<tbody>
<tr>
<td>22-6200</td>
<td>Integrated Logistics Support Manager In-Flight Support Services</td>
<td>22-6200, Length 1 Year with opportunity to extend: 1. Knowledge of Integrated Logistics/Support/Logistics (ILS/PSS) concepts, principles, policies, and acquisition/contract regulations and their application to a variety of unique and complex systems. 2. Understanding of ILPS components as they relate to systems acquisition and life cycle management across related disciplines, including plans and specifications covering work to be accomplished by the contractor. Incumbent is expected to ensure that contract scope, contract drawings, shop drawings, specifications, codes, quality management and safety are followed throughout the life of the contract. Follows the day to day work to ensure the contractor is meeting his work schedule as approved. Incumbent is required to assume full responsibility for ensuring that all non-conforming work is properly identified through test reports or observations and that the contractor’s Quality Assurance (QA) team is notified for corrective action. As a subject matter expert, works out problems largely on his own initiative. Incumbent acts independently to perform quality assurance and safety functions, and keeps supervisor apprised on any controversial issues and/or policies of an unusual nature.</td>

</tr>
<tr>
<td>22-6239</td>
<td>Engineer NCO</td>
<td>22-6239, Length 420 Days: Assists the Engineer and Deputy Engineers in daily activities to include oversight of projects. The Engineer NCO will ensure safety regulations, as well as all Standard Operating Procedures are followed. Reviews, provides comments and approves contractor’s current version of EM 385-1-1. Advises the Project Manager when the plan is acceptable and work can start on site. The position is responsible for preparing and coordinating conventional and unconventional inspections at different construction sites throughout the Kingdom of Saudi Arabia. Manages and monitors equipment, staffing, workmanship, safety practices, and analyzes a variety of unusual conditions, problems, or questions.</td>

23-6248 Cloud Solutions Architect**WILL TRAIN/TELEWORK**

**WILL TRAIN/TELEWORK**

23-6248, Length 1 Year: The Cloud Solutions Architect is responsible for designing and deploying Amazon Web Services (AWS) based applications and infrastructure to create an infrastructure as code environment using cloud formation templates and other similar technologies. Incumbents must have a deep understanding of AWS services, be able to work with the Engineering, Infrastructure, and other stakeholders to understand the business needs and design solutions that meet those needs. Responsibilities include identifying opportunities to optimize the environment for efficiency and cost-effectiveness. To excel in this role, incumbents must have a deep understanding of AWS services and be able to effectively manage and monitor them to ensure optimal performance and availability. Incumbents should have strong problem-solving skills and be able to work independently as well as in a team environment. Excellent communication skills are essential for collaborating with cross-functional teams. Qualifications: Civilian experience will be considered for position eligibility DoD 8570/8140 Certifications required: At least IAT level I+ (CCNA-Security, CySA**, GIAC, GSEC, Security+ CE, CND, SSDP, CASP+, CCNP Security, CISA, CISSP+ [or Associate], GCED, GCC, CCSP) has context menu.

23-6249 Cloud Operations Engineer **WILL TRAIN/TELEWORK**

23-6249, Length 1 Year: The Cloud Operations Engineer will play a critical role in managing the day-to-day operations of the Amazon Web Services (AWS) environment. Incumbents will work closely with the Infrastructure team to create an environment as code environment using cloud formation templates and other similar technologies. Responsibilities will include ensuring high availability and performance of the infrastructure, troubleshooting issues, and proactively identifying opportunities to optimize the environment for efficiency and cost-effectiveness. Incumbents will also collaborate closely with developers to support their needs and help them leverage AWS services effectively. To excel in this role, incumbents must have a deep understanding of AWS services and be able to effectively manage and monitor them to ensure optimal performance and availability. Incumbents should have strong problem-solving skills and be able to work independently as well as in a team environment. Excellent communication skills are essential for collaborating with cross-functional teams. Qualifications: Civilian experience will be considered for position eligibility DoD 8570/8140 Certifications required: At least IAT level I+ (CCNA-Security, CySA**, GIAC, GSEC, Security+ CE, CND, SSDP, CASP+, CCNP Security, CISA, CISSP+ [or Associate], GCED, GCC, CCSP) has context menu.

