Job Descriptions for Available Tours

22-6020 Integrated Logistics Support Manager - 51-series MOS preferred. Serves as the lead advisor to the Ministry of National Guard (MNG), Kingdom of Saudi Arabia on Foreign Military Sales (FMS) and acquisitions. Reports directly to the Program Manager for the Office of the Program Manager Saudi Arabian National Guard (OPM-SANG). Leads the integration, life cycle management, and execution of 59 Foreign Military Sales (FMS) systems for the Ministry of the National Guard (MNG). Responsible for contract development for a $248 ground and aviation program. Responsible for synchronizing contracting with FMS case development, execution and oversight.

22-6020, Length 1 Year with opportunity to extend. 1. Knowledge of Integrated Logistics/Product Support (ILS/IPS) concepts, principles, policies, and acquisition/contract regulations and their application to a variety of unique and complex systems. 2. Understanding IL/SPS elements as they relate to systems acquisition and life cycle management across related disciplines including engineering and designing, reliability, availability, maintainability, production, test & evaluation, cyber-security, quality assurance, operational deployment, demilitarization, and disposal. 3. Knowledge of software support requirements and processes, as well as if products and support. Understand Configuration Management for software. 4. Ability to determine logistics impacts to Engineering Change Proposals (ECPs) and provide detailed analysis (provisioning, tech pubs, and training). 5. Follow through on ECPs and validation that provisioning, tech pubs, and training reach the required configuration. 6. Ability to work across branches, divisions, and departments in the planning and execution of acquisition and sustainment logistics functions. 7. Work with the Life Cycle Logistics Competency Lead (LCL) in institutionalizing the logistics discipline and the professional growth of members of the logistics community. 8. Desired skills include: Knowledge of software intensive systems acquisition IAW the latest DoD Policy, knowledge of fields and technology training support, knowledge of IT procurement, DoD IUID Registry knowledge, and an understanding of Agile software development. 9. Ensure compliance with current NAVSEA and Naval Surface Warfare Center (NSWC) policies, initiatives and regulations. 10. The incumbent must have demonstrated the ability to meet diverse groups and secure their cooperation, confidence and interest. 11. Ability to maintain accurate records on status of all command logistics documentation for a variety of complex systems.

22-6139 Engineer NCO 22-6139, Length 420 Days: Assists the Engineer and Deputy Engineers in daily activities to include oversight of projects. The Engineer NCO will ensure safety regulations, as well as all Standard Operating Procedures are followed. Reviews, provides comments and approves contractor's current version of EM 385-1. Advises the Project Manager when the plan is acceptable and work can start on site. The position is responsible for performing and coordinating conventional and unconventional inspections at different construction sites throughout the Kingdom of Saudi Arabia. Manages and monitors equipment, staffing, workmanship, safety practices, and analyzes a variety of unusual conditions, problems, or questions.

22-6140 Deputy Engineer 22-6140, Length 420 Days: Works under the general direction of the G4 Division Chief and directly under the Senior EC section lead engineer, through whom broad assignments are made and delegated authority received. Assists in the preparation of contracts and specifications covering work to be accomplished by the contractor. Incumbent is expected to ensure that contract scope, contract drawings, shop drawings, specifications, codes, quality management and safety are followed throughout the life of the contract. Follows the day to day work to ensure the contractor is meeting his work schedule as approved. Incumbent is required to assume full responsibility for ensuring that all non-conforming work is properly identified through test reports or observations and that the contractor's Quality Assurance (QA) team is notified for corrective action. As a subject matter expert, works out problems largely on own initiative. Incumbent acts independently to perform quality assurance and safety functions, and keeps supervisor apprised on any controversial issues and/or policies of an unusual nature.

22-6151 Nondestructive Tester Technician 22-6151, Length: 180 Days: The 309th Aerospace Maintenance and Regeneration Group is located at Davis Monthan AFB, AZ. It provides a unique opportunity for exposure to a wide variety of Department of Defense aviation assets unlike any other in the world. Duties would include performing nondestructive testing techniques on those assets and their respective aerospace equipment. Required tasks include Eddy Current, Magnetic Particle, Liquid Penetrant, Ultrasonic, K-Ray, and JOAC/MCD analysis. Qualifications: Must be 2A727 qualified.

