Advanced tracks.

23-6316  Cloud Machine Learning Engineer

23-6316, Length 1 Year: A Cloud Machine Learning Engineer designs and deploys machine learning models on AWS. Incumbent’s role involves understanding customer needs, utilizing machine learning algorithms and frameworks, selecting appropriate AWS services, and ensuring the scalability, reliability, and security of machine learning solutions. Staying updated with the latest advancements in machine learning is important in this role. Qualifications: *Civilian experience will be considered for position eligibility. DoD 8570/8140 Certifications required: At least IAT level II+ (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, CND, SSCP, CASP+ CE, CCNP Security, CISSP or Associate), GCED, GCIA, CHS, and CCSP has context menu.

23-6317  Cloud Security Engineer

23-6317, Length 1 Year: A Cloud Security Engineer is responsible for implementing and maintaining security measures to protect an organization's data, applications, and infrastructure in the cloud. The incumbent must possess a strong understanding of security principles and work with various AWS security services to ensure the security of the AWS environment. Duties include designing and implementing security measures, conducting security assessments, developing security policies, and monitoring and responding to security incidents. Qualifications: Civilian experience will be considered for position eligibility. DoD 8570/8140 Certifications required: At least IAM level II+ (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, CND, SSCP, CASP+ CE, CCNP Security, CISSP or Associate), GCED, GCIA, CHS, and CCSP has context menu.

23-6319  Cyber Operations

23-6319, Length 1 Year: A Cyber Security Watch Officer (CSWO) protects information systems (IS) networks and network equipment (NE) from cybersecurity threats. Acting on behalf of the System Owner, the Defense Counterintelligence and Security Agency (DCSA) Cloud Enterprise ISM, and the DCSA Cloud Enterprise Security Operations Center (SOC) lead, you assist with incident response, track SOC investigations, escalate issues for review, and improve detection and alerting changes, and improve SOA, TTP, guidelines, and policies. Incumbents also oversee SOC operations, ensuring effective cybersecurity monitoring and response. Qualifications: *Civilian experience will be considered for position eligibility. DoD 8570/8140 Certifications required: At least IAM level II+ (CAP, CASP+ CE, CISSP or Associate), GSLC, CGSS, HCISP.
23-6320 Project Manager
Project Manager: 23-6320, Length 1 Year: Project Manager will help the project team manage projects and track deliverables. Will support planning meetings, administrative and project activities. The Project Manager will manage and report on risks and update stakeholders and the MPE team on status. They will prepare reports and analyze data. The Project Manager will track and update schedules for new MPE customers. They will review processes and provide recommendations. They will oversee project coordinators responsible for scope, cost and control of multiple projects. The Project Manager will be expected to create spreadsheets and understand schedule and tracking processes. Qualifications: (Required) - a nationally or federally/DOD recognized certification in project management (e.g. Project Management Institute (PMI) Project Management Professional (PMP), PMI Agile Certified Practitioner (ACP), graduate certificate in project management, DAU courses in Project Management) [Click HERE to apply]

23-6323 Nellis MILCON Install Support
Nellis MILCON Install Support: 23-6323, Length 61 days: Positions will support the installation of telecommunication hardware and infrastructure at assigned locations (Nellis AFB). [Click HERE to apply]

23-6325 IT Security Operator
IT Security Operator: 23-6325, Length 1 Year: The individual will perform roles/responsibilities as defined in IAW AFI 17-101 and AFI 17-130. Mastery of and skill in applying IT operations related to security of systems, e.g., access control, security audits and configuration management. Design and implement security controls to ensure Federal Government systems are adequately protected, security continuity, security policy compliance, and system and information integrity. Individual will also perform roles as ISSO, Security Manager, and Top Secret Control Officer. Qualifications: TS/SCI Required. Security+ certification Risk Management Framework experience. Information Systems Security Officer or Manager (ISSM/ISSM) experience would be helpful. [Click HERE to apply]

23-6326 Military Police Officer
Military Police Officer: 23-6326, Length 1 year: Military Police - Tobyhanna Army Depot, in Northeastern Pennsylvania, seeks military police. Duties include: Will be assigned law enforcement/Security duties to uphold Federal Laws and Regulations, maintain good order and discipline, and support the installation commander’s law enforcement and security requirements. Typical duties include foot and motorized patrol and control of pedestrian and vehicular traffic and conducting random anti-terrorism measures (RAM) in accordance with local regulations and policies. Qualifications: 31B MOS. [Click HERE to apply]