23-6250 Lead Operations & Support NCO **WILL TRAIN/SITUATIONAL TELEWORK AUTHORIZED**

23-6250, Length 1 Year: The Lead Operations and Support NCO for all military on ADOS/MPA personnel at the National Background Investigation Service (NBIS) will be responsible for coordinating operations and marshalling technical resources during major incidents and outages. Incumbents will ensure that Senior Duty NCOs resolve all incidents quickly and efficiently, with minimal impact on the network or business operations. In this role, incumbents will serve as a primary point of contact for ADOS/MPA military personnel, providing them with operational support and troubleshooting assistance as needed. Incumbents will participate in on-call rotations to provide support outside of normal business hours in support of the Agency’s mission as required. To be successful in this role, incumbents must have strong communication and leadership skills, as well as the ability to manage multiple priorities in a fast-paced, high-pressure environment. Incumbents should have a solid understanding of IT operations, incident management, and technical troubleshooting. Experience in coordinating technical resources during major incidents and outages is desirable. Qualifications: Civilian experience will be considered for position eligibility DoD 8570/8140 Certifications required: At least IAT level I+ (CCNA-Security, CySA**, GIAC, GSEC, Security+ CE, CND, SSDP, CASP+, CCNP Security, CISA, CISSP+ [or Associate], GCC, GC, CCSP) has context menu.

23-6251 Senior Duty NCO **WILL TRAIN / TELEWORK AUTHORIZED**

23-6251, Length 1 Year: The Senior Duty Officer (SDO) will be responsible for coordinating operations and marshalling technical resources during major incidents and outages. Incumbent’s primary duty is to ensure that all incidents are resolved quickly and efficiently, with minimal impact on the network or business operations. The incumbent will maintain situational awareness of current incidents and communicate with key stakeholders, providing regular updates on the status of incidents. The incumbent will also analyze incident data and trends to identify areas for improvement in the incident response process. In addition to regular duties, the incumbent will participate in on-call rotations to provide support outside of normal business hours. This is a critical role in supporting the Agency’s mission and ensuring the smooth operation of its systems and services. Qualifications: Civilian experience will be considered for position eligibility DoD 8570/8140 Certifications required: At least IAT level I+ (CCNA-Security, CySA**, GIAC, GSEC, Security+ CE, CND, SSDP, CASP+, CCNP Security, CISA, CISSP+ [or Associate], GCC, GC, CCSP) has context menu. Cloud + or CCNA Cyber Ops preferred but not mandatory for consideration.

23-6252 Linux Cloud Administrator **WILL TRAIN / TELEWORK AUTHORIZED**

23-6252, Length 1 Year: The Linux Cloud Administrator will play a key role in managing and maintaining Linux servers and related infrastructure in the Amazon Web Services (AWS) Cloud environment. Incumbents will be responsible for configuring and monitoring of the Linux environment, ensuring high availability, and implementing and maintaining best practices. Incumbents will design and implement backup and disaster recovery plans, troubleshoot and resolve system application, and collaborate with other teams to ensure seamless integration and communication with other systems and services. Additionally, incumbents will automate repetitive tasks using scripting and configuration management tools to increase efficiency and scalability. To excel in this role, incumbents must have a solid understanding of Linux operating systems, cloud computing, and related technologies, as well as the ability to effectively manage and monitor them to ensure optimal performance and availability. Strong problem-solving skills and the ability to work independently and in a team environment are essential. Qualifications: Civilian experience will be considered for position eligibility DoD 8570/8140 Certifications required: At least IAT level I+ (CCNA-Security, CySA**, GIAC, GSEC, Security+ CE, CND, SSDP, CASP+, CCNP Security, CISA, CISSP [or Associate], GCC, GC, CCSP) has context menu.

23-6254 Security Incident Manager **WILL TRAIN / TELEWORK**

23-6254, Length 1 Year: The Security Incident Manager's primary responsibility will be to ensure the security of our systems and data by managing and monitoring security incidents. The incumbent will work closely with other teams to coordinate incident response and conduct investigations to identify the root cause of incidents and prevent future occurrences. In addition, the incumbent will work closely with our SOC and SIEM engineers to implement security measures and ensure our systems are functioning effectively. Attention to detail, problem-solving skills, and ability to work in a fast-paced environment will be critical to success in this role. Candidates with experience in incident response, strong communication skills, and a willingness to work in a fast-paced environment, are encouraged to apply. Qualifications: Civilian experience will be considered for position eligibility DoD 8570/8140 Certifications required: At least IAT level I+ (CCNA-Security, CySA**, GIAC, GSEC, Security+ CE, CND, SSDP, CASP+, CCNP Security, CISA, CISSP [or Associate], GCC, GC, CCSP) has context menu.