22-6210 Physical Security Specialist 22-6210, Length 1 Year: Naval Surface Warfare Center, Panama City Division, Physical Security Officer. Conducts initial and annual physical security surveys for compliance with Open Storage Areas/Secure Rooms/Restricted Areas (RA), per DoDI 5200.01, Volume 3, DoD Information Security Program. Coordinates with RA Custodians and Host Command Security to ensure the Facilities Department processes work orders for repair of Intrusion Detection Systems (IDS) and Automated Entry Control Systems (AECs). Assists in reviews of drawings and or plans for building remodels and new construction, ensuring physical security measures are in place. Conducts Physical Security training with RA and Security Container Custodians. Inspects security containers to ensure they are empty prior to surplus, ensures custodians are assigned to active security container, approves container moves and combination change requests, and tracks the locations of the containers. Manages the Command Key Control Program to ensure controlled keys are issued and accounted for. Reviews DOD FIP 2019. Financially invest the DoD Financial Management Policy, and DoDI 5101.12, Financial Management Procedures to reduce future costs. Performs other security duties as assigned. Work hours are generally Monday through Friday, and situational telework authorized dependent on mission requirements. Qualifications: The position is open to enlisted members from Air Force AFSC 3P0X1 or Army ASI H3 Physical Security Operations, with Physical Security/Resources Protection experience. Secret Security Clearance eligibility required.

22-6218 Information Systems Technician (25SA) 22-6218, Length - 2 Years with option to extend: Plans, directs, implements network systems health checks of multiple networks and programs within DISA. Serves as the lead consultant for all things related to networked programs and assigned to work on. Provides technical guidance to multiple programs technical staff. Provides written reports with recommendations for systems health checks. Provides and executes technical and operational changes within networks. Reviews all design documentation within networks and programs assigned for health checks. Coordinates across operation centers and programs for network modifications and changes. **Qualifications: Final TS/SCI clearance required. Expert knowledge in telecommunications. Must be able to work alone and within a team, in high stress environments. Must think outside of the norm and have excellent written and verbal communication skills.

22-6219 Information Protection Technician (25SA) 22-6219, Length - 2 Years with option to extend: Plans, directs, and implements Defensive CyberSpace Operations (DCO) countermeasures as part of a Network Health team for multiple networks and programs within the DISA. Serve as the DCO advisor with a firm understanding of vulnerabilities, exploitation techniques, and advisory methodologies. Review all assigned network and program design documentation. Create written reports with DCO recommendations and execute technical and operational changes within networks and programs. Coordinate all changes across operation centers and brief senior-level technical program staff. **Qualifications: Final TS/SCI clearance required. Must be DoD 8570 II certified and with IAM III recommended. Must have 4-year degree with basic operation, custom queries, analytic design, and implementation (SPLUNK preferred). Must be highly productive individually or within a team in a high stress environment. Must be a critical thinker and possess excellent written and verbal communication skills.

22-6308 Quality Control Representative 22-6308, Length 420 Days: Assists the Engineer and Deputy Engineers in daily activities to include oversight of projects. The Quality Control Representative will ensure safety regulations, as well as all Standard Operating Procedures are followed. Reviews, provides comments and approves contractor's current version of EM 385-1. The position is responsible for performing and coordinating conventional and unconventional inspections at multiple construction sites throughout the Kingdom of Saudi Arabia. Incumbent is to assume full responsibility for ensuring that all non-conforming work is properly identified through test reports or observations and ensure corrective action is taken. Manages and monitors equipment, staffing, workmanship, safety practices and analyzes a variety of unusual conditions, problems, or questions. Must have construction project management experience.

22-6309 Director of the Case and Contracting Liaison Division 22-6309, Length 420 Days: 51-series MOS preferred. Serves as the lead advisor to the Ministry of National Guard (MNG), Kingdom of Saudi Arabia on Foreign Military Sales (FMS) and acquisitions. Reports directly to the Program Manager for the Office of the Program Manager Saudi Arabian National Guard (OPM-SANG). Leads the integration, life cycle management, and execution of 59 Foreign Military Sales (FMS) systems valued at $2.6B. Responsible for cost schedules and performance of FMS cases and all system acquisitions. Supervises and leads a team of 10 DCO Civilians, 4 Officers, and 7 Local Nationals. Leads multiple Integrated Product Teams. Members of OPM-SANG are provided a vehicle, fuel card, cell phone and residential resort living quarters. Saudi Arabia is currently recognized as a combat zone and qualifies for combat zone tax exclusion, hostile fire pay, imminent danger pay and COLA. OPM-SANG is the original and premier security assistance organization across the Department of Defense.

