On the Itinerary tab, please review the instructions on the screen.

The screenshot shows a web application interface with a navigation menu at the top containing: Menu, User Type, Initial, Advances, Personal, Dependents, Itinerary (highlighted), Reimbursables, Meals, Misc, Finish, Preview, View/Print, and Logoff. Below the menu is a blue header bar with "Itinerary Information" on the left, "Click to Show Instructions" in the center, and "Step 6 of 12" on the right. A red arrow points to the "Instructions:" section. The instructions are numbered 1, 2, and 3, each with a "Note" and an "Example". At the bottom, there is a checkbox with the text: "I have read the instructions for the itinerary, and I understand that to receive accurate and timely payments of all travel entitlements, the itinerary must be complete and exact." Another red arrow points to this checkbox.

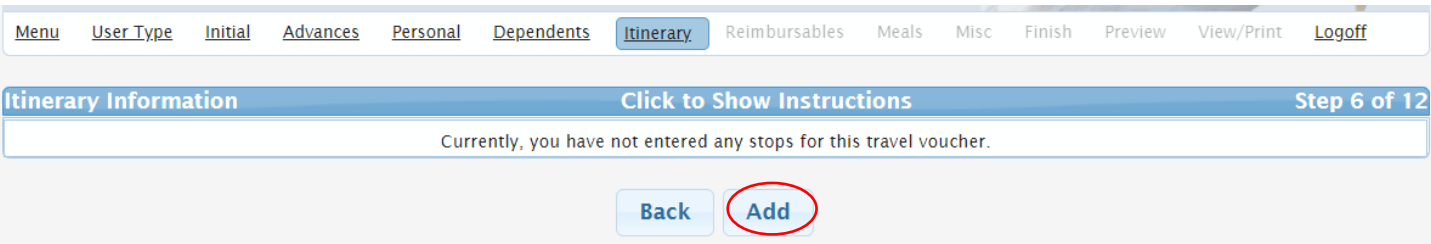

Instructions:

1. Begin your travel itinerary with the date that you officially began traveling, and from the location (Installation/Base/City) that you officially traveled from under the applicable travel order.
Note: Under normal circumstances, when completing a PCS move the departing location for the itinerary should be the location (Installation/Base/City) of your OLD Permanent Duty station.
2. List ALL locations where authorized travel was performed and any overnight stops.
Note: Any deviations from your travel orders such as non-government travel, return trips home while in a travel status, or any Leave taken should be reflected in your itinerary.
3. It is only necessary to claim the number of miles for terminal mileage, which is transportation to/from a terminal. All other mileage determinations will be based on mode of travel, owner/operator status, and calculated by the Defense Table of Official Distances (DTOD). In order to claim terminal mileage, the location that you drove to/from the terminal must be included in your itinerary.
Example: A traveler's orders directs him/her to travel to Fort Bliss. The traveler is flying to Fort Bliss. The individual is leaving from home, driving to the airport, and then flying to their TDY location. In the itinerary the traveler must show the method of travel to the airport, and include the stop at the airport as awaiting transportation, in order to claim mileage to the airport.
Note: Failure to input a complete and accurate itinerary may require deletion or editing of travel legs. Common errors result from:
 - Missing a stop (forgot to include a leg of the travel)
 - Incorrect arrival or depart dates

I have read the instructions for the itinerary, and I understand that to receive accurate and timely payments of all travel entitlements, the itinerary must be complete and exact.

Once you have reviewed the instructions, click the checkbox at the bottom of the page.

Select Add to begin your itinerary.

The screenshot shows the same web application interface as above. The "Itinerary Information" section now displays the text: "Currently, you have not entered any stops for this travel voucher." Below this text are two buttons: "Back" and "Add". The "Add" button is circled in red.

Your answers to these questions will trigger additional questions to be answered, prompt you for supporting documents, and will help to populate your travel claim.

Click Save to enter an additional itinerary leg.

SmartVoucher will prompt you for additional legs to your itinerary until your reason for stopping is Mission Complete.