23-6255 System Support Analyst **WILL TRAIN / TELEWORK AUTHORIZED**

23-6255, Length 1 Year: The System Support Analyst in the Network Operations Center (NOC) will play a critical role in ensuring the smooth operation of our systems and services. The incumbent will monitor system alerts and dashboards, triage incoming support tickets, and use your knowledge of our systems to route issues and problems to the correct team. The incumbent will also monitor ticket trends to identify late-breaking incidents and problems, and assist the Senior Duty Officer with reporting and information gathering. In addition, the incumbent will continuously improve the system support process to increase user satisfaction and internal efficiency. Candidates with experience in system support, a strong attention to detail, and a willingness to work in a fast-paced environment, are encouraged to apply. This is an opportunity to make a significant impact on our organization and help us deliver high-quality services to our users. Qualifications: Civilian experience will be considered for position eligibility DoD 8570/8140 Certifications required: At least IAT level I+ (CCNA-Security, CySA**, GIAC, GSEC, Security+ CE, CND, SSDP, CASP+, CCNP Security, CISA, CISSP [or Associate], GCC, GC, CCSP) has context menu. Cloud + or CCNA Cyber Ops preferred but not mandatory for consideration.

23-6259 Special Security Representative (SSR)

23-6259, Length 1 Year: SSRs are responsible for the day-to-day management and implementation of the Sensitive Compartmented Information (SCI) security program for all NSWC IHD SCI facilities. Incident categorization and prioritization: Analyze and classify incidents based on their impact, urgency, and severity, using predefined categorization schemes and prioritization matrices. 3. Incident investigation and diagnosis: Coordinate respective areas to conduct thorough investigations to determine the root cause of incidents, leveraging available information and collaborating with relevant stakeholders. 4. Incident resolution and recovery: Part of a team to develop and implement appropriate solutions, workarounds, or fixes to restore normal service operation, minimizing business impact and adhering to agreed-upon service levels. 5. Incident ownership and coordination: Ownership of incidents throughout their lifecycle, ensuring proper coordination and communication with affected users, support teams, and management. 6. Incident escalation and management: Assess incidents that require further attention or higher expertise and escalate to appropriate team members or individuals, maintaining proper escalation and communication channels. 7. Incident documentation and reporting: Document incident details, actions taken, and resolutions in incident records, ensuring accurate and up-to-date information is available for future reference. Generate incident reports and provide insights on incident trends and performance metrics. 8. Incident management process improvement: Continuously review and improve incident management processes, procedures, and workflows to enhance efficiency, effectiveness, and customer satisfaction. Configuration Management - 1. Develop and implement configuration management policies, procedures, and guidelines in compliance with government regulations and organizational standards. 2. Establish and maintain a centralized configuration management database/repository to track and control configuration items, including software, hardware, documentation, and related artifacts. 3. Define and enforce configuration identification processes to uniquely identify and label configuration items, versions, and revisions. 4. Monitor and manage configuration baselines, ensuring all changes are properly recorded, evaluated, and implemented. 5. Provide system configuration management services that will track all past and proposed changes to the system. Qualifications: Incident Management - 1. Knowledge of ITIL framework: 2. Technical expertise: Strong understanding of the organization's IT infrastructure, applications, systems, and technologies to effectively diagnose and resolve incidents. 3. Communication skills: Excellent verbal and written communication skills to interact with users, technical teams, and management. 4. Analytical and problem-solving skills: 5. Customer Service Skills Configuration Management - Knowledge in configuration management principles. Government regulations.