22-6310 Operation Contracting Branch Chief 22-6310, Length 420 Days: 51C MOS Preferred. Office of the Program Manager Saudi Arabian National Guard (OPM-SANG) develops capability in the Saudi Arabian National Guard to initiate, sustain and operate modern military organizations and systems. This position is responsible for advising the Program Manager on costs, schedules, performance and the planning of operational contracting in support of Foreign Military Sales (FMS) systems for the Ministry of the National Guard (MNG). Responsible for contract development for a $248 ground and aviation program. Responsible for synchronizing contracting with FMS case development, execution and oversight. Advised the Program Manager on matters relating to contracting. Monitors the expenditure of funds and recommends fiscal priorities in support of MNG efforts. Members of OPM-SANG are provided a vehicle, fuel card, cell phone and residential resort living quarters. Incumbents will work closely with the Infrastructure team to create an infrastructure as code environment using cloud formation templates and other similar technologies. Responsibilities include ensuring high availability and performance of the infrastructure, troubleshooting issues, and proactively identifying opportunities to optimize the environment for efficiency and cost-effectiveness. Incumbents will also collaborate closely with development teams to support their needs and help them leverage AWS services effectively. To excel in this role, the incumbent must have a deep understanding of AWS services and be able to effectively manage and monitor them to ensure optimal performance and availability. Incumbents should have strong problem-solving skills and be able to work independently as well as in a team environment. Excellent communication skills are essential for collaborating with cross-functional teams.

Qualifications: Civilian experience will be considered for position eligibility: DoD 8570/8140 Certifications required: At least IAT level II+ (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, CND, SSCP, CASP+ CE, CCEP, Security+ CE, CCNP Security, CIA, CISSP (or Associate), GCED, GCHI, CCEP) has context menu.

23-6250 Lead Operations & Support NCO **WILL TRAIN/SITUATIONAL TELEWORK AUTHORIZED**
23-6250, Length 1 Year: The Lead Operations and Support Position for all military on ADOS/MPSA personnel at the National Background Investigation Service (NBIS) will be responsible for coordinating operations and marshalling technical resources during major incidents and outages. Incumbents will ensure that Senior Duty NCOs resolve all incidents quickly and efficiently, with minimal impact on the network or business operations. In this role, incumbents will serve as a primary point of contact for ADOS/MPSA military personnel, providing them with operational support and troubleshooting assistance as needed. Incumbents will participate in on-call rotations to provide support outside of normal business hours in support of the Agency’s mission as required. To be successful in this role, incumbents must have strong communication and leadership skills, as well as the ability to manage multiple priorities in a fast-paced, high-pressure environment. Incumbents should have a solid understanding of IT operations, incident management, and technical troubleshooting. Experience in coordinating technical resources during major incidents and outages is desirable. Qualifications: Civilian experience will be considered for position eligibility: DoD 8570/8140 Certifications required: At least IAT level II+ (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, CND, SSCP, CASP+ CE, CCNP Security, CIA, CISSP (or Associate), GCED, GCHI, CCEP) has context menu.

23-6251 Senior Duty NCO**WILL TRAIN / TELEWORK AUTHORIZED**
23-6251, Length 1 year: The Senior Duty Officer (SDO) will be responsible for coordinating operations and marshalling technical resources during major incidents and outages. Incumbent’s primary duty is to ensure that all incidents are resolved quickly and efficiently, with minimal impact on the network or business operations. The incumbent will maintain situational awareness of current incidents and communicate with key stakeholders, providing regular updates on the status of incidents. The incumbent will also analyze incident data and trends to identify areas for improvement in the incident response process. In addition to regular duties, the incumbent will participate in on-call rotations to provide support outside of normal business hours. This is a critical role in supporting the Agency's mission and ensuring the smooth operation of its systems and services. Candidates with experience in incident response, strong communication skills, and a willingness to work in a fast-paced environment, are encouraged to apply. Qualifications: Civilian experience will be considered for position eligibility: DoD 8570/8140 Certifications required: At least IAT level II+ (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, CND, SSCP, CASP+ CE, CCNP Security, CIA, CISSP (or Associate), GCED, GCHI, CCEP) has context menu. Cloud + or CCNA Cyber Ops preferred but not mandatory for consideration.

