Financial Management Systems Requirements Manual Volume 21, Loans

August 2014

Strategy, Policy and Requirements

SUBJECT: Financial Management Systems Requirements
Volume 21, Loans

1. PURPOSE

a. This Volume presents the financial management system design and implementation requirements for Department of Defense (DoD) military components' and agencies' financial management systems. This Volume is part of the publication which reissues Defense Finance and Accounting Service (DFAS) 7900.4-M, (The Blue Book), "Financial Management Systems Requirements Manual". This manual is a compilation of the Loans specific Federal and Department of Defense (DoD) systems requirements. Any system reviews need to consider all DFAS 7900.4-M volumes and requirements in addition to these Loans specific items contained in this volume.

b. The Blue Book serves as a "roadmap" to Federal and DoD financial management system requirements by major financial management functional areas and their authoritative sources, and will assist managers who are responsible for financial management systems in planning, designing, enhancing, modifying, and implementing financial management systems. Managers are ultimately responsible for being knowledgeable of and complying with the various authoritative sources of financial requirements (both legislative and regulatory). Guidance and procedures are contained in several volumes located on the DFAS Reference Library at <http://www.dfas.mil/dfasffmia/bluebook.html>. Appendix 4 of the manual includes links to where authoritative sources of requirements may be accessed.

c. Adherence to these requirements and all other applicable DFAS 7900.4-M requirements will enable DoD military components and agencies to meet Federal mandates and will help facilitate DFAS to progress toward reaching its strategic goal of providing services faster, better, and cheaper. The objective of this Volume is to promulgate the Loans specific financial management systems requirements for system and program managers' use in developing Loans functionality.

2. APPLICABILITY:

Requirements contained within this document are applicable to accounting and finance systems operated and maintained by DoD.

3. POLICY:

a. This Volume provides a synopsis of Federal and DoD financial systems requirements, mandated by policy, for Loans financial management systems. It is a compilation of General Ledger specific financial management systems requirements mandated by Public Law 104-208, "Federal Financial Management Improvement Act of 1996," September 30, 1996.

b. This Volume incorporates revisions to the requirements from the authoritative sources. It also incorporates updates to existing requirements **via highlighting the appropriate text in bolded blue font**. See description of requirement changes for a complete listing and description of the financial systems requirements changes, deletions, and additions, for this volume.

c. Users of this Volume may forward questions, comments and suggested changes to:

4. ORGANIZATIONAL RESPONSIBILITIES FOR FFMIA COMPLIANCE

a. Within DoD, various organizations operate financial management systems. In an overall scheme, many of these systems should be linked in an integrated network. However, these systems frequently “stand-alone” or are “stovepipe” systems that are not logically integrated with other related systems. Critical financial data, instead of being transferred electronically between systems through well-controlled interfaces, are often transferred manually by means of journal vouchers, hardcopy spreadsheets, “data calls,” or other inefficient and error-prone methods.

b. DFAS functions as the primary Departmental entity responsible for producing a Trial Balance from the ERP general ledger and preparing the financial reports for the DoD. Much of the data used by DFAS to carry out the DoD’s accounting and financial reporting functions—such as property and inventory values—originate in non-DFAS organizations or systems. Therefore, other organizations, primarily the military services and Defense Agencies, should be held responsible for the compliance of their financial management systems with all applicable Federal requirements. Appendix 5 of DFAS 7900.4-M contains Federal and DoD guidance on FFMIA compliance, evaluation, and reporting.

5. PROCEDURES:

Procedures are presented in each Volume of this Manual as appropriate.

6. RELEASABILITY:

UNLIMITED. This Volume as part of DFAS 7900.4-M is approved for public release and may be accessed at <http://www.dfas.mil/dfasffmia.html>

7. EFFECTIVE DATE: This Volume is effective immediately.

LOANS INTRODUCTION

Federal agencies make direct loans to American citizens and companies and guarantee loans made by various lending institutions to American citizens and companies that total billions of dollars of annually. Direct loans disbursed and outstanding are recognized as assets of the Federal Government and outstanding guaranteed loans represent liabilities to the Federal Government. Because of the magnitude of federal loan activity, specific requirements have been established for systems used to manage loan processes and portfolios. These requirements encompass the full scope of requirements for an automated loan system. Each agency must evaluate whether it is practical to automate fully all of these functions or whether manual systems and processes are justified.

Chapter 4 of DoD 7000.14-R, "Department of Defense Financial Management Regulations (FMRs)," Volume 12, "Special Accounts, Funds and Programs," (September 2013) prescribes the Department of Defense's accounting requirements for loans. These requirements reflect Federal Accounting Standards Advisory Board (FASAB) Statement of Federal Financial Accounting Standards (SFFAS) No. 2, "Accounting for Direct Loans and Loan Guarantees," August 23, 1993 and subsequent amendments in SFFAS No. 18, "Amendments To Accounting Standards For Direct Loans and Loan Guarantees," (May 2000) and SFFAS No. 19, "Technical Amendments To Accounting Standards For

Direct Loans and Loan Guarantees In Statement of Federal Financial Accounting Standards No. 2," (March 2001). This volume and other DFAS 7900.4-M volumes may be applicable to your system.