23-6438 Project Manager

23-6438, Length 1 Year: Responsible for overseeing software development projects across various categories, including Development, Modernization, and Enhancements (DM&E), Operations and Maintenance (O&M), and Security Plan of Action and Milestone (POA&M) remediation. The Project Manager is tasked with managing and reporting on risks associated with these projects and providing regular updates to stakeholders. Additionally, the Project Manager is responsible for tracking project timelines using Microsoft Project and BIES IMS (Integrated Master Schedule). Key Responsibilities: 1. Project Oversight: Provide comprehensive oversight for software development projects, ensuring adherence to project plans, schedules, and budgets. Monitor progress and ensure that all project deliverables meet the required quality standards. 2. Risk Management: Identify and assess risks associated with projects, both from a technical and operational perspective. Develop risk mitigation plans to minimize potential adverse impacts on project success. 3. Stakeholder Engagement: Maintain regular communication with stakeholders, including contractors, customers, and end-users. Provide updates on project status, key milestones, risks, and any changes in project scope. 4. Compliance and Security: Ensure that software development projects comply with all relevant security guidelines, policies, and regulations. Oversee the remediation of security vulnerabilities identified in the Plan of Action and Milestone (POA&M). 5. Project Time Tracking: Utilize Microsoft Project and BIES IMS to establish and maintain detailed project schedules. Regularly review and update project timelines to reflect actual progress and anticipate potential delays or challenges. Qualifications: The BIES Project Manager must have a nationally recognized project management certification (e.g., PMP, PMP-ACP, CAPM courses) and substantial experience in software development project management, including DM&E and O&M stages. Excellent communication, strong analytical, and leadership skills are required. Duties can be customized, aiming for successful projects and organizational goals.

23-6439 Security INFOSEC

23-6439, Length 1 Year: Provide support for DCAS/PEO/NIIS/ BIES in the field of cyber security within BIES, your primary responsibilities will revolve around safeguarding the organization's information and technology systems from cyber threats. You will be instrumental in maintaining the security posture and ensuring compliance with cybersecurity policies and regulations. 1. Change Request: Review and evaluate proposed changes to information systems, applications, and networks for potential security implications. Ensure that any modifications do not compromise the overall security of the organization. 2. Monitoring Compliance: Regularly monitor and analyze system controls, processes, and policies to ensure adherence to cyber security standards and regulations and report weekly to the CSAO and other relevant authorities. 3. Incident Response: Actively participate in incident response efforts, where necessary, to handle cybersecurity incidents and breaches. Initiate protective or corrective actions in response to security incidents to mitigate potential damage and restore the integrity of affected systems. 5. Documentation: Maintain accurate and up-to-date documentation related to cybersecurity measures, policies, procedures, and incident response actions. Proper documentation is critical for auditing purposes and provides a reference for future cybersecurity assessments. 6. Cybersecurity Control Assessment: Conduct periodic cybersecurity awareness assessments of information systems, networks, and applications to identify potential vulnerabilities and weaknesses. Evaluate and recommend improvements to enhance the overall security posture. In this role, you will be an essential member of the cybersecurity team, contributing to the protection of critical information and supporting the BIES mission to ensure the security and readiness of its information systems. Your expertise and diligence will play a crucial role in maintaining a strong cybersecurity posture within the organization and safeguarding sensitive information from cyber threats. Required Certifications: DoD 8570.1/140 Certifications Possess the appropriate certifications as specified in the DoD 8570.1/B140 directive, specifically at the IAM (Information Assurance Manager) Level 3. This certification level indicates a high level of expertise in managing and implementing cybersecurity measures.

Project Manager

24-6022, Length 2 Years: Incumbent will support the Readiness Branch and Emergency Operations Center (EOC) managing emergency operations active construction projects. Sacramento District received 240 Levee Rehabilitation requests from 2023 floods. USACE must complete repairs before next flood. Incumbent will be on-site PM to assist with field investigations, which includes an assessment of levee damage and acreages, and crops destroyed. The USACE floodplain risk management and high risk areas require additional support to the Emergency Operations Center.

Duties will consist of scheduling work, tracking milestones, coordinating with the project delivery teams, and managing funding. Responsible for the efficient and effective coordination and accomplishment of the planning, funding acquisition, and contract management, and design with no-funds support. Support to Emergency Operations as necessary. Qualifications: Project Management Professional (PMP), Preference Post-Command CPT

Project Engineer

24-6023, Length 2 Years: DUTY LOCATION: ST. JOSEPH, MO. USACE Project Engineer for Kansas City District, NWK, in support of BIL contracts for Missouri River Restoration. Work includes oversight of contractors making repairs to Missouri River river training structures, dikes and revetments. Specific tasks include but are not limited to: provide leadership for small remote construction team working with schedule management, contract quality assurance, government quality control, change management, upward reporting on progress, briefing of progress and status to district, division, enterprise and river system partners. Will work directly with Administrative Contracting Officer (ACO) and contact CORs. Qualifications: 10+ years experience as a Project Engineer, Army Engineer Officer (ACO) - USACE experience a plus.