23-6252 Linux Cloud Administrator **WILL TRAIN/TELEWORK AUTHORIZED**
23-6252, Length 1 Year: The Linux Cloud Administrator will play a key role in managing and maintaining Linux servers and related infrastructure in the Amazon Web Services (AWS) Cloud environment. Incumbents will be responsible for configuring and monitoring server environments, ensuring high availability and performance, and implementing and maintaining security practices. Incumbents will service the following roles: The Linux Cloud Administrator will play a key role in managing and maintaining Linux servers and related infrastructure in the Amazon Web Services (AWS) Cloud environment. Incumbents will be responsible for configuring and monitoring server environments, ensuring high availability and performance, and implementing and maintaining security practices. Incumbents will service the following roles:

Civilian experience will be considered for position eligibility: DoD 8570/8140 Certifications required: At least IAT level II+ (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, CND, SSCP, CASP+ CE, CCNP Security, CIA, CISSP (or Associate), GCED, GCHI, CCEP) has context menu. Cloud + or CCNA Cyber Ops preferred but not mandatory for consideration.

23-6254 Security Incident Manager**WILL TRAIN / TELEWORK**
23-6254, Length 1 Year: The Security Incident Manager’s primary responsibility will be to ensure the security of our systems and data by managing and monitoring security incidents. The incumbent will work closely with other teams to coordinate incident response and conduct investigations to identify the root cause of incidents and prevent future occurrences. In addition, the incumbent will work closely with our SOC and SIEM engineers to implement security measures and ensure our systems are functioning effectively. Attention, detail, problem-solving skills, and the ability to work in a fast-paced environment will be critical to success in this role. Candidates with strong understanding of security incident response, a demonstrated ability to continuously improve, and a commitment to continuously improve, are encouraged to apply. This is an opportunity to play a critical role in protecting our organization and ensuring the security of our systems and data. Qualifications: Civilian experience will be considered for position eligibility: DoD 8570/8140 Certifications required: At least IAT level II+ (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, CND, SSCP, CASP+ CE, CCNP Security, CIA, CISSP (or Associate), GCED, GCHI, CCEP) has context menu.

23-6255 System Support Analyst**WILL TRAIN / TELEWORK AUTHORIZED**
23-6255, Length 1 Year: The System Support Analyst in the Network Operations Center (NOC) will play a critical role in ensuring the smooth operation of our systems and services. The incumbent will monitor system alerts and dashboards, triage incoming support tickets, and use your knowledge of our systems to route issues and problems to the correct team. The incumbent will also monitor ticket trends to identify late-breaking incidents and problems, and assist the Senior Duty Officer with reporting and information gathering. In addition, the incumbent will continuously improve the system support process to increase user satisfaction and internal efficiency. Candidates with experience in system support, a strong attention to detail, and a willingness to work in a fast-paced environment, are encouraged to apply. This is an opportunity to play a critical role in protecting our organization and ensuring the security of our systems and data. Qualifications: Civilian experience will be considered for position eligibility: DoD 8570/8140 Certifications required: At least IAT level II+ (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, CND, SSCP, CASP+ CE, CCNP Security, CIA, CISSP (or Associate), GCED, GCHI, CCEP) has context menu.

23-6259 Special Security Representative (SSR)
23-6259, Length 1 Year: SSRs are responsible for the day-to-day management and implementation of the Sensitive Compartmented Information (SCI) security program for all NSWC IHQ SCI facilities. Maintain applicable SCI directives, regulations, manuals, and guidelines to adequately discharge SSR duties and responsibilities. Responsible for control, transmit, transport, package, and safeguard SCI. Destruction of SCI by authorized means include: proper disposal of SCI only to persons authorized access and established need to know. Serve as the official channel for certifying and receiving SCI visitor clearances and access. Provides support (indirectly, clearance processing/reissuing, DSS and any future system, records maintenance, debriefs, etc) for SCI indoctrinated personnel. Provide support and maintenance for SCI personnel, information, physical, industrial, information technology and technical security (e.g. TEMPEST and TSCM) actions and procedures to include, but not limited to: Perform all aspects of the SCI Personnel Security Program to include, but not limited to: Benchmark, and help our deliver high-quality services to our users. Qualifications: Civilian experience will be considered for position eligibility: DoD 8570/8140 Certifications required: At least IAT level II+ (CCNA-Security, CySA+, GICSP, GSEC, Security+ CE, CND, SSCP, CASP+ CE, CCNP Security, CIA, CISSP (or Associate), GCED, GCHI, CCEP) has context menu. Cloud + or CCNA Cyber Ops preferred but not mandatory for consideration.