23-6329 Environmental Science/Environmental Engineer/Engineering Tech
Environmental Science/Environmental Engineer/Engineering Tech: 23-6329, Length 2 Years: Environmental support specialist for the Soo Project Office. Consultant for environmental compliance, implementation, inspection, auditing, monitoring, and reporting responsibilities, including regulatory compliance to Federal, State, and local requirements. Support project safety program specific to environmental compliance and Hazard and Toxic Waste concerns, Customer Service customers. Expected to participate in the review of plans and specifications for environmental aspects of contracts and provides recommendations. Develops environmental implementation processes, policy and guidance. Develops corrective action plans for non-compliance issues. Qualifications: Army Engineer Officer - USACE experience a plus. Preferred MOS include 72D. [Click HERE to apply]

23-6330 Engineering Technician - Survey
Engineering Technician - Survey: 23-6330, Length 2 Years: Performs or reviews all required calculations, reductions, analyses, and processing of bathymetric survey data to complete a variety of cartographic products using CAD, Mapinfo, or other 3D data processing software suites. Typical tasks are listed here: dredging volume calculations; disposal area volume capacity calculations; seafloor contour maps; before and after dredge completion surveys; statistical shal rate analyses; 2-D and 3-D sub-surface model diagrams; and manipulations of digital engineering data, maps, and remote sensing imagery within a Geographic Information System (GIS). Plans and coordinates the activities of the survey field crews engaged in providing survey and other geospatial data, in support of design, construction, and operation and maintenance surveys in support of navigation locks and dams, disposal facilities, and facility construction. Responsible for planning, directing, coordinating, supervising, and review activities of the field survey crews and survey equipment in accomplishing survey operations which include reconnaissance, preliminary, construction, control and topographic surveys for civil projects in the project office jurisdiction. Works in the field to accomplish tasks when needed. All surveys are completed in an electronic environment using total stations, digital levels, and global positioning system (GPS) and Real Time Kinematic (RTK) equipment. Conducts mission planning, ground control establishment, pre-flight preparation and safety inspection, UAS operation as Remote Pilot in Command or Visual Observer, system monitoring during missions, post-flight inspections, and mission debriefing. Utilize appropriate photogrammetric mapping software to post process mission data, video, Light Detection and Ranging (LIDAR) point clouds, and imagery collected during UAS missions to develop surveying, mapping, and engineering products meeting customers requested specifications. Qualifications: Army Engineer Noncommissioned Officer, Warrant Officer, or Commissioned Officer. Preferred MOS include 12C, 12D, 12G, 12H, 12N, 12T, 12X, 12Z, 12O, 12D. Other MOS/CFA may be considered. Previous USACE experience highly advantageous. [Click HERE to apply]

23-6335 Big I 530/ISP Install Support
Big I 530/ISP Install Support: 23-6335, Length 55 days: Position is Install Support. Positions will support the installation of telecommunication hardware and infrastructure at assigned locations. [Click HERE to apply]

23-6337 Intelligence Analyst
Intelligence Analyst: 23-6337, Length 1 Year: Incumbent will produce weekly unclassified, secret, and top secret intelligence summaries to 4.4k software and acquisition personnel throughout the department of defense, assist security personnel in improving local area security culture through unclassified cyber security/intelligence briefings, and conduct routine current intelligence briefings to technical and non-technical staff. Incumbent will also assist in cyber defense operations by providing indicators of compromise to network defense analysts and conducting research on indicators of malicious identified on local, non-AFIn, software development networks. These efforts also include assisting full time staff in feeding manipulation data analysis and top exercises to identify potential network vulnerabilities and augment penetration tests with intelligence information. The incumbent will also assist in the development of the emerging USAF Software Directorate’s first software supply chain risk management strategy responsible for peer reviewing locally developed strategy aimed atOverhauling the Air Force Ingests commercial and open source software worldwide. Other duties, as assigned by the local area supervisor or the AFSC SIO are also likely. These may include, but are not limited to: local area threat briefs for major events (i.e., Air Shows), support for general officer/SES tasks, assisting in manpower, facilities, or system studies and requirements development. Qualifications: Active TS/SCI Required. Strong background in one of the following fields: information technology support (Tier II), software development, software assurance, systems engineering, offensive or defensive cyber operations, or supply chain risk management Current certifications are not required, but evidence of current or past certification is beneficial. [Click HERE to apply]

23-6338 Deployment Operations Force Provider
Deployment Operations Force Provider: 23-6338, Length 1 Year: Executes contingency manning support requirements to ensure DLA support for agencies customers worldwide. Is responsible for all operations as they relate to DLA Deployment Support Teams (DSTs) and Immediate Response Force Rapid Deployment Teams (IRF RDTs) civilian and military (active and reserve components) supporting CCMDs deployments as members of DSTs and (IRF RDTs), Customer Support Liaison Operations, Supply Management Council (SMC), Customer Assistance Specialist (CAS), and Emergency Essential (E-E) initiatives. Expert knowledge of DoD Travel systems and process travel authorizations and vouchers as necessary to execute various Defense Systems. Expert knowledge of the Defense Systems. Expert knowledge of the Defense Systems. Expert knowledge of DLA deployment processes and practices. Qualifications: Active TS/SCI Required. Strong background in one of the following fields: information technology support (Tier II), software development, software assurance, systems engineering, offensive or defensive cyber operations, or supply chain risk management Current certifications are not required, but evidence of current or past certification is beneficial. [Click HERE to apply]