Project Engineer

24-6024, Length 2 Years: DUTY LOCATION: GASCONADE, MO. USACE Project Engineer for Kansas City District, NWK, in support of BIL contracts for Missouri River Restoration. Work includes oversight of contractors making repairs to Missouri River river training structures, dikes and revetments. Specific tasks include but are not limited to: provide leadership for small remote construction team working with schedule management, contract quality assurance, government quality control, change management, upward reporting on progress, briefing of progress and status to district, division, enterprise and river system partners. Will work directly with Administrative Contracting Officer (ACO) and contract CORs.

Project Engineer Infrastructure Investment & Upgrades

24-6025, Length 2 Years: USACE Project Engineer for Operations & Readiness Division San Francisco District. The incumbent will be required to serve as a liaison between managers within the O&O Division and other SPN divisions to execute non-routine engineering and construction in a civilian environment. Projects range from rehabilitation of components (i.e. gates, drainage structures, etc.) to capital replacement of park headquarters buildings. The incumbent shall have experience with Army, preferable USACE, policies and procedures for property management, safety, security. Qualifications: (CCNA-Security, CySA+, GICSP, GSEC, Security+, CE, CND, SSCP, CASP+ CE, CCNP Security, CISA, CISSP (or Associate), GCED, GCIH, CCSP)

Document Issue: (CCNA-Security, CySA+, GICSP, GSEC, Security+, CE, CND, SSCP, CASP+ CE, CCNP Security, CISA, CISSP (or Associate), GCED, GCIH, CCSP)

Project Engineer

24-6026, Length 3 Years: Project Engineer for San Francisco District. Each of these candidates will work under the Deputy District Engineer for Project Management, or he/she designee, in a 65+ person Division within a 250 personnel District. Specific position duties include day to day project management of construction projects, operations and maintenance projects, and feasibility studies across the coastline of central and northern California. These positions will also provide integration support across communities of practice and project teams to offer the existing workforce a force multiplier for communication. This is particularly important for our District now more than ever as a large majority of the staff work remotely up to 4 days each week and are only in the office once each week. This permanent hybrid workforce creates communication challenges and, as a result, project execution challenges that didn’t exist prior to COVID. These positions may also require frequent public engagement and relationship management with non-Federal sponsors and public officials. Additionally, duties will include the implementation of Army Engineer Manual EM 5-1-11 and general business quality procedures across the entire District. These positions are necessary due to the existing project management role being fully maxed out in terms of the labor load for the District. Specific projects include FY2024 that will support our AOS offices included the following: Crescent City Harbor (O&M funding), Fruitvale Avenue Railroad Bridge Disposition Study (Investigations funding), Humboldt Harbor and Bay (O&M funding), Klamath Basin (Investigations funding), Oakland Harbor (O&M funding), Petaluma River (O&M funding), Sacramento River (O&M funding), San Francisco Bay Delta Model (O&M funding), San Joaquin River (O&M funding), Santa Cruz Harbor (O&M funding), South San Francisco Shoreline (Construction funding).

Qualifications: Army Engineer Officer - USACE experience a plus & Project Management Professional Certified While it would be helpful if the USACE experience and knowledge of systems used, that isn’t specifically necessary. In general, though, the candidates must have an excellent ability to communicate, both written and verbal, and they must be proficient with Microsoft products (including Word, Outlook, Teams, OneNote, and Excel).

Military Pay Technician

24-6028, Length 1 Year: Serves as a Technician or Leads the work of Technicians engaged in processing military pay entitlements, bonuses, leave, and other pay related actions for active duty and/or reservists. Typical duties may include reviewing pay authorization documents, determining entitlements, responding to pay inquiries, processing adjustment actions, and reviewing military pay actions. Qualifications: Candidates should be proactive, resourceful, and able to work independently. The technician should have interpersonal skills, computer skills, mathematical reasoning, data interpretation, problem-solving, teamwork, and communication. Knowledge of pay operations, practices, laws, and policies. Candidates should be proactive, resourceful, and a fast learner. Candidates should be customer-focused with competencies for arithmetic, flexibility, integrity/honesty, interpersonal skills, computer skills, mathematical reasoning, data interpretation, problem-solving, teamwork, and communication. Knowledge of pay operations, practices, laws, and policies.