Job Descriptions
for Available Tours

23-6261
INFOSEC System Administrator
- 23-6261, Length 1 Year: Information Technology duties on various platforms that consist of daily operations, to include, but not limited to:- Responsible for SCI secure spaces Information Technology, escorting, data calls, fiber connectivity, maintenance of hardware, account management, VTC support, and new SCI builds. - Interpreting and implementing DOD/DON SCI regulations regarding any and all IT systems. - Will ensure SCI spaces are IT and Security compliant throughout the construction, usage and end of life. - Responsible for managing repairs and technical refresh and/or replacement of temporary or permanent equipment and media. - Serves as the liaison between various network owners/administrators (ONI, NMCI/NIPR/SIPR, RDT&E) and Code 10 as needed for all IT matters with the SCI. - Assisting with troubleshooting IT systems and peripherals as needed. - Applies Cybersecurity principles, policies, and procedures to ensure information systems are secure and reliable in accordance with DOD and DON Cyber Security policies. - Provide advice and consultation to management on information security issues, and information system accreditation for IT systems. - Consults with leadership and users to translate requests into IT requirements.
- Qualifications: - Technical knowledge/experience with IT peripherals in a Microsoft Windows enterprise environment, such as printers/scanners • Technical knowledge/experience with IT networking equipment (i.e. routers, switches, ethernet cabling, etc.) • Technical knowledge/experience developing and maintaining IT Data Center and user facing equipment • Must currently hold TS/SCI level Clearance • Must be able to kneel, bend, and maneuver under desks, climb ladders and pull wires. - Website: https://www.dfas.mil/pfi

23-6262
Multi Media Illustrator
- 23-6262, Length 1 Year: The 25M Multimedia Illustrator PFI to aid in the production of graphic artwork and products to use in C2D Strategic Communications, publications, interactive computer-generated visual displays and product visualizations. This 25M will provide support to the CDAC Graphic Illustrator and SharePoint Team Lead as they build an interactive spider diagram type product that shows the interconnectivity of stakeholders and mission from CCAD Artisan to Big Army. - Qualifications: MOSQ 25M

23-6265
Network Infrastructure Engineer
- 23-6265, Length 1 Year: Serves as the Current Operations and Network Infrastructure Engineer Officer for the DISA Central Field Command. - Maintains situational awareness over all DISA enterprise capabilities and services within the USCENTCOM area of responsibility (AOR). - Serves as the lead action officer for all critical Command and Control (C2) systems issues; integrates new DISN and enterprise systems and capabilities within the AOR; - Deploys as a DISA Liaison Officer (LNO) to HQs as required and deploys as part of the Combatant Commander’s advanced party during contingencies and exercises. - Serves as the Chief Engineer for special projects within the USCENTCOM AOR. - Qualifications: Must be FABQ qualified. Degree in Computer Science, Telecommunications, or Electrical Engineering is desired. - Desired: Competency in C++, competency in other modern programming languages, and experience with network management and/or experience working with software defined networking (SDN) technology. - Click HERE to apply.

23-6266
Deputy Director CECOM G1
- 23-6266, Length 1 Year: Provides expert advice and guidance on human resource programs for both military and civilians. Provides human capital and strategic projects and programs requiring extensive analysis and interpretation for many different programs, processes, and methods, such as advice on revisions to existing policies and programs to meet regulatory requirements. - The incumbent is committed to designing, developing, and implementing those models and guides that will attract, develop, and retain qualified employees and ensure a high-performing workplace. - Maintains close liaison with representatives of the Materiel Command, and other Federal agencies to obtain or provide information on high priority personnel projects and to ensure consideration of Agency programs, policies, and recommendations. - Implements actions necessary to effect management decisions including early retirement authorizations, separation incentive authorities, reduction-in-force procedures, and recruitment strategies to fill vacant positions. - Advice and guidance cover the full spectrum of human resource issues. - Website: https://www.dfas.mil/pfi