23-6339 Project Engineer
Project Engineer: 23-6339, Length 730 Days: Valley Resident Office. The position this request would be filling is critical to the mission success of SPK. Without successful resourceing operational degradation may result, critically impacting the mission. Responsible for performing and directing teh full range of field engineering activities associated with construction operations. Plans, schedules, monitors, and controls the full range of construction operations. Compiles data and prepares a variety of correspondence and reports relating to project including status of construction, letters to contractors concerning safety matters, or to resolve difference of opinion over plans and specifications. Qualifications: Firm knowledge of Defense Travel System (DTS), DTS roles and responsibilities. Excellent writing and briefing skills. [Click HERE to apply]

23-6340 Project Engineer
Project Engineer: 23-6400, Length 730 Days: Folsom Resident Office. The position this request would be filling is critical to the mission success of SPK. Without successful resourceing operational degradation may result, critically impacting the mission. Responsible for performing and directing teh full range of field engineering activities associated with construction operations. Plans, schedules, monitors, and controls the full range of construction operations. Compiles data and prepares a variety of correspondence and reports relating to project including status of construction, letters to contractors concerning safety matters, or to resolve difference of opinion over plans and specifications. 24-6022 Project Manager
24-6022, Length 2 Years: Project Manager for San Francisco District. Each Project Manager will work under the Deputy District Engineer for Project Management, or her/his designee, in a 65-person Division within a 250-person District. Specific position duties include day to day project management of construction projects, operations and maintenance projects, and feasibility studies across the coastline of California and northern Nevada. These positions may also provide integration support across communities of practice and project teams to offer the existing workforce a force multiplier for communication. This is particularly important for our District now more than ever as a large majority of the staff work remotely up to 4 days each week and are only in the office once each week. This permanent hybrid workforce creates communication challenges and, as a result, project execution challenges that didn't exist prior to COVID. These positions may also require frequent public engagement and customer service with non-Federal sponsors and public officials. Also, additional duties could include the implementation of Army Engineer Manual EM 5-1-11 and general business quality procedures across the entire District. These positions are necessary due to the existing project management workforce being fully maxed out in terms of the work load for the District. Specific projects funded in FY2024 that will support our AOs Districts include the following: Crescent City Harbor (O&M funding), Redding (O&M funding), Redding (O&M funding), Redding (O&M funding), Sacramento River (O&M funding), San Francisco Bay Delta Model (O&M funding), San Joaquin River (O&M funding), Santa Cruz Harbor (O&M funding), South San Francisco Shoreline (Construction funding). Qualifications: Army Engineer Officer - USACE experience a plus & Project Management Professional Certified While it would be helpful if the USACE experience and knowledge of systems used, that isn't specifically necessary. In general, though, the candidates must have an excellent ability to communicate, both written and verbal, and they must be proficient with Microsoft products (including Word, Outlook, Teams, OneNote, and Excel).

24-6028 Military Construction Officer
24-6028, Length 1 year: Serves as a Technician or Leads the work of Technicians engaged in processing military pay entitlements, bonuses, leave, and other pay related actions for active duty and/or reservists. Typical duties may include reviewing pay authorization documents, determining entitlements, responding to pay inquiries, processing adjustment actions, and reviewing military pay actions. Qualifications: Candidates should be proactive, resourceful, and a fast learner. Candidates should have customer-focused interpersonal skills, computer skills, mathematical reasoning, data interpretation, problem-solving, teamwork, and communication. Knowledge of pay operations, practices, laws, and policies. Candidates should be proactive, resourceful, and a fast learner. Candidates should be customer-focused with competencies for arithmetic, flexibility, integrity/honesty, interpersonal skills, computer skills, mathematical reasoning, data interpretation, problem-solving, teamwork, and communication. Knowledge of pay operations, practices, laws, and policies.

24-6032 Information System Access Control Technician
24-6032, Length 1 Year: The Information System Access Control Technician safeguards critical information assets by controlling both privileged and non-privileged access to information systems. This position entails a specific set of skills and responsibilities, including managing access controls, conducting regular access reviews, and collaborating with project teams to ensure compliance with regulatory standards and best practices. Moreover, the technician will actively participate in the identification and resolution of access-related issues, contributing to the continuous improvement of access control mechanisms, and serve as a knowledgeable resource for educating colleagues on proper access management practices. Qualifications: *Civilian experience will be considered for position eligibility. DoD 8570/8140 Certification required: At least IAT level II+. The JIT Reviewer is responsible for triaging all daily requests for review and approval.