23-6276
Project Engineer
- 23-6276, Length 2 Years: Serves as a Project Engineer, with responsibility of ensuring that all repair projects are afforded proper priority, that needed information and resources are available, and that commitments are met. - Plans and executes repairs and alterations to navigation locks and dams and flood control structures. - Due to the age and uniqueness of these structures, problems are encountered which require changes to the existing principles and techniques; these changes necessitate using original and some-times novel engineering and construction applications. - The incumbent submits design sketches to the Chief, Maintenance Section or Project Managers for discussion and cursory review. - Instructs the field crews in preparation and completion of O&M repair jobs. - Makes field inspections to determine condition of equipment, such as: lock gates, valves, tainter gates, bulkheads, cranes, hydraulic cylinders, related equipment. - The incumbent notes conditions and obtains data for planning/scheduling future repairs using it to provide guidance and assistance to field supervisors about difficult, unusual, unprecedented or special problems. - The incumbent has sole responsibility for preparation and maintenance of current file for each assigned project. - Files contains the following data: cost estimates, job orders, job status reports, budget, kill and freeze, final cost, and other relevant information. - Based on field observation, as input from various inspections, provides assistance in the preparation of maintenance packages for annual O&M budget submissions. - Prepares technical plans and specifications for supply contracts. - Qualifications: Army Engineer Officer - USACE experience a plus. Electrical, Mechanical, or Civil Engineer preferred, degree required Skill identifiers W3, W4, W5, or W6 preferred

23-6280
Software Developer
- 23-6280, Length 1 Year: Highly motivated and articulate leader. Problem solver skills required. Develop software that would support the F-16 and Joint Simulation Environment. Object Oriented software development activities Modeling and Simulation of real-world aircraft, weapon systems, satellites, radios, messages, etc. Software testing using automated test technology Pipeline development and deployment for Continuous Integration/Continuous Deployment Reducing technical debt by re-factorizing legacy codebases and updating to modern software development practices Agile Software development techniques to include daily stand-up, sprint planning, development of microservices, testing, and deployment in DISA and the Central Region is highly desired. - Qualifications: Professional Skill Level: • Mandatory: Level II certification is PM • Desired: Data Science/AI, Operations Research, MBA or Systems Management experience; JPME Level I; Project Management Professional (PMP) certification • Security Clearance Required: Secret

23-6281
Program Manager
- 23-6281, Length 1 Year: Program Manager highly motivated and articulate leader. Problem solver skills required. Work with Program Manager to direct various projects within SWEG. Develop and administer project specific requirements. - The individual manages tasks with engineering, program control, and configuration management. They will manage program progress to ensure availability of operable and supportable subsystems. They must know program management procedures pertinent to software development and production. Become familiar with Agile software development and assist in Agile development rituals such as sprint planning, backlog grooming, and program increment planning. - Learn Scrum Master Role within Agile software development framework Develop cost estimates, create reports and metrics to measure spend plans and burn rates Develop program schedules, manage critical path. Become familiar with Art of the Possible and implement goals and metrics for Art of the Possible activity Create presentations and status reports for program management reviews. - High motivated and articulate leader. 11/22/2023

12 of 22
23-6320 Project Manager
23-6320 Length 1 Year: Project Manager will help the project teams manage project tasks and deliverables. They will support planning meetings, administrative and project activities. The Project Manager will manage and report on risks and update stakeholders and the MPE team on status. They will prepare reports and analyze data. The Project Manager will track and update schedules for new MPE customers. They will review processes and procedures. They will work with stakeholders and project team members. They will oversee project coordinators responsible for scope, cost and control of multiple projects. The Project Manager will be expected to create spreadsheets and understand schedule and tracking processes. Qualifications: (Required): - a nationally or federally/DoD recognized certification in project management (e.g., Project Management Institute (PMI) Project Management Professional (PMP), PMI Agile Certified Practitioner (ACP)), graduate certificate in project management, DAU courses in Project Management

23-6323 Nellis MILCON Install Support
23-6323 Length 61 days: Positions will support the installation of telecommunication hardware and infrastructure at assigned locations (Nellis AFB)

23-6325 IT Security Operations
23-6325 Length 1 Year: The individual will perform roles/responsibilities as defined in IAW AFM 17-101 and AFM 17-130. Mastery of and skill in applying IT operations related to security of systems, e.g., access control, security audit and analysis, security vulnerabilities, security configuration management, intrusion detection and prevention systems, and system and information integrity. Individual will also perform roles as ISSO, Security Manager, and Top Secret Control Officer. Qualifications: TS/SCI Required. Security+ certification Risk Management Framework experience. Information Systems Security Officer or Manager (ISSO/ISSM) experience would be helpful.

23-6326 Military Police Officer
23-6326 Length 1 year: Military Police - Tobyhanna Army Depot, in Northeastern Pennsylvania, seeks military police. Duties include: Will be assigned law enforcement/Safety duties to uphold Federal Laws and Regulations, maintain good order and discipline, and support the installation commander's law enforcement and security requirements. Typical duties include foot and motorized patrol and control of pedestrian and vehicular traffic and conducting random anti-terrorism measures (RAM) in accordance with local regulations and policies. Qualifications: 318 MOS

23-6329 Environmental Science/ Environmental Engineer Officer/Engineering Tech
23-6329 Length 2 Years: Environmental support specialist for the Soo Project Office. Consultant for environmental compliance, implementation, inspection, auditing, monitoring, and reporting responsibilities, including regulatory compliance to Federal, State, and local requirements. Support project safety program specific to environmental compliance and Hazard and Toxic Waste concerns. Participates in the review of plans and specifications for environmental aspects of contracts and provides recommendations. Develops environmental implementation processes, policy and procedures. Develops corrective action plans for non-compliance issues. Qualifications: Army Engineering Office - USACE experience a plus. Preferred MOS include 72D.

23-6330 Engineering Technician - Survey
23-6330 Length 2 Years: Performs or reviews all required calculations, reductions, analyses, and processing of hydrographic survey data to complete a variety of cartographic products using CAD/CADD, Hypermap, or other 3D data processing software systems. Typical tasks are listed here: dredging volume calculations; disposal area volume capacity calculations; seabed contour maps; before and after dredge completion surveys; statistical shore line analyses; 2-D and 3-D subsurface model diagrams; and manipulations of digital engineering data, maps, and remote sensing imagery within a Geographic Information System (GIS). Plans and coordinates the activities of the field survey crews engaged in providing survey and other geospatial data, in support of design, construction, and operation and maintenance functions in support of navigation locks and dams, disposal facilities, and facility construction. Responsible for planning, directing, coordinating, supervising, and reviewing the activities of the field survey crews and survey equipment in accomplishing survey operations which include reconnaissance, preliminary, construction, control and topographic surveys for civil projects in the project office jurisdiction. Works in the field to accomplish tasks when needed. All surveys are completed in an electronic environment using total stations, digital levels, and global positioning system (DGPS) and Real Time Kinematic (RTK) equipment. Conducts mission planning, ground control establishment, pre-flight preparation and safety inspection, UAS operation as Remote Pilot in Command or Visual Observer, system monitoring during missions, post-flight inspections, and mission debriefing. Utilize appropriate photogrammetric mapping software to post process mission data, video, Light Detection and Ranging (LiDAR) point clouds, and imagery collected during UAS missions to develop survey mapping, and engineering products meeting customers requested specifications. Qualifications: Engineering Army Noncommissioned Officer, Warrant Officer, or Commissioned Officer. Preferred MOS include 12C, 12D, 12H, 12N, 12T, 12X, 12Z, 12D0, & 12D5. Other MOS/CMF may be considered. Previous USACE experience highly advantageous.

23-6335 Bldg 5331 ISP Install Support
23-6335 Length 55 days: Bldg 330 ISP install support. Positions will support the installation of telecommunication hardware and infrastructure at assigned locations.

23-6337 Intelligence Analyst
23-6337 Length 1 Year: Incumbent will produce weekly unclassified, secret, and top secret intelligence summaries to 4.4k software and acquisition personnel throughout the department of defense, assist security personnel in improving local area security culture through unclassified cyberspace intelligence briefings, and conduct routine current intelligence briefings to technical and non-technical staff. The experience required is experience that demonstrates accomplishment of computer project assignments that required a range of knowledge of computer systems and techniques. For example, assignments would show, on the basis of general design criteria provided, experience in developing modifications to parts of a system that required significant revisions in the logic or techniques used in the original development. Operating computer consoles where this involved choosing from various procedures in responding to machine commands or unscheduled halts. Software development of systems having a view to production efficiency. Knowledge of DOD DROMO processes for IT equipment helpful but can be learned thru GxIT. Qualifications: College Degree pref. but not required. Experience with network & server management, workstation deployment and software license management are beneficial past experiences.

24-6022 Project Manager
24-6022, Length 2 Years: Incumbent will support the Readiness Branch and Emergency Operations Center (EOC) managing emergency operations active construction projects. Sacramento District received 240 Levee Rehabilitation requests from 2023 floods. USACE must complete repairs before next flood. Incumbent will be on-site PM to assist with field investigations, which includes an assessment of levee damage and acreages, and crops and buildings involved to determine PL 84-99 rehabilitation/flow risk management. The importance of flood risk management and high risk areas require additional support to the Emergency Operations Center. Duties will consist of scheduling work, tracking milestones, coordinating with the project delivery teams, and managing funding. Responsible for the efficient and effective coordination and accomplishment of the planning, funding acquisition, and coordinate engineer, design, and construction with non-federal sponsor. Support to Emergency Operations as necessary. Qualifications: Project Management Professional (PMP), Preference Post-Command CPT

24-6023 Project Engineer
24-6023, Length 2 Years: DUTY LOCATION: ST. JOSEPH, MO. USACE Project Engineer for Kansas City District, NWK, in support of Bil contracts for Missouri River Restoration. Work includes oversight of contractors making repairs to Missouri River river training structures, dikes and revetments. Specific tasks include but are not limited to; provide leadership for small remote construction team working with schedule management, contract quality assurance, government quality control, upward reporting on progress, briefing of progress and status to district, division, enterprise and river system partners. Will work directly with Administrative Contracting Officer (ACO) and contract CDRs. Qualifications: Army Engineer Officer - USACE experience a plus, contacting experience a plus.

24-6024 Project Engineer
24-6024, Length 2 Years: DUTY LOCATION: GASCONE, MO. USACE Project Engineer for Kansas City District, NWK, in support of Bil contracts for Missouri River Restoration. Work includes oversight of contractors making repairs to Missouri River river training structures, dikes and revetments. Specific tasks include but are not limited to; provide leadership for small remote construction team working with schedule management, contract quality assurance, government quality control, upward reporting on progress, briefing of progress and status to district, division, enterprise and river system partners. Will work directly with Administrative Contracting Officer (ACO) and contract CDRs.

24-6025 Project Engineer Infrastructure Investment & Upgrades
24-6025, Length 2 Years: USACE Project Engineer for Operations & Readiness Division San Francisco District. The incumbent will be required to serve as a liaison between managers within the O&R Division and other SPN divisions to execute non-routine engineering and construction in a civilian environment. Projects range from rehabilitation of components (e.g. gates, drainage structures, etc.) to capital replacement of park headquarters buildings. The incumbent shall have experience with Army, preferable USACE, policies and procedures for property management, safety, security. Qualifications: Army Engineer Officer - USACE experience a plus & Project Management Professional Certified While it would be helpful if the USACE experience and knowledge of systems used, that isn’t specifically necessary. In general, though, the candidates must have an excellent ability to communicate, both written and verbal, and they must be proficient with Microsoft products.

24-6026 Project Engineer
24-6026, Length 3 Years: USACE Project Engineer for San Francisco District. Each of these candidates will work under the Deputy District Engineer for Project Management, or her/his designee, in a 65+ person Division within a 250 person District. Specific position duties include day to day project management of construction projects, operations and maintenance projects, and feasibility studies across the coastline of central and northern California. These positions will also provide integration support across communities of practice and project teams to offer the existing workforce a force multiplier for communication. This is particularly important for our District now more than ever as a large majority of the staff work remotely up to 4 days each week and are only in the office once each week. This permanent hybrid workforce creates communication challenges and, as a result, project execution challenges that didn’t exist prior to COVID-19. These positions may also require frequent public engagement and relationship management with non-Federal sponsors and public officials. Also, additional duties could include the implementation of Army Engineer Manual EM 5-3-11 and general business quality procedures across the entire District. These positions are necessary due to the existing project management workforce being fully maxed out in terms of the work load for the District. Specific projects funded in FY224 that will support our ADOs offices include the following: Crescent City Harbor (O&M funding), Fruitvale Avenue Railroad Bridge Disposition Study (investigations funding), Humboldt Harbor and Bay (O&M funding), Klamath Basin (investigations funding), Oakland Harbor (O&M Funding), Petaluma River (O&M funding), Sacramento River (O&M funding), San Francisco Bay Delta Model (O&M funding), San Joaquin River (O&M funding), Santa Cruz Harbor (O&M funding), South San Francisco Shoreline (Construction funding). Qualifications: Army Engineer Officer - USACE experience a plus & Project Management Professional Certified While it would be helpful if the USACE experience and knowledge of systems used, that isn’t specifically necessary. In general, though, the candidates must have the ability to communicate, both written and verbal, and they must be proficient with Microsoft products (including Word, Outlook, Teams, OneNote, and Excel).

24-6028 Military Pay Technician
24-6028, Length 1 Year: Serves as a Technician or leads the work of Technicians engaged in processing military pay entitlements, bonuses, leave, and other pay related actions for active duty and/or reservists. Typical duties may include reviewing pay authorization documents, determining entitlements, responding to pay inquiries, processing adjustment actions, and reviewing military pay actions.
